This book is the fourth edition of a highly practical guide to the leading cases in European Competition Law. It explores the application of Article 101 TFEU, Article 102 TFEU and the European Merger Regulation, as well as the public and private enforcement of Competition Law. In addition, it reviews the intersection between Competition Law and Intellectual Property Rights and the application of Competition Law to State action. Each chapter outlines the relevant laws, regulations and guidelines for each topic. Within this framework, cases are reviewed in summary form, accompanied by analysis and commentary. "This book should be in the library of every competition law practitioner and academic. The summary of cases is first class. But what makes it really stand out is the quality of the commentary and the selection of the material which includes not only the most important European judgements and decision but also some of the leading cases from the US and European Member States." Ali Nikpay, Gibson, Dunn & Crutcher "The study of EU Competition law requires the analysis and understanding of a number of increasingly complex and lengthy European Commission and European Court decisions. Through the provision of case summaries, excerpts from the important passages and concise commentary linking these decisions to other key case law and Commission documents, this unique and impressive book provides the student and practitioner of EU competition law with an extremely clear and useful introduction to these leading decisions." Dr Kathryn McMahon, Associate Professor, School of Law, University of Warwick "The Guide is an invaluable tool for both students and practitioners. It provides a compact overview on the

fundamental cases and highlights the essential problems in a clear and sharp analysis." Dr Christoph Voelk, Antitrust Practice Group, McDermott, Will & Emery LLP, Brussels "This edition will be especially valuable to competition law specialists abroad who are interested in the jurisprudence and policy of the European Union and its member states. Familiarity with the European regime is essential for proficiency in competition law today, and this volume provides an excellent foundation." William E Kovacic, Global Competition Professor of Law and Policy, George Washington University Law School, Former Chairman, US Federal Trade Commission "A perfect reference for students of competition law, giving them a kick start when searching for EU case law on a specific subject." Magnus Strand, University of Uppsala, Sweden

The American and English Railroad Cases

Multi-volume major reference work bringing together histories of companies that are a leading influence in a particular industry or geographic location. For students, job candidates, business executives, historians and investors.
