The Highlow Report

Harrison Ford has been labeled one of the top 100 stars of all time, the sexiest man alive, and the highest-grossing actor in the history of film, yet he still has the appeal of an average guy to whom the common man can relate. He has worked in more than 40 films, as well as in narration roles, documentaries, award shows, and television appearances. He has won more than two dozen awards, including the Lifetime Achievement Award in 2000. This biographical and filmographic work covers Ford's personal life and career, concentrating on his efforts in the film industry. It examines in great detail more than 30 films, including American Graffiti, the several Star Wars outings, Blade Runner, The Fugitive, and Air Force One. It discusses the films' inceptions, writing, casting, sets, schedules, stunts, filming obstacles, openings, earnings, controversies, and reviews. Quotes and intimate anecdotes from the casts and crews are an added bonus. Numerous photographs, a complete film and television listing, a bibliography and index complete the work.

Failed writers and forgotten soldiers. Insanity and nostalgia. Returning home and plummeting to hell. These stories are invigorating, heartbreaking, and tinged with the surreal. "The Unwritten" is about an aging author, haunted by his untapped creativity. "Boats Against the Current" focuses on a WWII soldier who'd rather read than fight. Through "The Door," three kids discover a portal to the unknown. In "Itching and Echoes," obsession and fear swallow one man whole. The collection's centerpiece is "Strawberry Hill." It's about a girl named Lilly, who as a child traveled to a magical realm with purple rivers, neon grass, and towering flowers. But after years of therapy, she no longer believes it exists. Now, her unhinged boyfriend has become infatuated with her mystical past, and will drag her back however he can. It is a breathless story of love and longing. Getting lost in Strawberry Hill is easy. All Dane Gale ever wanted was to be a successful writer. After a few sessions with his new friends Rose and Sherry at a romance book club, well, the more romances they read, the more they're convinced they can do better. And do they ever! They join their creative forces to become "Pamela Clarice," self-published romance novelist. When they look for a cover model for their first book, Dane sees the photos that will change his life. Paul Musegetes is the world's most popular romance cover model, and the most secretive. Dane soon finds himself obsessed with this supernaturally handsome man, and when he meets Paul at the Romance Writers' Ball on the Summer Solstice, he and Paul connect for one night of passion... After that night, Dane's a writing machine. He can't stop writing romances, and every story he touches turns to gold. But he also finds that he can't write anything but romances. And soon he's spending every waking moment of every day writing another after another. Then Dane finds out that this Midas touch has a heavy price. When the year is over, he'll never write again. Not a romance, not a serious novel. Nothing. Not even a grocery list. And that leaves him with only one option - find Paul, and get him to break the curse. But before he can do that, he'll have to track down Paul's equally mysterious photographer, Jackson da Vinci... EXCERPT: I stopped crying around my third drink. Rose and Sherry patted me on the shoulder, and we'd reshuffled the chairs so that my back was to the rest of the bar and nobody could see me blubber. "What am I going to do?" I cried. "I'm going to be...nothing. All my life, all I ever wanted to do was write. And then this happened, and I was writing! And I loved it...love it. But the whole idea was that I'd do this till I got rich, and then, I'd write more books like 'The Doldrums,' and if they didn't sell, well, so what?" I finished off my concoction as Rose signaled for another round. "Maybe," Sherry said, a little wobbly herself after two glasses of wine, "he's been around forever. Paul." "What do you mean?" Rose asked. "Maybe he's been doing this throughout the ages," Sherry mused. "For all we know, he's been crowning the Queen of Romance Novels for eternity." Rose's eyebrows went up. "You mean, like, he schtupped Barbara Cartland?" This made me laugh at the worst moment, and I choked on my drink. But Sherry took her seriously. "Sure, or even Jane Austen, for all we know. Maybe she got some after all. And where else did all these ladies keep coming up with tall dark and handsome, huh?" "But that implies he's immortal or supernatural or..." I tailed off. "We should find his old pics, and run them through some kind of facial recognition software. Compare them to the recent ones, see if he's aged..." Rose shook her head. "No, he doesn't look a day older, but he hasn't been around that many years. And look at Elijah Wood! Ever since 'Lord of the Rings,' he hasn't aged a day." "Maybe he's not human either," Sherry speculated.

