Taiko Boom

This practical resource functions as both a reference guide in the acute care setting and as a self-study preparation tool for Acute Care Nurse Practitioner certification. Coverage begins with a chapter on test-taking strategies, then proceeds with an in-depth review of the diseases and disorders commonly found in acute care practice. Each clinical chapter provides disease definitions, pathophysiology and etiology, signs and symptoms, physical findings, differential diagnoses, tests and diagnostic reasoning, therapeutic management/treatment/education, and outcome evaluation.

Study Guide for Maternity Nursing - Revised Reprint - E-Book

A widely used and very successful method. It uses a melodic approach to pre-instrument teaching and includes suggested activities for general classroom use.

First Division Melody Instrument Method

To Tom Harte, for whom food is a consuming passion, questions like these are not half-baked. For 10 years he has been writing culinary reflections on such matters for the Southeast Missourian, the largest newspaper between St. Louis and Memphis. The cream of this reflective crop, covering topics as diverse as Peeps and pate a choux, and their attached recipes are included in this volume. Some of the essays delve into the history of food, like the one about lebkuchen, arguably the oldest cookie in the world. Others, dealing with culinary queries and curiosities, attempt to explain the nomenclature of food or the logic behind common recipe conventions. Still others pay homage to great gourmets like

Thomas Jefferson, August Escoffier, or Julia Child, or to great ingredients like butter and brown sugar. He also includes a culinary exam and a lesson on how to write a recipe. Whether he's championing the virtues of funnel cake or recounting his experiences judging a national pie contest, Harte is often whimsical, always informative, and never uninteresting. His over-200 carefully selected recipes will be a welcome addition to anyone's files.

Finite Element Analysis with Error Estimators

This key text is written for senior undergraduate and graduate engineering students. It delivers a complete introduction to finite element methods and to automatic adaptation (error estimation) that will enable students to understand and use FEA as a true engineering tool. It has been specifically developed to be accessible to non-mathematics students and provides the only complete text for FEA with error estimators for non-mathematicians. Error estimation is taught on nearly half of all FEM courses for engineers at senior undergraduate and postgraduate level; no other existing textbook for this market covers this topic. The only introductory FEA text with error estimation for students of engineering, scientific computing and applied mathematics Includes source code for creating and proving FEA error estimators

Global Justice, State Duties

The book of short stories COURAGE TO LEAVE is about Marion Heliconia, who has survived the traumas that no human should have to bear in life. It is the only life she knew, and as she grew, Marion only knew this kind of life until it was almost too late. Most people only encounter a few of the things that happened to her, and then only the least severe ones. But Marion has been battered, traumatized, and assaulted relentlessly by everyone that she loved or cared about, and some she didnt even know. And yet, she has survived!

Big Book of Personality Tests

This is a step-by step, tutorial-based book which will enable web developers to explore the functionalities of Jade and learn how to use it to write certain functions and processes for web development. This book is for web developers with at least a basic understanding of HTML and JavaScript. It will enable you to write an easier form of language that then compiles into HTML.

Stirring Words

The rise of globalization and the persistence of global poverty are straining the territorial paradigm of human rights. This

book asks if states possess extraterritorial obligations under existing international human rights law to respect and ensure economic, social and cultural rights and how far those duties extend. Taking a departure point in theory and practice, the book is the first of its kind to analyze the principal cross-cutting legal issues at stake: the legal status of obligations, jurisdiction, causation, division of responsibility, and remedies and accountability. The book focuses specifically on the role of states but also addresses their duties to regulate powerful nonstate actors. The authors demonstrate that many key issues have been resolved or clarified in international law while others remain controversial or await the development of further practice, particularly the scope of jurisdiction and the quantitative dimension of extraterritorial obligations to fulfil.

Basic Labor and Employment Law for Paralegals

It is estimated that 25% to 35% of students do not read well enough to handle their content area texts. This book emphasizes strategies, techniques, and materials especially appropriate for students who are struggling to learn. Above all else, the book serves as a practical guide, filled with sample lessons, examples of exemplary teaching, explanations of student strategies, and emphasizes integrating technology into the classroom. Building Literacy in the Content Areas reflects the diversity of today's student population and emphasizes the need to gear instruction to include all students. This K-12 book provides templates for planning programs and making modifications for average, gifted, ESL and bilingual students, and struggling learners at all grade levels (not just secondary). K-12 experienced and incoming teachers, Reading Coordinators.

