This Love that Feels Right . . .

The 2010 candidate for Senate—and established political "troublemaker"—voices the quiet anger in America today: where it comes from, what it's asking for, and where it's going from here *Time Magazine From the moment she upset a heavily-favored incumbent in the primary for the special election to fill the Senate seat vacated by Joe Biden, Christine O'Donnell made headlines. Though she didn't win the general election, O'Donnell did win the designation of 2010's Most Covered Candidate. And what people were talking about wasn't just gossip: they responded to a fresh, unencumbered voice that appealed to voter frustration with politics—and politicians—as usual. America's strength lies in its government "by the people, for the people", but too many of those people feel they are now just labeled featureless residents of "flyover country", told what to think and what they can and cannot do by an entrenched, reigning class of elites. O'Donnell's candidacy gave hope that the voices of real people—the people—not only can be heard but can also become a force. Part of this hope is invested in the nascent Tea Party, but most of it is invested in individual voters who are willing to work hard and make sacrifices for what they believe in, not what backroom dealing and a bloated federal government has mandated is good for them. Troublemaker is about where O'Donnell comes from—the Philadelphia suburbs with five kids to a room—and what she weathered in the 2010 election. But the core of the book is a clear, straightforward discussion of an America that yearns to embrace freedom and opportunity through personal responsibility, and how it is hamstrung and stymied by excessive regulation, taxation, and the sanctimony of a "nanny state." And Troublemaker will deliver an important, rousing message about what we do with the quiet anger in America today: where we can go, and how strong we can be, from here. Warning readers that challenging the status quo makes the political establishment push back, O'Donnell wants to build a movement that will continue to goad it. It's practical, too, since O'Donnell believes in power through participation: it's not enough to grumble about how things are going; pitch in and try to change things if you care. O'Donnell details how she participated by running for high office as an everywoman, but also shows how attending town council meetings, organizing a petition drive, making an effort to meet a staffer in your

local representative's office, or simply reading the minutes from your community board can make a difference.

Is Your Self-Esteem Other-Dependent? Are you unhappy and don't know why or how to fix it? Do you compare yourself to others and end up feeling bad about yourself? Do you worry about what others think about you? Is being successful and having it all not enough? Have you given up on yourself? If your answer is yes to any of the above, you may have other-dependent esteem. According to licensed counselor and self-esteem expert Patricia Noll, other-dependent esteem means that our happiness and self-worth depend upon something outside of ourselves, such as: what we have, do, and know what others think about us looking good being right achievements and accomplishments being the best and more. The problem is that nothing outside of ourselves can truly make us happy—at least not for long. Other-dependent esteem creates a cycle of stress, addictive behavior, dependency, and ultimately deep unhappiness. In *Good With Me*, Noll presents the same revolutionary approach that has helped her clients at Focus One shift from other-dependent esteem to true, self-dependent esteem—and experience freedom from crippling effects of other-dependency. This simple, practical, step-by-step solution will also help you finally achieve lasting happiness from the inside out, regardless of circumstances. Patricia Noll is a licensed mental health counselor, certified addictions professional, and acupuncture physician. As the founder of Focus One, an outpatient substance abuse program licensed by the state of Florida since 1989, Noll specializes in addressing self-esteem as the root of all addiction. She has appeared on television as an addictions expert, and her addiction treatment manual has received endorsements from Deepak Chopra, Larry Dossey, Jack Kornfield, and Jacquelyn Small. Her mission is to help build a society based on true self-esteem, solving the global challenges created by our other-dependent society one person at a time.

The Golden Crumbs

Stella Wade’s career as a concert pianist might have been ruined at the outset by the rudeness of a famous conductor; so it seemed to Duncan, her handsome agent, and to Bernard, her teacher and benefactor. However, Sir Nicholas is more understanding than they realise, but even he fails to see the possibilities when John Tallis, the wealthy and talented American, falls deeply in love with Stella. A story of wandering minstrels, wandering world-wide rather than through highways and byways; but needing just as much courage and stamina as those who wandered centuries ago, with their harps and flutes on their backs.

