This user's guide takes you through the steps on how to use both the PRED Databank & PopMap software. It also gives a detailed description of the PRED Bank data set. The Population, Resources, Environment & Development Databank (PRED Databank version 2.1) presents data series dealing with various aspects of population, the labour force, economic growth, agriculture, & natural resource use & their trends from 1961 to 1990. The PopMap Retrieval System (PopMap version 3.01), which accompanies the database, makes it possible to generate thematic maps of PRED Bank variables, to manipulate data & save selected data in a choice of data formats.

What is economics? What can - and can't - it explain about the world? Why does it matter? Ha-Joon Chang teaches economics at Cambridge University, and writes a column for the Guardian. The Observer called his book *23 Things They Don't Tell You About Capitalism*, which was a no.1 bestseller, 'a witty and timely debunking of some of the biggest myths surrounding the global economy.' He won the Wassily Leontief Prize for advancing the frontiers of economic thought, and is a vocal critic of the failures of our current economic system.

context and the contents of adaptivity in user interfaces. Part two contains studies on components, tools, and environments for adaptive user interfaces. Part Three is devoted to experience reports from different adaptive user interface projects, while the final part deals with the question of evaluating the impact of adaptive user interfaces on the work process of their users. A state-of-the-art report and taxonomy for the field of adaptive interfaces and a discussion summary are also included. Annotation copyright by Book News, Inc., Portland, OR
