## The Creativity Crusade

Why do American husbands come home from work too exhausted to interact with their families? When did a healthy quest for prosperity become a twisted game no one can win? How did BlackBerries and internet porn become more interesting to men than their flesh-and-blood spouses? Shmuley Boteach has made a great study of how families live today—both in his work as a rabbi privately and as host of TLC's "Shalom in the Home". He's discovered a disturbing common thread in the families he meets: men responding to the pressure of competition in their work lives by turning away from their loved ones. In a world that judges men by the size of their paychecks and the wattage of their fame, it's all too easy to lose sight of what is truly valuable in life. Men who consider themselves failures and don't love themselves turn into stressed-out dads, distracted husbands and miserable human beings. For these men, alcohol, the internet and sporting events serve as numbing stand-ins for real life. In THE BROKEN AMERICAN MALE, Boteach doesn't just outline the problems facing marriages and nuclear families. He also offers practical, inspiring solutions, showing how wives can reach out to their husbands, helping them become heroes again to their own families.

## Conscious Parenting

## Healing Thoughts for a Sick Planet

A book of contemporary proverbs comparing the biblical worldview with many other worldviews. A must read for anyone

interested in the controversial issues that divide the inhabitants of Planet Earth.

## **Dictionary of the Bible**

No available information at this time. Author will provide once available.

## **The Spectator**

Lee Scheingold's rich, painful intellectual and personal journey—following the death of her husband, famed political scientist Stuart Scheingold—is described from the points of view which have informed her life: psychoanalysis, clinical social work, Buddhism, and family medicine. Yet it is poetry that is the connecting thread, beginning with the Russian poems which she studied long ago in college. She describes her return journey to Russian literature in the wake of profound grief. This is an emotional and yet academic account from an author who has approached her life with almost continual self-reflection. As a result of this examined life, the factors and life experiences which enabled her to tolerate, and even welcome, the feelings of grief are explored. Two psychoanalyses and a ten-year practice of Buddhism are examined in detail with the issue of meaning foregrounded. Emotions have central stage here, but ideas are close behind. For Lee Scheingold, poetry links the two. The deeply evocative style of the book resembles poetry itself.

## **Greetings from Planet Earth**

## **Cruel: One Child's Story To Survive**

## **Dr. William Smith's Dictionary of the Bible**

## **The Population Bomb**

A harrowing, yet inspiring true story of a young girl's abusive childhood, from new author Denise Richardson. Denise endured emotional and physical cruelty and molestation at the hands of her mother and her drunken boyfriends. In an environment full of toxic emotions and violence, her survival depended on navigating daily, a safe passage through the basest of human behaviours. An absent, paedophilic father could not be trusted, and her older brother fled, as soon as he

was able. Alone, in this domestic battlefield, she faced an unpredictable psychotic mother, regular beatings and torture, all against a backdrop of fear that she would be killed. But throughout Denise kept alive dreams of escaping. This book covers the early years of her life and is an affecting and inspirational book of the horrors of child abuse and the steadfast determination of one child to survive.

## **Goodness to Go**

"Do what you can to help your children's imaginations to grow and flourish - encourage activities which feed their imaginations" ~ Sir Ken Robinson, 2008. This quotation inspired the authors to think about sharing their life-long collection of tried and true creativity activities and resources. Their engaging and provoking book, *The Creativity Crusade*, is a result of these efforts. It provides the strategies and mindsets needed to nurture and protect children's creativity! The book begins with questions for parents to ponder: \* What are the most important elements that should be included in your child's education to prepare them for the future? \* How much longer can America hold on to its innovative status with the testing culture that currently exists in our classrooms? \* What role can you, as a parent, play in nurturing and supporting your child's creativity? The authors provide innovative - practical - researched-based - suggestions from both their classroom and parenting experiences. Rest assured, the activities, methods and tools presented in this book will give you the confidence and knowledge to start making a difference in how your children experience life, learning and happiness. And finally, the authors invite you to join their Creativity Crusade for every child, every parent, every grandparent, every home, EVERY DAY!" This book is refreshing. I know schools cannot be expected to take charge of fostering creativity in children and teenagers anytime soon. Parents own this responsibility. This whole idea intrigues me. I'm reading this with a highlighter and sticky notes." ~ Robby Champion, Champion Consulting Looking forward to using this innovative and informative book in my private practice. Kudos to Dr. Rick and Patti Shade! ~ Lisa Griggs, Family Therapist

Conscious Parenting Course by Nataša Pantović (MSc Economics) and Ivana Milosavljević (MA Special Needs) is the AoL Mindfulness Bok #5 designed for parents. We use 100s of Transformation Tools and Parenting Exercises that will help you get in touch with your Soul, with Love, and with Patience when dealing with kids. Explore the magic work with: Soul's Diary, Spiritual Parenting Diary, Developing Parenting Virtues, Mindfulness Meditations, Rhythm, Day-to-day Routine, Happy Family Structure, Cultivating Relationships, etc. Within 12 Modules we examine 12 areas of Life and Implement various Transformation Tools to help you Live your Highest Potential as a Parent. You will explore some very inspiring Conscious Parenting Exercises exploring mind powers, subconscious and conscious thoughts, emotions, relationships. We look into parenting goals, dreams, and personal development plan. All through the exercises, we hope to inspire: - Your relationship

with yourself as a parent and the world, - Your capability to Love, Be Organised, and Respect Rhythm and Structure - Your capacity to stay a Creative Parent that is Full of Energy.

