TWENTY-FIRST CENTURY'S FUEL SUFFICIENCY ROADMAP

Ferrari has been producing race and road cars for more than 60 years. In the distinctive "Ferrari Red," legendary cars with names like Monza, Testa Rossa, and Daytona turn heads from Monaco to Japan and around the world. In Ferrari, 60 milestone vehicles from across the company's history are profiled in detail, with a short history of the car, engine, and team, along with performance specs, trivia, and a detailed photo library. For any fan of Ferrari or performance cars in general, this is an enjoyable read full of valuable information and gorgeous color photos.

Ferrari. The Turbo Eight Cylinders (1982-1989)

Cars

Celebrates the history of Italy's great automotive innovator in over 700 photographs, designs, and drawings.

Republican Party Reptile

L'opera tratta la storia, attraverso sia il racconto che le numerose immagini (288 a colori, 4 in bianco e nero), delle quattro Ferrari stradali turbocompresse otto cilindri degli anni '80: dalla 208 turbo alla F40, con cenni anche alle vetture di Formula 1 da cui questi modelli discendono. Inizia con illustrare la genesi della gamma Ferrari ad otto cilindri con motore centrale, quindi le modalità e motivazioni del loro passaggio alla sovralimentazione, non tralasciando di fornire aneddoti e ricordi personali dell'autore. Passa poi a descrivere le Ferrari stradali turbocompresse degli anni '80, in particolare quelle con motore due litri, con informazioni ed immagini di dettaglio. Il racconto è arricchito da numerose ed inedite interviste ad addetti ai lavori coinvolti a vario titolo nella realizzazione di queste vetture, inclusa una sia pur breve testimonianza di Enzo Ferrari. Si conclude con una "guida all'acquisto" di questi modelli (con particolare riferimento ai modelli due litri) ed un breve accenno ai modelli attuali della Ferrari dotati di motore turbo otto cilindri installato in posizione centrale.

Ferrari

Cars of Eastern Europe

This reference features the best models from the greatest manufacturing companies of the world, both past and present. Alphabetized entries include a short history of each manufacturer. Specific models of 600-plus cars are examined in detail and illustrated by color and bandw photos highlighting their unique qualities. The story of each classic car is complemented by performance tables that include information such as maximum speed and power, engine type, and details of transmission, chassis, suspension and brakes. Oversize: 9.5x12". Annotation copyrighted by Book News, Inc., Portland, OR

Ferrari 308 & Mondial Ultimate Portfolio 1974-1985

Ferrari 308, 328 and 348

One more book on Ferrari ?Yes, but no one has written a book on the Ferrari 250 GTE 2 + 2 model.Today in 2017, this is a first step thanks also to my photographer friends.The magic number for many Ferrari enthusiast is that of the famous 250 series which represents 14 years of production (1952-1966), with numerous bodies from different coachbuilders, many sometimes-similar models, one-offs and racing specials.The 250 GTE 2+2 was the biggest commercial success of Ferrari.Relive this unforgettable moment of this third International 250 GTE 2+2 Meeting at Le Mans 2016.17 Ferrari 250 GTE 2+2s from 7 different European countries participated in the Meeting.14 GTEs took the track of the Circuit to commemorate the first official presentation of the Ferrari 250 GTE in June 1960 in Le Mans, 56 years after.

Autocar & Motor

Introduces various classic European, American and Japanese sports cars.

Standard Catalog of Imported Cars 1946-2002

For nearly 60 years, Ferrari has built the sports cars which fire enthusiasts' dreams. This book catalogs the Maranello factory's output: more than 180 designs are illustrated with both artworks and photographs. Organized in chronological order and subdivided into touring, sport cars, and Formula One single-seaters, each design has its own technical specification and a text that details the principle engineering and sports successes. The work is complemented by a listing detailing all the key victories in more than 50 years of racing.--From publisher description.

The Complete Guide to the Ferrari 308/328/Mondial

The 308 GT4 was a replacement for the original 246 series Dino. It wore the Dino badges and it shared the 246's transverse mid-engined layout. It was a 2+2 rather than an uncompromising two seater, and it broke new ground in having a body styled by Bertone. Sales were steady but not spectacular. The Dino badging was dropped in May 1976 and production began to trail off during 1978 - the last one was built in January 1980. The Mondial didn't fare very well - it was a heavier car and a disappointment to Ferrari fans and only survived until 1982. However, the Mondial Quattrovalvole showed that Modena had got the formula right this time and when a gorgeous cabriolet version joined the original coupe in 1984, sales

practically doubled overnight. There are plenty of Ferrari enthusiasts who number the models in this book among their most coveted cars, and they will find plenty to feed their passion on its pages.

Ferrari, 1947-1997

Weber Carburetors

Ferrari Racing

Packed with more than a hundred completely charismatic classic cars, this book is the ideal gift for anyone driven to admire these majestic machines. Author Quentin Wilson has hand-picked the most astonishing, appealing, and all-round awesome cars ever to hit the highway. NADA Consumer Classic Collectible and Special Interest Car Appraisal Guide

The Book of the Ferrari 288 GTO

More pages, more cars, more photos, and more value charts than ever before! This Favorite reference among serious car collectors is the ultimate up-to-date guide to automotive values. From the rarest automobiles in pristine condition to more common cars considered restorable, the editors of Cars & Parts magazine, who boast more than 40 years of experience in the collector car hobby, give readers an accurate value and picture for every major domestic and imported collector car built from 1900 through 1990. A generous selection of color photos, as well as black-and-white images, an easy-to-read format, and recent auction results elevate this guide to class of its own.