Courage to Leave!

Family Violence and Religion

The best Christmas present ever! Photographer Sammy Thompson has learned the hard way to protect herself. After surviving cancer, she's not about to risk her emotions on just anyone! But meeting buttoned-up barrister Nick Kennedy at a charity calendar shoot, and feeling the sparks between them, makes Sammy wonder what she's been missing out on... Sammy's never dreamed of forever, but as she gets to know the man behind the pinstripes, dare she hope Nick will make it a Christmas to remember with the most magical gift of all—his heart?

Advanced Placement French Literature

Companion to the Craft Ritual

Would you like to make your next Lodge meeting special? Would you like to include something that even the Past Masters may not have seen before? Whether it be the beautiful and inspiring "Long Goodbye" at the closing of the Lodge or a variation of an existing presentation; why not make your next Lodge meeting one to remember with one of our alternative workings and addresses? With over 25 traditional variations of Masonic address charges and presentations, this is the ideal title to help you keep the ritual fresh and exciting in your Lodge

Web Development with Jade

The striking upsurge in population growth rates in developing countries at the close of World War II gained force during the next decade. From the 1950s to the 1970s, scholars and advocacy groups publicized the trend and drew troubling conclusions about its economic and ecological implications. Private educational and philanthropic organizations, government, and international organizations joined in the struggle to reduce fertility. Three decades later this movement has seen changes beyond anyone's most optimistic dreams, and global demographic stabilization is expected in this century. The Global Family Planning Revolution preserves the remarkable record of this success. Its editors and authors offer more than a historical record. They discuss important lessons for current and future initiatives of the international community. Some programs succeeded while others initially failed, and the analyses provide valuable guidance for emerging health-related policy objectives and responses to global challenges.

Building Literacy in the Content Areas

"Thought-provoking, informative and fresh, Bender's multi-faceted ethnomusicology of taiko promises to endure as the definitive scholarship on the topic for some time to come." -E. Taylor Atkins, author of Blue Nippon "Immensely readable, unique and thoughtful, Taiko Boom is a must-have for anyone interested in taiko, and there are many--it's difficult to overstate the explosion in popularity taiko has experienced globally. Flashy and powerful, it's unlike any other music. Bender presents here the first thorough look at this art form in Japan, detailing the origins and meaning of this style." - Jennifer Milioto Matsue, Associate Professor of Music, Asian Studies and Anthropology at Union College

The Global Family Planning Revolution

Currently in development with CBS Films, this is the emotional and uplifting memoir of a woman who became a volunteer trainer for Daisy, a sweet yellow Lab puppy, and her unique relationship with the inmate who is Daisy's partner in the Prison

PUP program. When Sharron Luttrell, a journalist still deeply mourning the loss of her family dog, found out about a weekend puppy raiser program for a service dog organization, she knew it was just she needed to help her move on. It seemed ideal; pick up a puppy on Friday, return it on Sunday night, get a new puppy each year. No strings attached. Well, it turns out that there were strings – and they tugged at her every Sunday evening when she had to return “her dog” to prison. This memoir chronicles Sharron’s year co-parenting Daisy, a sweet lab puppy, with Keith, a convicted felon serving a decades-long sentence. As Sharron and Keith develop a rapport based on their brief weekend handovers (an exchange she describes as “divorced parents handing over the kids”), she begins to speculate about what the quiet, gentle Keith could have done to wind up in medium-security prison. When, through an accident of fate, Sharron finally discovers the crime Keith actually committed, she is shaken to her foundation. How can she continue to work with him, knowing what she does? But can she dismiss her personal experience with him, which has been nothing but kind? Ultimately, she looks to Daisy to pull her through—she must “think like a dog” and react in the present, not the past. Mindful of how much Daisy has taught her in a short time, Sharron can also see how much this special dog has helped Keith learn empathy, remorse, and to face the consequences of his actions. As the two of them work tirelessly to ensure that Daisy passes her final test and fulfills her destiny by becoming a service dog, Sharron tests the limits of her own strength, compassion, and capacity for love.