"Raw emotion, nonstop action, and relentless pacing makes Backlash another one-night read from Brad Thor, who delivers the book to beat in 2019." —The Real Book Spy #1 New York Times, #1 Wall Street Journal, and #1 Publishers Weekly bestselling author Brad Thor is back with his most gripping thriller yet! In ancient

texts, there are stories about men who struck from the shadows, seemingly beyond the reach of death itself. These men were considered part angel, part demon. Their loyalty was to their families, their friends, and their kings. You crossed these men at your peril. And once crossed, there was no crossing back. They were fearless; men of honor who have been known throughout history by different names: Spartan, Viking, Samurai. Today, men like these still strike from the shadows. They are highly prized intelligence agents, military operatives, and assassins. One man is all three. Two days ago, that man was crossed—badly. Now, far from home and surrounded by his enemy, Scot Harvath must battle his way out. With no support, no cavalry coming, and no one even aware of where he is, it will take everything he has ever learned to survive. But survival isn't enough. Harvath wants revenge. In the most explosive novel Brad Thor has ever written, page after captivating page of action, intrigue, loyalty, and betrayal will keep you hooked until the very last sentence.

"One of the most admired men in the world of seduction" (The New York Times) teaches average guys how to approach, attract and begin intimate relationships with beautiful women For every man who always wondered why some guys have all the luck, Mystery, considered by many to be the world's greatest pickup artist, finally reveals his secrets for finding and forming relationships with some of the world's most beautiful women. Mystery gained mainstream attention for his role in Neil Strauss's New York Times bestselling exposé, *The Game*. Now he has written the definitive handbook on the art of the pickup. He developed his unique method over years of observing social dynamics and interacting with women in clubs to learn how to overcome the guard shield that many women use to deflect come-ons from "average frustrated chumps." *The Mystery Method: How to Get Beautiful Women Into Bed* shares tips such as: *Give more attention to her less attractive friend at first, so your target will get jealous and try to win your attention. *Always approach a target within 3 seconds of noticing her. If a woman senses your hesitation, her perception of your value will be lower. *Don't be picky. Approach as many groups of people in a bar as you can and entertain them with fun conversation. As you move about the room, positive perception of you will grow. Now it's easy to meet anyone you want. *Smile. Guys who don't get laid, don't smile.

A New York Times-bestselling author looks for the meaning of a good life by seeking advice from the very young and the very old. When his first book tour ended, Brad Montague missed hearing other people's stories so much that he

launched what he dubbed a Listening Tour. First visiting elementary schools and later also nursing homes and retirement communities, he hoped to glean new wisdom as to how he might become a better grownup. Now, in this playful and buoyant book, he shares those insights with rest of us --timeless, often surprising lessons that bypass the head we're always stuck in, and go straight to the heart we sometimes forget. Each of the book's three sections begins with the illustrated story of "The Incredible Floating Girl." Brad weaves this story together with lessons of success, fear, regret, gratitude, love, happiness, and dreams to reveal the true reason we are here: to fly, and to help others fly. Beautifully designed and featuring Montague's own whimsical 4-color illustrations that appeal to the kid in all of us, *Becoming Better Grownups* shares the purpose and meaning we can all discover merely by listening, and reveals that--in a world that seems increasingly childish--the secret to joy is in fact to become more childlike.