World Cars, 1983

The Encyclopedia of Classic Cars

Cars of Eastern Europe tells the story of the cars and vans made in Latvia, Poland, the former Yugoslavia, the Czech Republic and Slovakia, Hungary, Romania, Bulgaria and East Germany. In a region that stretches from the Black Sea to the Baltic, the vehicles were as varied as the nations themselves. Now that eastern Europe has come in from the cold, this book offers a unique and timely survey of the motor industry in this often overlooked part of the continent.

"An illustrated history of the people, the companies, and the engineering behind the development of the Ferrari hypercars, beginning with Enzo Ferrari's earliest designs and ending with 2013's LaFerrari"--Provided by publisher.

Cars & Parts Ultimate Collector Car Price Guide

Writings from the old-school Republican and New York Times–bestselling author of *How the Hell Did This Happen?: “Hilarious”* (Christopher Buckley, author of *Thank You for Smoking*). In this collection of pieces, the outrageous political satirist renowned for such classics as *Parliament of Whores* takes on a wide range of cultural and political issues, and explains the platform of the Republican Party Reptile: “I think our agenda is clear. We are opposed to: government spending, Kennedy kids, seat-belt laws . . . busing our children anywhere other than Yale, trailer courts near our vacation homes . . . all tiny Third World countries that don’t have banking secrecy laws, aerobics, the UN, taxation without tax loopholes, and jewelry on men. We are in favor of: guns, drugs, fast cars, free love (if our wives don’t find out), a sound dollar . . . and a strong military with spiffy uniforms. There are thousands of people in America who feel this way, especially after three or four drinks. If all of us would unite and work together, we could give this country . . . well, a real bad hangover.” “To say that P. J. O’Rourke is funny is like saying the Rocky Mountains are scenic—accurate but insufficient. At his best he’s downright exhilarating . . . Republican Party Reptile is as rambunctiously entertaining as a greased pig catching contest. If you can find a funnier writer than P. J. O’Rourke, buy him a brandy, but don’t lend him the keys to your pickup.” —Chicago Tribune

Executive

Discusses the history and the dynamics of the popular Italian sports car.

The Motor

This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot, little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. & break;& break; Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. & break;& break; Collectors, restorers and car buffs will love this key book from noted automotive authors, James Flammang and Mike Covello.

Automobile Quarterly

Classic Sports Cars

This handbook of super cars features an international array of car models, a cultural history of the automobile for drivers and dreamers alike. Also includes charts that outline key stats, from speed to engine capacity and suspension.

Cool Cars

The Illustrated Book of Classic & Dream Cars

From the sensational Chevrolet Corvette to the stream-lined Toyota Celica, here is the ultimate history of classic cars manufactured since 1975, plus those dream and futuristic cars that were marvels of car design but never made it into production. This comprehensive visual reference shows every important marque from A-Z, highlighting some of the most significant and beautiful cars of the century. Detailed descriptions, history and technical information accompany every entry, making this the most authoritative and comprehensive guide to the contemporary classic car. This book also highlights the world's dream cars that were built as showcases but were never actually mass-produced. From major design

houses such as Bertone and Ghia, these cars are at the very cutting edge of car design: futuristic models that were deemed too daring, too brash or too expensive to make commercial sense, but which pay tribute to the imagination and drive of car designers today. With over 800 stunning images, this title is the definitive gallery of classic and dream cars and the decisive reference book for every enthusiast and lover of the automobile.

Ferrari - LE TURBO OTTO CILINDRI (1982-1989)

Ferrari 308, 328 and 348 traces the complete story of the four models of Ferrari's V8-powered sports cars between 1973 and 1995 - the cars that broke Ferrari out of the V6 and V12 moulds, with the V8 becoming Ferrari's most popular engine choice in the final decade of the twentieth century. The book covers the history and development of Ferrari's new V8 engine, and the 308's daunting role as successor to the popular Dino. There are specification tables and production figures for the model variants, along with details of concept cars and other related models, and a review of competition exploits. The book also considers the cars' current position in the classic car market and offers insight into the rewarding ownership experience each of the models now represents. The book covers: design processes and styling by Bertone and Pininfarina; concept cars and rivals; the cars in competition; owning and running the cars today. With a guide through the entire lifespan of these exciting V8-powered sports cars and superbly illustrated with 295 colour photographs, this is essential reading for the Ferrari aficionado.

FERRARI 250 GTE Meets Le Mans

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

Ferrari V8

This book covers the background, conception, design, production and aftermath of the iconic Ferrari 288 GTO, including the prototypes, the early production cars, the mainstream production cars in their various specification guises, and the Evolution cars planned for the aborted Group B FIA race series. It features over 400 relevant photographs, from original

production images to the cars as they are today, including the 1984 Geneva Salon where the car debuted, the first ever GTO Reunion in 1985, current salon and action images, right up to the 25th Anniversary Ferrari 288 GTO Reunion held in America in 2009. Also featured are the actual factory production approval sheets, as filed with the Italian government, in an illustrated technical drawing form, along with a chassis by chassis register of every 288 GTO built, including destroyed prototypes, production cars, and GTO Evoluzioni - in fact all 284 cars ever built.
