Jean Marie Latour is a bishop who has been tasked with establishing the Roman Catholic church in New Mexico, which has just officially become a part of the United States. After a treacherous year-long journey to reach New Mexico, Latour finds some of the Mexican religious leaders less than welcoming. Intent on his goal, Latour works for the remainder of his life to build a solid religious foundation in the fledgling territory. Willa Cather was inspired to write *Death Comes for the Archbishop* by the life of Archbishop Jean-Baptiste Lamy who established the Saint Francis Cathedral in New Mexico between 1869 and 1886. HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Perfect for fans of *See You in the Cosmos* and *Where the Watermelons Grow*, author Jenn Bishop's latest novel tells the moving story of a boy determined to uncover the truth. Nothing is going right this summer for Drew. And after losing his dad unexpectedly three years ago, Drew knows a lot about things not going right. First, it's the new girl Audrey taking over everything at the library, Drew's sacred space. Then it's his best friend, Filipe, pulling away from him. But most upsetting has to be the mysterious man who is suddenly staying with Drew's family. An old friend of Mom's? Drew isn't buying that. With an unlikely ally in Audrey, he's determined to get to the bottom of who this man really is. The thing is, there are some fears—like what if the person you thought was your dad actually wasn't—that you can't speak out loud, not to anyone. At least that's what Drew thinks. But then again, first impressions can be deceiving.

## **The Summary**

Moving beyond the (now somewhat tired) debates about secularization as paradigm, theory, or master narrative, Periodizing Secularization focuses upon the empirical evidence for secularization, viewed in its descriptive sense as the waning social influence of religion, in Britain. Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing, each subsuming several sub-indicators, between 1880 and 1945, including the first substantive account of secularization during the fin de siècle. A wide range of

primary sources is deployed, many of them relatively or entirely unknown, and with due regard to their methodological and interpretative challenges. On the back of them, a cross-cutting statistical measure of 'active church adherence' is devised, which clearly shows how secularization has been a reality and a gradual, not revolutionary, process. The most likely causes of secularization were an incremental demise of a Sabbatarian culture (coupled with the associated emergence of new leisure opportunities and transport links) and of religious socialization (in the church, at home, and in the school). The analysis is also extended backwards, to include a summary of developments during the eighteenth and early nineteenth centuries; and laterally, to incorporate a preliminary evaluation of a six-dimensional model of 'diffusive religion', demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred. The book is designed as a prequel to the author's previous volumes on the chronology of British secularization - Britain's Last Religious Revival? (2015) and Secularization in the Long 1960s (2017). Together, they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880-1980.

In his latest handbook on the records of the major Christian religions, Stuart Raymond focuses on the Church of England. He identifies the available sources, comments on their strengths and weaknesses and explains how to make the best use of them. The history of the Church of England is covered, from the Reformation in the mid-sixteenth century until the present day. Anyone who has a family connection with the Church of England or a special interest in the local history of the church will find his book to be a mine of practical information and an essential

aid for their research. A sequence of short, accessible chapters gives an insight into the relevant records and demonstrates how much fascinating genealogical information can be gleaned from them. After providing a brief history of the Church of England, and a description of its organization, Stuart Raymond explores the wide range of records that researchers can consult. Among them are parish registers, bishops transcripts, marriage licenses, churchwardens accounts, vestry minutes, church magazines, tithe records and the records of the ecclesiastical courts and Anglican charities and missions. A wealth of research material is available and this book is the perfect introduction to it.

Why did John Wesley leave the halls of academia at Oxford to become a Church of England missionary in the newly established colony of Georgia? Was his ministry in America a success or failure? These questions-which have engaged numerous biographers of Wesley-have often been approached from the vantage point of later developments in Methodism. Geordan Hammond presents the first book-length study of Wesley's experience in America, providing an innovative contribution to debates about the significance of a formative period of Wesley's life. John Wesley in America addresses Wesley's Georgia mission in fresh perspective by interpreting it in its immediate context. In order to re-evaluate this period of Wesley's life, Hammond carefully considers Wesley's writings and those of his contemporaries. The Georgia mission, for Wesley, was a laboratory for implementing his views of primitive Christianity. The ideal of restoring the doctrine, discipline, and practice of the early church in the pristine Georgia wilderness was the prime motivating factor in Wesley's decision to embark for Georgia and in his clerical practice in the colony. Understanding the centrality of primitive Christianity to Wesley's thinking and pastoral methods is essential to comprehending his experience in America. Wesley's conception of primitive Christianity was rooted in his embrace of patristic scholarship at Oxford. The most direct influence, however, was the High Church ecclesiology of the Usager Nonjurors who inspired him with their commitment to the restoration of the primitive church.

In the dystopian vision of H. G. Wells' novel *The Sleeper Awakes* (1910), a man awakes to a London where all he knew has radically changed after his sleep of two hundred and three years. Due to the wonders of compound interest, he is now this later world's richest man. As a committed socialist and futurist, he now sees his dreams realized and revealed to him in all their abhorrent and frightful glory.