Nationalising Femininity

Specifically designed and written for paralegal students, Basic Labor and Employment Law for Paralegals covers all of the essential elements of its subject in depth. with a logical three-part organization, and supported by dynamic pedagogy, you will find this concise paperback highly teachable and an asset to your students' classroom experience. Study Guide for Maternity Nursing - Revised Reprint - E-Book

Acute Care Nurse Practitioner

This invaluable French Literature guide provide support material for prose and theater works and is designed specifically for high school students. The workbook format of these booklets encourages an active approach to the reading.

User-Centered Agile Method

Agile development methods began to emerge around 20 years ago. However, it was not until the early 2000s that they began to be widely used in industry. This growth was often due to the advent of Internet services requiring faster cycles of development in order to heighten the rate at which an ever-greater number of functionalities were made available. In parallel, user-centered design (UCD) methods were also becoming more and more widely used: hence, user-centered design and agile methods were bound to cross paths, at least in the telecoms industry! During this period, in the field of telecommunications, the explosion in the number of connected terminals, Web applications, new use environments (particularly in a domestic setting), etc., meant it was crucial to gain a fuller understanding of users' requirements and better evaluate the relevance and acceptance of services' attempts to cater for these requirements. Thus the user-centered agile method, as proposed in this book, aims to mutually integrate two existing methods: user-centered design - as used by ergonomists - and the agile Scrum method - as used by developers. The user testing method is also covered. Analyzing work on this subject spanning the past 10 years, the authors also provide an assessment of the feedback on the user-centered agile method. The method described in this book has been based on all these sources. It is a framework relying on

the logic introduced by Scrum, i.e. a framework based on project management. The method proposed is seen as an extension of Scrum which is “centered on humans” because of the integration of user-centered design and user-testing. Therefore the description of the user-centered agile method is based on the basics of the agile Scrum method and uses its terminology and elements. As well as descriptive elements of the user-centered agile method, practical examples of how to implement it are also provided. Contents 1. Introduction. 2. Introduction to the Methods Employed. 3. Sources for this Work. 4. Description of The User-Centered Agile Method. 5. Case Studies. About the Authors Dominique Deuff worked at the National Institute of Informatics in Japan for 21/2 years before coming back to France in June 2006 and joining Orange Labs France Telecom as a developer in a Scrum team. In 2008, she graduated with a Master’s degree in ergonomics and has since then been applying her new skills to various projects at Orange Labs Lannion. Mathilde Cosquer joined Orange Labs as an ergonomist after completing her PhD on the question of transparency of technical devices from the user’s point of view. She has taken part in the design and evaluation of numerous innovating services, but over the past four years, she has been more particularly involved in projects of interpersonal communication services.

Falling for Mr. December

The Complete Recovery Room Book, Sixth edition is an essential resource for health care professionals involved in post-operative care.

A Practical Treatise on the Forms, Causes, Sanability, and Treatment of Pulmonary Consumption

Planning for Stability Operations

Veterinary Assisting Fundamentals and Applications provides a well-rounded, complete approach to learning the skills required in the field of veterinary assisting. Beginning with basic skills such as veterinary medical terminology and office procedures, the book progresses to more advanced skills such as nursing care and radiology. There is a section on animal production and management covering companion animals, large animals, and exotic animals. Clinical scenarios are provided in each chapter to help demonstrate application of the skills to real world practice. Robust instructor support materials are also provided including an instructor's guide, presentations on PowerPoint, and a testbank. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Complete Recovery Room Book

Weekends with Daisy

When Toots Loudenberry relocated to Los Angeles from South Carolina to be near her daughter, Abby, she expected to bump into the occasional celebrity. She just never expected them to be dead. Meanwhile, Toots, Sophie, and Mavis are concerned that the prestigious Dr. Sameer's budding romance with Ida may have something to do with his ailing bank balance. And Abby's attempted makeover of the celebrity magazine The Informer into the most talked-about tabloid in town could end more than just her career. But the Godmothers wouldn't be the Godmothers if they weren't pulling a few behind-the-scenes strings, and Abby's hopes of changing the fortunes of The Informer are still alive. Yet it'll take an assist from a source no one could have predicted, let alone see, to secure a story that will shake Tinseltown to its very core "The Godmothers series [is] pure recession-proof fun." -- Publishers Weekly
