Resources in Education

Having just emerged from a prolonged civil war and faced with the urgent tasks of establishing political stability and reinvigorating an economy in tatters, the Transitional Government of Ethiopia (1991-1995) had to set a new direction for the economic reconstruction and social rehabilitation of the warn-torn and poverty-ridden country. During the Transitional Period a spate of new policies and strategies defining the development priorities, goals and implementation instruments of the new regime led by the EPRDF was introduced. This work is a synthesis of various sectoral policies and an attempt to trace the genesis of the policies, highlight the continuities, significant departures and other salient features. Each of the reviews in this digest briefly analyses the critical elements of the policies, identifies major gaps in the conceptualisation of the policy as well as the achievements registered and the challenges encountered in its implementation. The authors also try to identify the outstanding issues to be addressed by policymakers and suggest remedies. The policy reviews have been grouped into three parts and presented under social, economic and governance sectors.

Paths to College and Career Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6–12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades

6–12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

This World Bank report is a rich compilation of information on teaching learning materials (TLM) in Africa based on the extensive and multi-faceted experience of the author's work in the education sector in Africa. The study examines a wide range of issues around TLM provision including curriculum, literacy and numeracy, language of instruction policy, procurement and distribution challenges, TLM development and production and their availability, management and usage in schools. It also looks at the role of information and communication technology (ICT) based TLMs and their availability. The study recognizes that improved TLM system management is a critical component in achieving affordable and sustainable TLM provision for all students. This study, which draws from more than 40 Anglophone,

Francophone, Lusophone, and Arabic-speaking countries will be particularly useful for policymakers, development partners, and other stakeholders attempting to understand the wide range of issues surrounding the complexity of textbook provision in Sub Saharan Africa.

Erstmals wird hier die Fulle der englischsprachigen Athiopienliteratur geordnet dargeboten. In 100 Sections fuhrt der Autor alle fur die wissenschaftliche Beschaftigung mit Athiopien wichtigen Buch- und Zeitschriftenbeitrage zum Beispiel zur "Historyof Research", "Archaeology", "Religion", aber auch Fragen der "Sociology", "Agriculture", "Zoology" und "Medical Sciences" auf. Wie im Falle der deutschsprachigen Literatur ("Bibliographia Aethiopica: Die athiopienkundliche Literatur des deutschsprachigenRaumes" = Aethiopistische Forschungen 9 [1982]) berucksichtigt der Autor auch alle ihm zuganglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art "Bibliographic Enzyclopedia" entstanden ist.

Bibliographia Aethiopica II

Progressing with Courage

This comprehensive study is the result of research by an interdisciplinary team of international scholars, all with a particular interest in Ethiopia. The first part of the book contains an important classification of Ethiopian languages, looks at their distribution and studies some special language situations. The second part describes the official status of languages, the effects of migrations, urbanization and education, and discusses the spread of Amharic and patterns of bilingualism. The third part analyses in detail the organization of language teaching and teacher training in Ethiopia.

Haile Sellassie's Students

The Routledge Handbook of English Language Teaching

This book discusses reforms that should be undertaken in secondary education to support Ethiopia s transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.

In this extensively revised and enlarged edition of his best-selling book, David Suzuki reflects on the increasingly radical changes in nature and science — from global warming to the science behind mother/baby interactions — and examines what they mean for humankind's place in the world. The book begins by presenting

the concept of people as creatures of the Earth who depend on its gifts of air, water, soil, and sun energy. The author explains how people are genetically programmed to crave the company of other species, and how people suffer enormously when they fail to live in harmony with them. Suzuki analyzes those deep spiritual needs, rooted in nature, that are a crucial component of a loving world. Drawing on his own experiences and those of others who have put their beliefs into action, The Sacred Balance is a powerful, passionate book with concrete suggestions for creating an ecologically sustainable, satisfying, and fair future by rediscovering and addressing humanity's basic needs.

Where Have All the Textbooks Gone?

