The Leadership Genius of Julius Caesar Modern Lessons from the Man Who Built an Empire “Brilliantly crafted to draw leadership lessons from history, this is one of the finest leadership books I have read.” —Doris Kearns Goodwin, bestselling author of *Team of Rivals* and *The Bully Pulpit* Leaders are always trying to get better, which is why there is an enormous and growing collection of literature offering the latest leadership paradigm or process. But sometimes the best way to move forward is to look back. Philip Barlag shows us that Julius Caesar is one of the most compelling leaders of the past to study—a man whose approach was surprisingly modern and extraordinarily effective. History is littered with leaders hopelessly out of touch with their people and ruthlessly pursuing their own ambitions or hedonistic whims. But Caesar, who rose from impoverished beginnings, proved by his words and deeds that he never saw himself as being above the average Roman citizen. And he had an amazing ability to generate loyalty, to turn enemies into allies and allies into devoted followers. Barlag uses dramatic and colorful incidents from Caesar's career—being held hostage by pirates, charging headlong alone into enemy lines, pardoning people he knew wanted him dead—to illustrate what Caesar can teach leaders today. Central to Barlag's argument is the distinction between force and power. Caesar avoided using brute force on his

followers, understanding that fear never generates genuine loyalty. He exercised a power deeply rooted in his demonstrated personal integrity and his intuitive understanding of people's deepest needs and motivations. His supporters followed him because they wanted to, not because they were compelled to. Over 2,000 years after Caesar's death, this is still the kind of loyalty every leader wants to inspire. Barlag shows how anyone can learn to lead like Caesar.

Renaissance plays and poetry in England were saturated with the formal rhetorical twists that Latin education made familiar to audiences and readers. Yet a formally educated man like Ben Jonson was unable to make these ornaments come to life in his two classical Roman plays. Garry Wills, focusing his attention on Julius Caesar, here demonstrates how Shakespeare so wonderfully made these ancient devices vivid, giving his characters their own personal styles of Roman speech. Shakespeare also makes Rome present and animate by casting his troupe of experienced players to make their strengths shine through the historical facts that Plutarch supplied him with. The result is that the Rome English-speaking people carry about in their minds is the Rome that Shakespeare created for them. And that is even true, Wills affirms, for today's classical scholars with access to the original Roman sources.--From publisher description.

A Midsummer Night's Dream Study Guide CD

Embracing the whole two-thousand-year corpus of Latin poetry, this book seeks to stimulate interest in the neglected art of reading aloud. It establishes a practical working pronunciation for Classical, Medieval and Renaissance Latin by means of a detailed analysis of the essential known facts, and it develops and explains a clear and practical system of phonetic notation, based upon the International Phonetic Alphabet. A substantial number of poems and extracts from all periods is offered for practice. Issues relevant to both quantitative and rhythmical prosody are fully discussed and translation notes are supplied to aid the student. Each poem is fully transcribed into phonetics and is accompanied by an English verse translation, whose main purpose is to reveal something of the literary quality of the verse. Two accompanying CDs aid

pronunciation by giving the practice words found in the pronunciation sections and offering a complete reading of the poems.