At Last, Life Forever

DAISY IN A GUN BARREL PEACE AND FREEDOM, LOVE AND WAR, ROCK AND ROLL THE 1960s ~ Penelope Fox If you happen to be an American Idol fan, recognize Eric Clapton or Bob Dylan in television commercials, listen to classic rock, or follow the clash of conservatives and liberals in Congress, you know that the 1960s remain with us, even fifty years after the impact of the era. The dilemmas of that decade continue to confound us as we grapple with the ideologies that entered the consciousness of the nation during those years. A cascade of front page news marks the period: the election of youthful, progressive, President John F. Kennedy and the fear-mongering, strangle-hold of the CIA and FBI; peace movements versus military efforts; marijuana-smoking, long haired Hippies in loose fashions clashing with strait-laced, buttoned up, conservative law enforcement; Dr. Martin Luther King Jr. and civil rights, followed by womens rights, workers rights and everyone wondering what was right. More incongruities arose from international oil production and giant factory output clashing with breakthrough biological science and environmental concerns. Satellite communication battled with censorship in broadcasting. Youthful interest in the Third World, especially Asia, was shattered by a horrific, undeclared war that lasted for fifteen years and created a generational divide that has never been breached. A background of iconic music continues to remind us of the colorful history of the 60s. But what about the everyday lives of young people thrust into that psychedelic and political maelstrom? What was it like for the individuals trying to be heard over the roar of questionable politics? One answer lies in the collective voice of music that framed

a lyrical diary of their experiences. Daisy in a Gun Barrel is the story of Dianna, a teacher, and Randall, a musician, who find romance in college, and shortly thereafter are torn apart by war and circumstances. It is a story of people coming to terms with personal and political beliefs, only to find that society clashes with their viewpoints at every turn. There is a generation determined to change the world into a better, kinder, more democratic place. Little did they know the impact of their ideals, or the real and metaphorical ammunition that would be leveled against the beliefs they viewed as right, moral, and constitutional. Rock and roll with Dianna and Randall through the tumultuous and exciting years of 1962 through 1970, and consider the impact of their generation. Smile at their optimism, weep with their losses, and celebrate the memorable songs that grace the years. Join the characters as they encounter turning points and question authority. This is history, alive and kicking, with a strong appeal to the curious young, who were not there, and to the post flower children who would like to remember. Light the incense, slip into something tie-dyed, and revel in the events that illuminate this carefully researched and truly American story, before time and historians erase the vibrant, human essence of this powerful decade. You must be the change you wish to see in the world. ~ Mahatma Gandhi

No Place Like Home

The death of a student, especially to gun violence, is a life-changing experience that occurs with more and more frequency in America's schools. For each of these tragedies, there is a classroom and there is a teacher. Yet student death is often a forbidden subject, removed from teacher education and professional development classes where the curriculum is focused instead on learning about standards, lesson plans, and pedagogy. What can and should teachers do when the unbearable happens? *An Empty Seat in Class* illuminates the tragedy of student death and suggests ways of dealing and healing within the classroom community. This book weaves the story of the author's very personal experience of a student's fatal shooting with short pieces by other educators who have worked through equally terrible events and also includes contributions from counselors, therapists, and school principals. Through accumulated wisdom, educators are given the means and the resources to find their own path to healing their students, their communities, and themselves. "A dreadful script had been written for our school and town (and the world) but this did not mean that a new script could not be written by us. We didn't have to subscribe to the tragic script beyond our control. It was time to rewrite." —Lee Keylock, high school teacher, Sandy Hook, CT "This book is a meditation on the unspeakable horror and ensuing anguish that follows the death of a student. A heretofore taboo subject, teachers have much to share about their creative, improvisational praxes when shared cultural scripts in urban

