A comprehensive introduction to the theory of knowledge; this is a story of what it is to be a rational, sentient human being blessed with a mind, confronted with a complex world. Dr Clare Hay approaches this first book on the theory of knowledge as an introduction to the subject, building it up around the debate between rationalism and empiricism, between the thinking of knowledge as a product of thinking about the contents of our own minds, and the knowledge as a product of our interactions with the world around us. Written for the general reader, it is an excellent starting point for undergraduate and A/AS Level study. Structured around a central narrative thread, it also contains further reading and question sections, with worked exam questions, hints and guidance on the AQA exam. This book will be followed by the publication of The Theory of Knowledge and the Rise of Modern Science, a more sophisticated approach to the subject with an emphasis on the interactions between Science and Philosophy from the 17th century to date.

## **Business Management for the IB Diploma Study and Revision Guide**

The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. This development challenged teachers and students alike, as few Paper 3 practice resources have been available. This is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed easy familiarity throughout their course. With clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. IT is a core resource invaluable to students and teachers alike. Janet Barrow, IB Economics Teacher, OSC Teacher, IB Examiner, author of IB Business Management and TOK teacher resources 20160615
