The Gospel of Luke

The Johannine Epistles are today read as an important part of the Johannine literature. Yet the meaning of the text is often unclear. Part of the problem arises because, although 1 John is called an Epistle, it lacks the formal marks of an Epistle. In 1, 2, and 3 John, John Painter illuminates the relationship 1, 2, and 3 John have to each other and to the Gospel. Painter explains the historical context of the Johannine Epistles using a socio-rhetorical approach. The writings are shown to reflect a situation of conflict and schism within the Johannine community; they seek to persuade the readers of the truth of the writer's message. In this truth, the readers are encouraged to abide if they would have the assurance of eternal life. Painter also examines the inseparable connection between belief and ethical life in active love for one another. Through the socio-rhetorical approach Painter brings to light the continuing relevance of these writings. 1, 2, and 3 John is divided into two parts. Chapters under 1 John are Introduction to the Exegesis of 1 John," *Outline of 1 John, - *First Presentation of the Two Tests(1:6-2:27), - *Excursus: Sin and

The Left Behind Collection

Through the eyes of an inventor of new markets, Good Derivatives: A Story of Financial and Environmental Innovation tells the story of how financial innovation –

a concept that is misunderstood and under attack - has been a positive force in the last four decades. If properly designed and regulated, these “good derivatives” can open vast possibilities to address a variety of global problems. Filled with provocative ideas, fascinating stories, and valuable lessons, it will provide both an insightful interpretation of the last forty years in capital and environmental markets and a vision of world finance for the next forty years. As a young economist at the Chicago Board of Trade, Richard Sandor helped create interest rate futures, a development that revolutionized worldwide finance. Later, he pioneered the use of emissions trading to reduce acid rain, one of the most successful environmental programs ever. He will provide unique insights into the process of creating these new financial products. Covering successes and failures, the story describes the tireless process of inventing, educating and creating support for these new inventions in places like Chicago, New York, London, Paris and how it is unfolding today in Mumbai, Shanghai and Beijing. The book will tell the story of the creation of the Chicago Climate Exchange and its affiliated exchanges (European Climate Exchange, Chicago Climate Futures Exchange and Tianjin Climate Exchange, located in China). The lessons learned in these markets can play a critical role in effectively addressing global climate change and other pressing environmental issues. The author argues that market-based trading systems are a far more effective means of reducing pollutants than “command-and-control”. Environmental markets may ultimately help to find solutions to issues such as rainforest destruction, water problems and biodiversity threats. Written in

an engaging, narrative style, Good Derivatives will be of interest to both practitioners and general readers who want to better understand the creative process of financial innovation. In the middle of so much distrust of markets, it is also a recipe of how transparent, well-regulated markets can be a force for good in the environmental, health, and social areas.

In Time O' Strife

Now Available in Paperback! Second Corinthians is often regarded as the most personal of Paul's letters. In this letter Paul more than once fiercely counters the attacks of his opponents. He extensively describes both the quality and circumstances of his apostolic existence: the sufferings he endures, the opposition he encounters, and his continual care for the churches. Second Corinthians is, therefore, highly significant theologically as well as autobiographically. This letter is an especially important document because of Paul's ongoing reflection on his ministry. It is both profound in its content and style for its original audience as well as for today's readers. It is a message that is relevant to Christians today. Jan Lambrecht, SJ, is professor emeritus of New Testament and biblical Greek at the Catholic University of Leuven, Belgium. "

Our Daft Dog Danny

With this new lectionary commentary series, Westminster John Knox offers the most extensive resource for preaching on the market today. When complete, the twelve volumes of the series will cover all the Sundays in the three-year lectionary cycle, along with movable occasions, such as Christmas Day, Epiphany, Holy Week, and All Saints' Day. For each lectionary text, preachers will find four brief essays--one each on the theological, pastoral, exegetical, and homiletical challenges of the text. This gives preachers sixteen different approaches to the proclamation of the Word on any given occasion. The editors and contributors to this series are world-class scholars, pastors, and writers representing a variety of denominations and traditions. And while the twelve volumes of the series will follow the pattern of the Revised Common Lectionary, each volume will contain an index of biblical passages so that nonlectionary preachers, as well as teachers and students, may make use of its contents.