classrooms are unavailable. This moving and poignant text illuminates as much as it inspires. —Angela Valenzuela, Professor of Education, University of Texas, Director of the Texas Center for Education Policy “Written by the most important kind of expert, someone who has been there, Dr. Ayers candidly discusses his own struggles following the violent death of one of his students. This book serves as an invaluable guide, providing research and practical tools on how to respond to a student death and facilitate a safe space in the classroom where students can ask questions, express emotions, and process their grief. This is a must-read for every teacher, administrator, and counselor so that a school is well prepared in the event of a tragedy.” —Heidi Horsley, executive director, Open to Hope Foundation, adjunct professor, Columbia University School of Social Work “For those who teach, this book will likely evoke painful memories of loss and unrealized potential that accompanies the tragedy of any student's death. Classrooms and communities are worlds of their own, where saving one life or inspiring someone in even the most minute or momentary way can mean saving a whole world. Ayers's book honors the lives of both teachers and students. It is a book for all of us.” —Jack Weinstein, director, San Francisco Bay Area, Facing History and Ourselves

The Holy Bible is a life-giving collection of sixty-six inspiring literary masterpieces. Hebrews 4:12 states that The word of God is living and powerful, and sharper than any two-edged sword, piercing even to the division of soul and spirit, and of joints

and marrow, and is a discerner of the thoughts and intents of the heart. The author has first encountered this life-changing word of God over 40 years ago; his life got drastically changed. This book is a collection of his personal thoughts and experiences compiled daily as he studied the Bible during his devotional time. Indeed, great blessings are experienced when the Bible is studied in its entirety. Yet, even a quick perusal can be spiritually beneficial, too. We may liken a Bible verse merely as a crumb from the whole loaf of Gods word. But they are golden, hence, the title The Golden Crumbs.

Please Don't Say You Need Me. . . is a common plea voiced by people trapped in unhealthy, codependent relationships. Confused by their conflicting emotions, they feel trapped between wanting to love and care for someone else and yet, at the same time, needing to escape from that person's intense and suffocating demands for self-esteem. Jan Silvius offers practical, biblical answers for those dealing with codependency—actually, people-dependency—that can exist between mates, siblings, parents and children, and friends. Who is the codependent person? What is a codependent relationship? What role does guilt play in a codependent relationship? Can Christians be codependent? Jan Silvius answers these questions and shows readers how to identify and break the cycle of a codependent relationship in a loving, scriptural manner. Here is insight, hope, and encouragement for replacing unhealthy ways of relating with a new approach that can bring balance and wholeness.

Galgorithm

It is as if I am slowly sinking in the water, just occasionally making it back to the top for a gulp of air – to a sort of memory of what life can be – what life should be – and then down down down I go again. And each time the surfacing gets harder and harder and requires a greater feat of will, kicking and turning and fighting against the undertow. What I fear most is that as the memory gets fainter and fainter – that eventually I will just give into it and go under, relieved that I don't have to struggle anymore, that I can just sink into to this blessed oblivion, give into this siren song of domesticity. The only child of two famous but self-absorbed artists, Zelda Steele is adopted by her parent's patrons when she is just a baby. Great things are expected of this privileged young woman, but at twenty-seven Zelda is dead, leaving two young children and a body of work that only hints at her promise. Decades later, Zelda's daughter Ruth returns to her childhood home to find the diaries her mother is rumoured to have kept. What they reveal takes her on a journey into the past: her mother's, her grandmothers and, ultimately, her own. Weaving together the narratives of three very different women, living in vastly different times, *The Steele Diaries* paints a rich and evocative portrait of the Sydney art scene from the thirties to the seventies, and the eternal conflict between motherhood and self. "As a fan of *Out of the Silence*, the author's award winning debut, I had high hopes for this second effort – and it didn't disappoint. *Diaries* is a wonderful exploration of the tricky relationship between motherhood and art." — WHO Magazine