The Anatomy of Stretching

Project Blue Book

A new edition of the blockbuster book that revealed the top-secret findings of the US government about UFOs. Throughout the 1950s and 1960s, while publicly dismissing the existence of UFOs, the United States Air Force was engaged in a secret program for evaluating every report of unidentified flying objects. Under the code name, Project Blue Book, the Air Force analyzed over 13,000 incidents. The goal of this enterprise was threefold: To determine the cause for each UFO sighting, to assess the security threat for each incident, and to determine how the United States could obtain or create the technology used by UFOs. This book, based on secret files obtained through the Freedom of Information Act, includes accounts of seven of the most important USAF enquiries-- among them the story of the nights the White House was buzzed by UFOs, the mystery of the Lubbock Lights, the full story of Captain Mantell--Ufology's first martyr, and the startling conversion of the prominent astronomer, J. Alan Hynek from UFO skeptic to believer. This is startling and fascinating book that uncovers not only the anatomy of a government cover-up, but also provides stark and chilling evidence that we are not alone. It is all here, government documents, the testimony of scientists, the military, pilots and citizens all over the country who have witnessed UFOS.

Blowback

A weapon designed to decimate the Roman Empire has just become the No.1 threat to the United States. Caught live on Al Jazeera in an off-the-books operation, Scot Harvath's career has been terminated. But when the tide in the War on Terror suddenly turns against the US, the president has no choice but to secretly enlist the help of the man the administration has just fired. Ducking a congressional subpoena, Harvath travels to the Mediterranean, where he learns of a shadowy organization that has been combing the earth for decades in search of the ultimate weapon to use against the USA and her allies. Now, after three summers of record-breaking heat across Europe, one steadily melting Alpine glacier has given up an ancient secret - one with the potential to thrust civilization back into the Dark Ages. From Cyprus, London and Paris, to Italy, Switzerland and Saudi Arabia, Harvath must race against the clock to stop one of the greatest evils ever to face the western world. Look out for the adrenaline-fuelled new Brad Thor novel, Code of Conduct, published in July 2015!

Literary Digest International Book Review

We live in a new age for statistical inference, where modern scientific technology such as microarrays and fMRI machines routinely produce thousands and sometimes millions of parallel data sets, each with its own estimation or testing problem. Doing thousands of problems at once is more than repeated application of classical methods. Taking an empirical Bayes approach, Bradley Efron, inventor of the bootstrap, shows how information accrues across problems in a way that combines Bayesian and frequentist ideas. Estimation, testing and prediction blend in this framework, producing opportunities for new methodologies of increased power. New difficulties also arise, easily leading to flawed inferences. This book takes a careful look at both the promise and pitfalls of large-scale statistical inference, with particular attention to false discovery rates, the most successful of the new statistical techniques. Emphasis is on the inferential ideas underlying technical developments, illustrated using a large number of real examples.

Everyday Baking with Chef Brad

In the eighth action-packed thriller in the New York Times bestselling Pike Logan series, ISIS, the most maniacal terrorist organization the modern world has ever seen, is poised to make their most audacious strike yet. The United States has anticipated and averted countless attacks from terrorist groups—thanks in large part to the extralegal counterterrorist unit known as the Taskforce. But now, a much more insidious evil is about to shatter the false sense of safety surrounding civilized nations. While world powers combat ISIS on the battlefield, a different threat is set in motion by the group—one that can't be defeated by an airstrike. Off the radar of every Western intelligence organization, able to penetrate America or any European state, they intend to commit an act of unimaginable barbarity. Only Pike Logan and the Taskforce stand in the way of an attack no one anticipates, a

grand deception that will wreak unthinkable chaos and reverberate throughout the Western world.

Research Paper RM.

The first Pike Logan novel from New York Times bestselling author Brad Taylor. They call it the Taskforce. Commissioned at the highest level of the U.S. government. Protected from the prying eyes of Congress and the media. Designed to operate outside the bounds of U.S. law. Trained to exist on the ragged edge of human capability. Pike Logan was the most successful operator on the Taskforce, his instincts and talents unrivaled—until personal tragedy permanently altered his outlook on the world. Pike knows what the rest of the country might not want to admit: The real threat isn't from any nation, any government, any terrorist group. The real threat is one or two men, controlled by ideology, operating independently, in possession of a powerful weapon. Buried in a stack of intercepted chatter is evidence of two such men. The transcripts are scheduled for analysis in three months. The attack is mere days away. It is their bad luck that they're about to cross paths with Pike Logan. Because Pike Logan has nothing left to lose.
