### **Essentials of Machine Olfaction and Taste**

This book discusses heritage stones which were used in the making of the architectonic heritage of Delhi and Agra, encompassing UNESCO world heritage sites and heritage sites designated as prominent by the Indian government. The most famous monument of the two cities is the 'Taj Mahal' of Agra. The book focuses on the geological characteristics of the famous Makrana marble, red sandstone and other sandstone variants of the Vindhyan basin and Delhi quartzite, the most widely used stones in almost all the monuments, as well as on their quarries. The work also aims to sensitise the public to protecting and preserving

the architectonic heritage of these two densely populated cities in India as repositories of our past cultures and traditions. Identifying the nature and provenance of stones/rocks used in construction will lead to better restoration for future generations, in light of the deterioration of architectonic heritage through various natural weathering agencies and anthropogenic activities. The book will serve as a useful source book to economic geologists, geologists, archaeologists, architects, historians and stone industry operators specifically and to academic and non-academic communities, travellers and tourism industry operators in general. The book will benefit students, researchers, and rock enthusiasts spanning all age groups and academic levels.

Australian life has never had a chronicler quite like the Vagabond. Renowned as journalist and 'eminently unconventional character', he suffered extremes of poverty and prosperity. These enabled him to record first-hand experiences revealing the degradation of life in the festering slums of the Victorian era. They also enabled him to write convincingly about the emergence of a well-off middle class in the fast-developing colonies. The Vagabond repeatedly shocked newly respectable citizens with his lively reporting of scandalous situations - baby farming, harsh conditions in prisons and asylums, savage sporting events, the life of the demi-monde, and pathetic pauper funerals. This selection of the Vagabond's best work includes a lengthy introduction to the 1969 edition, which attempted to explain the mysteries of his origins and adventures, and the reasons he always used pseudonyms after fleeing from the USA to Australia. Additional material in this edition reveals for the first time the details of his earlier life in Virginia, USA. Here he married the widow of a rich planter, used her money to build a delightful Southern mansion, became a leading light in society, took control of the local bank, and absconded when things went wrong. The rascal managed to redeem himself

with his unique work for Australian newspapers, where no-one realised his true identity. A further addition to this volume is a scholarly examination of the Vagabond's pioneering technique of 'immersion journalism', where the reporter becomes part of the story and gives his own observations and opinions.