Yummy Me Feels So Good

"This invaluable work will contribute much to the battle against our number one disease."—from the Foreword by George McGovern, former senator and author of *Terry: My Daughter's Life-and-Death Struggle with Alcoholism* Alcoholism is a disease. It's time we started treating it like one. Science has offered undisputed proof that alcoholism is a disease rather than a weakness of character, yet millions of alcoholics continue to suffer due to inappropriate treatment. Now the co-author of the modern classic *Under the Influence* has teamed up with prominent alcoholism experts to provide new answers to this national epidemic. Based on the latest scientific research, *Beyond the Influence* clearly explains the neurological nature of the disease and reveals why some people drink addictively and others do not. It also spells out what needs to be done to treat alcoholism, including: Steps to take for an intervention How to find the right treatment program Which psychological approaches work best Why spirituality is essential to recovery New insights into relapse prevention What you should know about diet, exercise, and nontraditional treatments such as acupuncture Provocative and eye-opening, compelling and compassionate, *Beyond the Influence* is not only a message of hope for alcoholics--it is a blueprint for saving lives. *Beyond the Influence* explains that alcoholism is a disease of the body, not a weakness of character. Drawing on the latest scientific studies, the authors present new research on the central role of genetics and neurotransmitters in addiction. Continuing where the prior book left off, it also includes: Steps for diagnosis and intervention, plus ways to prevent relapses Various treatment models, including inpatient and out-patient programs and a review of new drug treatments The most effective types of psychological counseling The critical role of nutrition Non-traditional healing methods for recovery The importance of a spiritual component to recovery The authors also critique our nation's alcoholism policies, including education and prevention programs, efforts to curtail college bingeing and underage drinking, and the advertising and marketing strategies of the alcohol industry.

Adults are increasingly concerned about the rising rate of depression in teenage girls and the frequency of alarming behaviors including wild conduct, explosive outbursts, back talking, sexual escapades, drug experimentation, and even cutting, eating disorders, and suicide attempts. The Disappearing Girl, the first book on depression in teenage girls, helps parents understand:

- Why silence reflects a girl's desperate wish for inclusion, not isolation
- Subtle differences between teen angst and problem behavior
- Vulnerabilities in dating, friendships, school, and families
- How, if untreated, girls will carry feelings of helplessness, anger, and depression into adulthood

Dr. Machoian also offers conversation topics to help girls navigate mixed messages, develop their identity, make healthy decisions, and build resilience that will empower them throughout life, as well as helping parents

manage their own frustration.

You will want to take some time to savor the wisdom and healing that flow from these pages. What you are about to read will challenge you, disturb you, and in some cases, infuriate you. But ultimately, you will be transformed by the power of Gods love and the possibilities it opens for those who put their trust in Him. When Wrong Feels So Right

An Empty Seat in Class

Liza Barclay, aged 10, shot her mother while trying to protect her from her violent stepfather, ex-FBI agent Charley Foster. Despite her stepfather's claim that it was a deliberate act, the Juvenile Court ruled the death an accident. Many people, however, agreed with Foster and tabloids compared Liza to the infamous murderess, Lizzie Borden, pointing even to the similarity in name. Growing up with adoptive parents who tried to erase every trace of her past, her name is changed to Celia. Always, though, the fear hung over her and the family - that someday, her vengeful stepfather would reappear to harm her. Aged 25, a successful interior designer, she marries a childless sixty-year old widower and they have a son. Before their marriage, she had confided her earlier life to her husband. Two years on, on his deathbed, he tells her that he would want her to re-marry, but makes her swear never to reveal her past to anyone, so that their son would not carry the burden of this family tragedy - a promise that plunges her into a new cycle of violence. Three years later, happily re-married, Celia is shocked when her second husband presents her with a gift -- the house where she killed her mother. When the real estate agent who has made the sale recognises her and, soon after, is murdered, Celia is accused of the crime. Once again, she is home -- the place where she is stamped as a murderess.