Black Dog

In the 21st century, new ethnic groups are forming faster than ever before and the role of race and ethnicity studies has evolved in response to this. From policy issues around housing and crime, through to debates about asylum and media representations, sociologists must encounter and explore a vast range of issues in this ever changing field. This book gives an overview of the most important topics that affect the making of race and ethnic relations in contemporary societies. It goes beyond general definitions to explain exactly how and what these issues and debates can tell us about modern society. Using research and statistics to shed light on the most cutting-edge issues, the book takes each major topic in turn and helps readers to think through race and ethnicity on the basis of the most recent thinking in the field. Each chapter explains a range of theoretical and conceptual perspectives, whilst approaching complex ideas in an accessible and insightful way. Written and edited by recognized experts in the field, *Race and Ethnicity in the 21st Century* will be an essential point of reference for researchers and practitioners and key reading for all students of race and ethnicity.

1000 Miles to Glory

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly

negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

In First Corinthians, Paul makes two conflicting statements about women's speech: He crafts a difficult argument about whether men and women should cover their heads while praying or prophesying (11:2-16) and instructs women to be silent in the assembly (14:34-35). These two statements bracket an extended discussion about inspired modes of speech - prophecy and prayer in tongues. From these exegetical observations, Jill E. Marshall argues that gender is a central issue throughout 1 Corinthians 11-14 and the religious speaking practices that prompted Paul's response. She situates Paul's arguments about prayer and prophecy within their ancient Mediterranean cultural context, using literary and archaeological evidence, and examines the differences in how ancient writers described prophetic speech when voiced by a man or a woman.

Cornerstone Biblical Commentary, 1 - 2 Corinthians

This commentary on II Corinthians in the New Testament Library continues the exemplary quality of the series. Frank Matera provides a commentary that is a

close study of the backgrounds and language of the text while also providing important theological insights into the message of Paul for his time and for the contemporary church. The New Testament Library offers authoritative commentary on every book and major aspect of the New Testament, as well as classic volumes of scholarship. The commentaries in this series provide fresh translations based on the best available ancient manuscripts, offer critical portrayals of the historical world in which the books were created, pay careful attention to their literary design, and present a theologically perceptive exposition of the text.

"One of the most exciting of Paul's letters, First Corinthians offers a vantage point from which modern readers can reflect on the diversity in Christian churches today. In First Corinthians, Raymond Collins explores that vantage point as well as the challenge Paul posed to the people of his time - and continues to pose in ours - to allow the gospel message to engage them in their daily lives."--P. In Bartchy's Harvard dissertation, a thorough investigation into the character of slavery in first-century Greece serves as the basis for a rethinking of Paul's advice

to slaves in 1 Corinthians 7:21. Such a rethinking also sheds light on Paul's more general concern that the Corinthian Christians find their identity in their calling as followers of Jesus rather than in their circumstances of race, gender, or socio-political status.

Feasting on the Word

This thorough commentary presents a coherent reading of 1 Corinthians, taking full account of its Old Testament and Jewish roots and demonstrating Paul's primary concern for the unity and purity of the church and the glory of God. Roy Ciampa and Brian Rosner's well-informed, careful exegesis touches on an astonishingly wide swath of important yet sensitive issues, reinforcing the letter's ongoing theological and pastoral significance.

The Big Blue Book of Beginner Books

James Hitchcock gives an extraordinarily incisive analysis of the liturgical abuse and destructive liturgical reforms brought about by professional liturgists and other "experts" over the last thirty years. Hitchcock chronicles the havoc wreaked by modern liturgists who abandoned the noble purposes of the classical (pre-1965) Liturgical Movement whose aim was to deepen people's appreciation of the

inexhaustible mystery of the liturgy by elevating the practice of the liturgy to incorporate neglected riches of earlier centuries, especially the Patristic Age. Instead of seeking a deeper understanding of the great traditions of the Church through the ages, liturgists have sought "relevance" by means of continued adaptation to contemporary culture. Hitchcock reveals how the tendency toward a desacralized liturgy has had the most profound effects on the whole life of the Church, as well as society. One's basic approach to liturgy is likely to be both a reflection and a catalyst to a whole range of values and beliefs. As Hitchcock states, "It is impossible to change basic symbols and rituals without also changing the life of the society whose symbols and rituals they are."

There's nae power on earth can crush the men who can sing on a day like this. A powerful re-imagining of Joe Corrie's neglected classic about a Fife mining community during the General Strike. To raise funds for the soup kitchens feeding the miners and their starving families, Corrie wrote In Time O' Strife in 1926 whilst on strike himself, exposing the brutal lives of a family staring hunger and defeat in the face. Some 87 years later, Graham McLaren has adapted, designed and directed this rarely performed classic play. Created by Graham McLaren (Men Should Weep, A Christmas Carol), the production uses fragments of Corrie's other plays, poems and songs, celebrating his ability as a writer and his contribution to

Scottish culture. This edition pairs Corrie's original text with the script created by McLaren's adaptation process.

