REA's Interactive Flashcard books represent a novel approach which combines the merits of flash cards with the ease of using a book. One side of each page includes questions to be answered, with space for writing in one's answers — a feature not usually found on flash cards. The flip side of the same page contains the correct answers, much as flash cards do. United States History 1500-1841 is fully indexed making it easy to locate topics for study. Thanks to the book form, there is no need to look for and fish out appropriate questions from a box and put them back in the proper order, and there is no need to carry around a box of 1,000 flash cards. The book is easier to take along and carry.

work for God that one feels called to do. As healing as it is helpful, the work is essentially from God for the artists and his people. All people. Scary, huh? Yeah, Let this be a source to guide the process forward.

Edith Wharton: New Year's Day, False Dawn, The Old Maid & The Spark (4 Books in One Edition)

This book is the first in a series of three volumes that comprehensively examine Mario Pieri's life, mathematical work and influence. The book introduces readers to Pieri's career and his studies in foundations, from both historical and modern viewpoints. Included in this volume are the first English translations, along with analyses, of two of his most important axiomatizations — one in arithmetic and one in geometry. The book combines an engaging exposition, little-known historical notes,

exhaustive references and an excellent index. And yet the book requires no specialized experience in mathematical logic or the foundations of geometry.

Sometimes people think if they pray or wish hard enough, their transgender tendencies will just disappear. This is an unrealistic expectation. It is not reasonable to expect an overnight change in the area of gender or sexual confusion. The problem takes years to develop. The restoration likewise takes a lengthy healing and restorative process-and some very hard work-which typically involves years of serious commitment.

The Complete Idiot's Guide to Money for Teens

Old New York (1924) is a collection of four novellas by Edith Wharton, revolving around upper-class New York City society in the 1840s, 1850s, 1860s, and 1870s. The novellas reveal the tribal codes and customs that ruled society, portrayed with the keen style that is uniquely Edith Wharton's. Originally published in 1924 and long out of print, these tales are vintage Wharton, dealing boldly with such themes as infidelity, illegitimacy, jealousy, the class system, and the condition of women in society. Included in this remarkable quartet are False Dawn, The Old Maid, The Spark, and New Year's Day. The decades indicated in the subtitles to the stories make them prequels, after a fashion, to *The Age of Innocence*. All five might as well be cut from the same bolt of cloth, sharing settings, characters, social insight, a similar knowing eye for a telling detail. Edith Wharton (1862-1937) was a Pulitzer Prize-winning American novelist, short story writer, and designer. She became known for her psychological examination of characters faced with changes in the moral and social values of middle-class and upper-class society. Her novels and short stories provide numerous expert

characterizations of complex men and women.

The Presence of Feeling in Thought

The essays in this volume focus on the cognitive functions of feeling and the body. They are wide-ranging in terms of methodologies and problematics represented. Authors argue, for example, that the body functions as a schema of logical thought; that through the body we have access to an intricacy more ordered than language and logic; that we benefit morally and socially by attention to the cognitive function of emotions; and that we cannot maintain the dignity of the world nor extend value without aesthetic engagement. Both traditional philosophy and contemporary developments come into play in the essays.

Frank D'Angelo is an intrepid entrepreneur, singer, restaurateur, and the James Bond of the Canadian beverage world. At least one of his products can be found in almost every convenience store in Canada under the brands D'Angelo or Arizona, and he has raised thousands of dollars for charities through his music. Born to Sicilian parents in Toronto, Frank nurtured his keen business sense as a boy by buying and consolidating paper routes, and then contracting them out. He flipped his first house at age 20. Six years later, he mortgaged his house to buy \$150,000 worth of apple juice, which he used to start a multi-million dollar business empire from his truck. Frank appears in lots of his TV commercials, in various incarnations, and his inimitable "Eye-talian" style is arguably as famous as his drinks. You need only mention the catchphrase, "I Cheetah all the time," and the infamous Ben Johnson Cheetah energy drink commercial springs to mind. Frank D'Angelo doesn't just push the envelope—he pushes the entire post office; and in so doing, revolutionizes the very idea of merchandising. With a raw wit and seasoned debonair, Frank now hosts his own Friday night variety talk show, the Being Frank Show, with A-list guests and an assortment of comedy skits and live music. Despite his huge successes and achievements,

Frank D'Angelo is probably best known for justBeing Frank!

Comprising the sermons preached by William Sloane Coffin while he was senior minister at the prestigious Riverside Church in New York City, *The Collected Sermons of William Sloane Coffin* captures the renowned preacher and social activist at work: ministering to American hostages in Iran, supporting AIDS awareness, and rallying his

audiences to battle poverty and nuclear proliferation all the while celebrating marriages, baptisms, and Mothers Days and mourning the loss of loved ones, including his own son. In each of these brilliant and painstakingly crafted sermons, Coffin combined his deep love of Scripture and passionate commitment to peace and justice with his unparalleled gift for the spoken word. While also revealing the personal and pastoral dimensions of ministry, each sermon provides a powerful example of lifes well-accomplished mission: to challenge the conscience of a nation. For those who knew William Sloane Coffin, these sermons will be a treasured remembrance. For those who regret not knowing him, they provide the best of introductions. And for those who as yet have escaped Coffins influence, they are superb testimony to the great potential of ministry, the possibilities of hope and determination, and the remarkable power of one human voice.

The Collected Sermons of William Sloane Coffin

In 1973, when all the arguments were presented to the American Psychiatric Association both for and against the idea of homosexuality as pathology, it was the personal disclosures of gay men that had the most influence. Listening to their stories of frustration in treatment—and their newfound happiness through acceptance of a gay identity—the American Psychiatric Association voted to omit homosexuality as a diagnostic category. Now, twenty years later, Dr. Joseph Nicolosi presents the opposite kind of personal testimony. This testimony is from homosexual men who have tried to accept a gay identity but were dissatisfied, and then benefitted from psychotherapy to help free them of homosexuality. While each client has his unique story, Nicolosi has chosen eight men as representative of the personalities he has encountered in the twelve years during which he has treated over 200 homosexual clients. These men are engaged in a "two-front war"—an internal assault against their own unwanted desires, and an external battle against a popular culture that does not understand or value their struggle. In their own words, we hear these men's struggles to develop healthy, non-erotic male friendships. We hear of their fear and anger toward the men in their lives, and their strained relationships with the fathers they never understood. Nicolosi contends that every man possesses aspects of these clients: The frailty of Albert, the integrity of Charlie, the rage of Dan, the narcissism of Steve, and the ambivalence of Roger, to list some of them. Some readers of this book may be surprised by the directive style of Dr. Nicolosi's therapeutic intervention. In part, this is due to the

editorial synthesis of the transcript. More importantly, however, reparative therapy does require a more involved therapist—a benevolent provocateur who departs from the tradition of uninvolved, opaque analyst to become a salient male presence. The therapist must balance active challenge with warm encouragement to follow the father-son model. T