Proceedings of the Conference on Teacher Education for Sustainable Development in Ethiopia

This book is one of the most influential research studies on Second Language Learning ever undertaken. The Good Language Learner addresses key problems for teachers about the strategies that successful learners use, the attitudes they show to the language they are learning, the nature of their most successful experiences and similar issues. It is based on the direct experience of a wide range of learners. It enables us to recognise the combined roles of fluency activity and natural communication on the one hand, and accuracy activity with formal understanding of the language system and the mistakes that one is liable to make as a learner, on the other hand. Few works of empirical analysis in language teaching have had so much influence, and this edition should be an essential component of any teacher's library in local authority centres, schools, teacher education institutions, and the home library of language teachers.

Education in Ethiopia

A compendium of the latest developments in research regarding English language education for Chinese-speaking learners, this volume combines cutting-edge research from multiple internationally-known scholars. The chapters offer unique insights into some of the most salient issues related to this broad topic. The seventh volume in the Global Research on Teaching and Learning English series, co-published with The International Research Foundation for English Language Education (TIRF), this book features chapters with original research written by TIRF Doctoral Dissertation Grant awardees. The volume addresses the crucial and growing need for research-based conversations on the contexts, environments,

goals, and measures of success for Chinese-speaking learners of English. It includes sections on language assessment, perceptions in university contexts, and technology, especially in relation to young learners, in order to promote in-depth discussion of the teaching and learning of English for native speakers of Chinese. The volume's 13 research-based chapters discuss topics such as the impact and implications of using emerging assessment tools; the increase in English for Specific Purposes (ESP) courses; academic speaking and writing; and teaching in an online or hybrid environment. Throughout the book the authors draw on their knowledge of their multiple contexts, as well as their learners' needs and goals. This volume brings together innovative research for TESOL and TEFL students, language teacher educators, language policy specialists, language assessment scholars, and language teachers. Readers will become familiar with how these issues related to Chinese-speaking learners of English are being addressed in academic circles around the world.

Digest of Ethiopia's National Policies, Strategies and Programs

The Routledge Handbook of English Language Teaching is the definitive reference volume for postgraduate and advanced undergraduate students of Applied Linguistics, ELT/TESOL, and Language Teacher Education, and for ELT professionals engaged in in-service teacher development and/or undertaking academic study. Progressing from 'broader' contextual issues to a 'narrower' focus on classrooms

and classroom discourse, the volume's inter-related themes focus on: ELT in the world: contexts and goals planning and organising ELT: curriculum, resources and settings methods and methodology: perspectives and practices second language learning and learners teaching language: knowledge, skills and pedagogy understanding the language classroom. The Handbook's 39 chapters are written by leading figures in ELT from around the world. Mindful of the diverse pedagogical, institutional and social contexts for ELT, they convincingly present the key issues, areas of debate and dispute, and likely future developments in ELT from an applied linguistics perspective. Throughout the volume, readers are encouraged to develop their own thinking and practice in contextually appropriate ways, assisted by discussion questions and suggestions for further reading that accompany every chapter. The Good Language Learner

The main focus of the study is the deepening crisis of the Ethiopian education system. This study reconstructs the growth of the crisis of the sector during the last four decades. It then discusses the implications of the crisis in terms of communication breakdown; absence of analytical capacity at system level; the fragmentation of society; loss of political legitimacy and perpetuation of authoritarian power. Although the education sector has greatly expanded its impact on poverty alleviation has so far been insignificant. The poverty landscape has changed to the worse during the last fifty years. This is largely due to the fact that the Ethiopian education system is based on false premises. At the center of the crisis is the use of English as medium of instruction. The proficiency in English is so low that its continued use as a medium of instruction can only lead to the collapse of the education system. The study argues that it is only through language (readily understood and practiced) that collective life and the world can be interpreted in an integrated manner. The replacement of English by Ethiopian languages all the way from the primary to tertiary levels is one of the factors that could strengthen the survival potential of the Ethiopian political community. The study is relevant for policy makers and students of development studies on the role of education in social change in Africa south of the Sahara.