No two works in the Pauline Epistles resemble each other as closely as Colossians and Ephesians. Often recognized for their majestic tone and powerful theological statement, Colossians and Ephesians also present many challenges of interpretation. Most commentaries on these letters seem preoccupied with the same few issues, particularly the question of authorship. As MacDonald addresses these classic questions, she offers a fresh perspective on Colossians and Ephesians by making use of insights from the social sciences. Moreover, by paying attention to subtle differences between the two letters, she brings their distinct perspectives into sharp relief. MacDonald highlights the interplay between Colossians and

Ephesians and the social life of New Testament communities. She illustrates how the texts reflect ancient cultural values and are influenced by particular aspects of community life such as worship and household existence. In particular, she reflects on the issues faced by these communities as they formed institutions and interacted with the society around them. She shows the struggles of the New Testament communities to survive and maintain a distinct identity in first-century society. Margaret Y. MacDonald is a professor in the department of religious studies at St. Francis Xavier University in Nova Scotia. She and Carolyn Osiek have coauthored (with Janet H. Tulloch) *A Women's Place: House Churches in Earliest Christianity* (Fortress, 2006). Her research has been supported by the Social Sciences and Humanities Research Council of Canada.

The Cornerstone Biblical Commentary series (18 volumes) provides students, pastors, and laypeople with up-to-date, accessible evangelical scholarship on the Old and New Testaments. Presenting the message for each passage, as well as an overview of other issues relevant to the text, each volume equips pastors and Christian leaders with exegetical and theological knowledge so they can better understand and apply God's Word. This volume includes the entire NLT text of 1st and 2nd Corinthians. Ideal for the NLT reader who wants to do more in-depth study. William R. Baker, Ph.D., University of Aberdeen, is professor of New

Testament at Cincinnati Bible Seminary in Cincinnati, Ohio. He is the general editor of Stone-Campbell Journal and the author and editor of several books and articles, including Evangelicalism and the Stone-Campbell Movement and Sticks and Stones: The Biblical Ethics of Talk. He has also written a commentary on 2 Corinthians for the College Press NIV Commentary Series. Ralph P. Martin, Ph.D., University of London, is in his fifth decade as a teacher, scholar, and mentor. He is Distinguished Scholar in Residence at Fuller Theological Seminary, at the Graduate School of Theology of Azusa Pacific University, and at Logos Evangelical Seminary in Pasadena, California. He is the author of numerous studies and commentaries on the New Testament, including Worship in the Early Church, the Philippians in The Tyndale New Testament Commentary series, and James in the Word Biblical Commentary, for which he also serves as New Testament editor. He also co-edited the Dictionary of Paul and His Letters and the Dictionary of the Later New Testament and Its Developments. Ordained to the Baptist ministry in 1949, Dr. Martin has pastored churches in Dunstable, Southport, and Gloucester, England. Carl N. Toney, Ph.D., Loyola University Chicago, is adjunct assistant professor of New Testament at Fuller Theological Seminary in Pasadena, California. He edited and contributed to the revised edition of 2 Corinthians in the Word Biblical Commentary series and is the author of Paul's Inclusive Ethic: Resolving Community Conflicts and Promoting Mission in Romans 14-15. This study shows that the common view of 1 Corinthians as mainly about 'ethics' and therefore of little importance for 'theology' needs correcting. Furnish argues that 1 Corinthians is an even better place to take the apostle's theological pulse than the allegedly 'more theological' letters to the Galatians and Romans, because here it is especially evident how his thinking about the gospel took place within the crucible of his missionary and pastoral labours. Paul's complex theological legacy is not a systematic theology or even the basis for constructing a theological system. However, we come close to the heart of Paul's legacy in his clear-sighted identification of the gospel with the saving power of God's love as disclosed in Christ, and his insistence that those who are called to belong to Christ are thereby summoned to be agents of God's love wherever in the world they have received that call.

Mobile phone use in the United States has risen dramatically over the last 20 years, and Americans increasingly rely on mobile phones as their sole or primary means of telephone communication. The rapid adoption of mobile phones has occurred amidst controversy over whether the technology poses a risk to human health. Like other devices that transmit radio signals, mobile phones emit radio-frequency (RF) energy. At high power levels, RF energy can heat biological tissue and cause damage. Though mobile phones operate at power levels well below the level at which this thermal effect occurs, the question of whether long-term exposure to RF energy emitted from mobile phones can cause other types of adverse health effects, such as cancer, has been the subject of research and debate. This book examines what is known about the health effects of RF energy from mobile phones, with a focus on the FCC and FDA's regulatory responsibilities; and other scientific research.
