In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

The Truth About Style

Glenda K. Harrison, freelance style contributor and creator of the blog, So What to Twenty, has long been enthusiastic about the subject of style. Spending her days inspiring women to identify and embrace their unique gifts, and fashion prowess, she noticed the meaning of style is often cast into a one dimensional story - usually referring to fashion, and relegated into what someone is wearing, when in fact, style is much more complex than sartorial pursuits, and extends beyond what the eye can see. After spending many years deciphering people who embody the characteristics of style, with clarity, Harrison takes us on a journey that cleverly unravels the intangible traits, as well as their wardrobe mastery, and then beautifully weaves together the person who encompasses this multi-faceted word. With the illustrations of Allison Taylor, True Style: A Look Beyond the Surface brings this subject to life, and puts substance and artistry into the true meaning of style.

“An excellent idea for a book. . . . Next time I spend more than \$40 on an article of clothing, I’ll run it by Linett first.” —The New York Times Book Review In a culture where trends are born and die every minute, maintaining style and effortlessness at every age requires that little extra something—the cool factor. Being “cool” isn’t about chasing trends or defying age but about following a few key guidelines. Yes, the cool factor is a skill that can be learned! In this photo-packed guide, Andrea Linett, a famed personal stylist and founding creative director of Lucky magazine, offers easy-to-implement, actionable tips that will change the way women dress. The tips are modeled by real-life style icons like Kim Gordon of Sonic Youth and Christene Barberich, founder of Refinery29, as Andrea highlights the ingenious ways in which they skillfully pile on layers, or dress up denim for work or a party. The book is organized into chapters that include wardrobe classics, denim, leather, suits, dressing up, and accessories, and features style hacks that turn an outfit into a masterpiece (choosing shoes that instantly slim you, combining tough and feminine pieces, and accessorizing a day-to-night look). Packed with useful lists and examples, this guide is the would-be stylish woman’s best friend.

How to Get Dressed

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of

technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

A city, a movie star, and one magical year. In November of 1954 a young woman dressed plainly in a white oxford, dark sunglasses and a black pageboy wig boards a midnight flight from Los Angeles to New York. As the plane's engines rev she breathes a sigh of relief, lights a cigarette and slips off her wig revealing a tangle of fluffy blonde curls. Marilyn Monroe was leaving Hollywood behind, and along with it a failed marriage and a frustrating career. She needed a break from the scrutiny and insanity of LA. She needed Manhattan. In Manhattan, the most famous woman in the world can wander the streets unbothered, spend hours at the Met getting lost in art, and afternoons buried in the stacks of the Strand. Marilyn begins to live a life of the mind in New York; she dates Arthur Miller, dances with Truman Capote and drinks with Carson McCullers. Even though she had never lived there before, in New York, Marilyn is home. In Marilyn in Manhattan, the iconic blonde bombshell is not only happy, but successful. She breaks her contract with Fox Studios to form her own production company, a groundbreaking move that makes her the highest paid actress in history and revolutionizes the entertainment industry. A true love letter to Marilyn, and a joyous portrait of a city bursting with life and art, Marilyn in Manhattan is a beautifully written, lively look at two American treasures: New York and Marilyn Monroe, and sheds new light on one of our most enduring icons.

WARNING: This is not the actual book *Looking for Alaska* by John Green. Do not buy this reading Sidekick if you are looking for a full copy of this great book. Use this expert sidekick to dissect these themes in *Looking for Alaska*, while enjoying a detailed analysis of each chapter of the book. If that wasn't enough, we close with potential questions and responses to help you get the conversation started with co-workers, friends, or fellow book club members. This newly discovered gem from the past (2005) has become a must-read, thanks in no small part to the success of Green's 2012 masterpiece: *The Fault in Our Stars*. As many Green fans have already discovered, our sidekick is the ultimate go-to source for understanding the complexities of John Green's tales of teen angst and tragedy. *Looking for Alaska* tells the story of Miles Halter, a 16-year-old with a nondescript life who is seeking a "Great Perhaps." In his quest, he finds himself at the Culver Creek Boarding School, where his past life of boredom and safety takes a back seat to adventure and sexual experimentation. His trek to the other side of the tracks takes him only a few steps, as he meets Alaska Young just down the hall at school. She is sexy, funny, and everything else that makes teenage boys drool. She is also a self-destructive

