Arthur's Lost Puppy

OVER HALF A MILLION COPIES SOLD! Winner of the E.B. White Read Aloud Award It started the summer of 2002, when the Springfield librarian, Molly McGrew, by mistake drove her bookmobile into the zoo. In this rollicking rhymed story, Molly introduces birds and beasts to this new something called reading. She finds the perfect book for every animal—tall books for giraffes, tiny ones for crickets. “She even found waterproof books for the otter, who never went swimming without Harry Potter.” In no time at all, Molly has them “forsaking their niches, their nests, and their nooks,” going “wild, simply wild, about wonderful books.” Judy Sierra’s funny animal tale coupled with Marc Brown’s lush, fanciful paintings will have the same effect on young Homo sapiens. Altogether, it’s more fun than a barrel of monkeys!

Miss Mingo and the Fire Drill

*"A sensitive, touching, and sometimes heartbreakingly funny picture of middle school life."--School Library Journal, starred review
Outrageously funny and smart, this story of an obese boy who takes on his bullies is as heartwarming as it is clever. Twelve-year-old Owen Birnbaum is the fattest kid in school. But he also invents cool contraptions--like a TV that can show the past--because there is something that happened two years ago which he needs to see if he ever hopes to unravel a dreadful mystery. But inventor or not, there is a lot Owen can't figure out. Like how his Oreos keep disappearing from his lunch. Or why his sister suddenly wants to be called by a boy's name. Or why a diabolical, scar-faced bully at school seems to be on a mission to destroy him. He's sure that if only he can get the TV to work, things will start to make sense. But it will take a revelation, not a cool invention, for Owen to see that the answer is not in the past, but the present. That no matter how large he is on the outside, he doesn't have to feel small on the inside. With her trademark humor, Ellen Potter has created a larger-than-life character and story whose weight is immense when measured in heart. Praise for Slob: A Junior Library Guild Selection! "Potter delicately and confidently delivers a pitch-perfect story of self-worth This is a book for everyone: smart, devious, overweight, underweight, shy, courageous and everyone in between." --The Children's Book Review

Arthur Lost in the Museum

NEW YORK TIMES BESTSELLER • SELECTED BY THE ECONOMIST AS ONE OF THE BEST BOOKS OF THE YEAR "A rambunctious book that is itself alive with the animal spirits of the marketplace."—The Wall Street Journal
Freedom's Forge reveals how two extraordinary American businessmen—General Motors automobile magnate William "Big Bill" Knudsen and shipbuilder Henry J. Kaiser—helped corral, cajole, and inspire business leaders across the country to mobilize the "arsenal of democracy" that propelled the Allies to victory in World War II. Drafting top talent from companies like Chrysler, Republic Steel, Boeing, Lockheed, GE, and Frigidaire, Knudsen and Kaiser turned auto plants into aircraft factories and civilian assembly

lines into fountains of munitions. In four short years they transformed America's army from a hollow shell into a truly global force, laying the foundations for the country's rise as an economic as well as military superpower. Freedom's Forge vividly re-creates American industry's finest hour, when the nation's business elites put aside their pursuit of profits and set about saving the world. Praise for Freedom's Forge "A rarely told industrial saga, rich with particulars of the growing pains and eventual triumphs of American industry . . . Arthur Herman has set out to right an injustice: the loss, down history's memory hole, of the epic achievements of American business in helping the United States and its allies win World War II."—The New York Times Book Review "Magnificent . . . It's not often that a historian comes up with a fresh approach to an absolutely critical element of the Allied victory in World War II, but Pulitzer finalist Herman . . . has done just that."—Kirkus Reviews (starred review) "A compulsively readable tribute to 'the miracle of mass production.' "—Publishers Weekly "The production statistics cited by Mr. Herman . . . astound."—The Economist "[A] fantastic book."—Forbes "Freedom's Forge is the story of how the ingenuity and energy of the American private sector was turned loose to equip the finest military force on the face of the earth. In an era of gathering threats and shrinking defense budgets, it is a timely lesson told by one of the great historians of our time."—Donald Rumsfeld