sort, headed toward the "After" portion of Looking for Alaska, where everything comes crashing down. As our sidekick details, the themes of life and death weave their way through the novel, drawing the characters closer together while preparing them for something that will rip them apart.

David Kibbe's Metamorphosis

Inspired by Paris, this lighthearted and deceptively wise contemporary memoir serves as a guidebook for women on the path to adulthood, sophistication, and style. Jennifer Scott's self-published success is now a beautifully packaged and fully illustrated gift book, perfect for any woman looking to lead a more fulfilling, passionate, and artful life. Paris may be the City of Light, but for many it is also the

City of Transformation. When Jennifer Scott arrived in Paris as an exchange student from California, she had little idea she would become an avid fan of French fashion, lifestyle, and sophistication. Used to a casual life back home, in Paris she was hosted by a woman she calls “Madame Chic,” mistress of a grand apartment in the Sixteenth Arrondissement. Madame Chic mentors Jennifer in the art of living, with elegance and an impeccably French less-is-more philosophy. Three-course meals prepared by the well-dressed Madame Chic (her neat clothes covered by an apron, of course) lure Jennifer from her usual habit of frequent snacks, junk food, sweatpants, and TV. Additional time spent with “Madame Bohemienne,” a charming single mother who passionately embraces Parisian joie de vivre, introduces readers to another facet of behind-closed-doors Parisian life. While Francophiles will appreciate this memoir of a young woman’s adventure abroad, others who may not know much about France will thrill to the surprisingly do-able (yet chic!) hair and makeup lessons, plus tips on how to create a capsule wardrobe with just ten useful core pieces. Each chapter of Lessons from Madame Chic reveals the valuable secrets Jennifer learned while under Madame Chic’s tutelage—tips you can master no matter where you live or the size of your budget. Embracing the classically French aesthetic of quality over quantity, aspiring Parisiennes will learn the art of eating (deprive yourself not; snacking is not chic), fashion (buy the best you can afford), grooming (le no-makeup look), among other tips. From entertaining to decor, you will gain insights on how to cultivate old-fashioned sophistication while living an active, modern life. Lessons from Madame Chic is the essential handbook for a woman that wants to look good, live well, and enjoy that Parisian je ne sais quoi in her own arrondissement.

The Smart Woman's Guide to Style & Clothing

“One of the premier narrative non-fiction writers of her time.” —The New Republic Janet Malcolm's previous collection, *Forty-One False Starts: Essays on Artists and Writers*, was “unmistakably the work of a master” (The New York Times Book Review). Like *Forty-One False Starts*, *Nobody's Looking at You* brings together previously uncompiled pieces, mainly from *The New Yorker* and *The New York Review of Books*. The title piece of this wonderfully eclectic collection is a profile of the fashion designer Eileen Fisher, whose mother often said to her, “Nobody's looking at you.” But in every piece in this volume, Malcolm looks closely and with impunity at a broad range of subjects, from Donald Trump's TV nemesis Rachel Maddow, to the stiletto-heel-wearing pianist Yuju Wang, to “the big-league game” of Supreme Court confirmation hearings. In an essay called “Socks,” the Pevears are seen as the “sort of asteroid [that] has hit the safe world of Russian Literature in English translation,” and in “Dreams and Anna Karenina,” the focus is Tolstoy, “one of literature's greatest masters of manipulative techniques.” *Nobody's Looking at You* concludes with “Pandora's Click,” a brief, cautionary piece about e-mail etiquette that was written in the early two thousands, and that reverberates—albeit painfully—to this day.