## **The Illustrated Man**

### **Spiritual, Ethical and Historical Discourses, Delivered Under Inspiration,**

“Fascinating . . . memorable . . . revealing . . . perhaps the best of Carl Sagan’s books.”—The Washington Post Book World (front page review) In *Cosmos*, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier—space. In *Pale Blue Dot*, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. “Takes readers far beyond *Cosmos* . . . Sagan sees humanity’s future in the stars.”—Chicago Tribune

### **dictionary of the bible:**

A study of what would happen to Earth if the human presence was removed examines our legacy for the planet, from the objects that would vanish without human intervention to those that would become long-lasting remnants of humankind.

## **Planet Beethoven**

#1 New York Times bestseller A TIME Magazine Best Book of the Year A NPR Best Book of 2017 A Boston Globe Best Book of 2017 "Moments of human intimacy jostle with scenes that inspire cosmic awe, and the broad diversity of Jeffers's candy-colored humansunderscores the twin messages that 'You're never alone on Earth' and that we're all in this together."--Publisher's Weekly (starred review) "A true work of art."--BuzzFeed Oliver Jeffers, arguably the most influential creator of picture books today, offers a rare personal look inside his own hopes and wishes for his child--and in doing so gifts children and parents everywhere with a gently sweet and humorous missive about our world and those who call it home. Insightfully sweet, with a gentle humor and poignancy, here is Oliver Jeffers' user's guide to life on Earth. He created it specially for his son, yet with a universality that embraces all children and their parents. Be it a complex view of our

planet's terrain (bumpy, sharp, wet), a deep look at our place in space (it's big), or a guide to all of humanity (don't be fooled, we are all people), Oliver's signature wit and humor combine with a value system of kindness and tolerance to create a must-have book for parents. Praise for *Here We Are*: -"A sweet and tender distillation of what every Earthling needs to know and might well spend a lifetime striving to achieve. A must-purchase for new parent shelves"--School Library Journal -"From the skies to the animal kingdom to the people of the world and lots of other beautifully rendered examples of life on Earth, *Here We Are* carries a simple message: Be kind." --NPR -"[An] enchanting gem of a children's book"--NBC's Today Show -"A must-have book for parents."--Gambit -"A celebration of people all shapes and sizes, and of the beauty and mystery of our Earth."--Booklist -"a beautifully illustrated guide to living on Earth and being a good person."--Brightly -"[*Here We Are*] is a tour through the land, the sea, the sky, our bodies; dioramas of our wild diversity.[Jeffers] is the master of capturing the joy in our differences."--New York Times Book Review

## **The Broken American Male**

### **Bible Review**

In 1977, as twelve-year-old Theo struggles with a science class project on space exploration, questions emerge about why his father never returned from Vietnam and why Theo's mother has been keeping secrets for many years.

## **The World Without Us**

Young readers learn about greenhouse gases, climate changes, and how conservation can protect the Earth's environment.

### **A Wrinkle in Time**

## **Becoming a Fab Junior Designer | Children's Fashion Books**

In *Planet Beethoven*, Mina Yang makes the compelling case that classical music in the twenty-first century is just as vibrant and relevant as ever—but with significant changes that give us insight into the major cultural shifts of our day. Perusing events, projects, programs, writings, musicians, and compositions, Yang shines a spotlight on the Western art music tradition. The book covers an array of topics, from the use of Beethoven's "Für Elise" in YouTube clips and hip-hop, to the marketing claims of Baby Einstein products, and the new forms of music education introduced by Gustavo Dudamel,

conductor of the Los Angeles Philharmonic. While the book is global in its outlook, each chapter investigates the unique attributes of a specific performer, performance, or event. One chapter reflects on Chinese pianist Yuja Wang's controversial performance at the Hollywood Bowl, another explores the highly symbolic Passion 2000 Project in Stuttgart, Germany. Sure to be of interest to students, professionals, and aficionados, Planet Beethoven traces the tensions that arise from the "classical" nature of this tradition and our rapidly changing world. Ebook Edition Note: One image has been redacted.

## **Fountain of Light**

In the Retro Hugo Award-nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: "A first-rate tour de force" (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind's largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. "Frighteningly logical, believable, and grimly prophetic . . . Clarke is a master." —Los Angeles Times

## **Love**

Dodging the Toxic Bullet presents workable strategies that show how we can live longer, healthier lives by breathing clean air, eating healthy food, drinking safe water, and using non-toxic products. Author David R. Boyd provides accessible background on a range of hazards including mercury in fish, carcinogens in cleaning products, lead in toys, and lethal E. coli in ground beef. His clear directions for reducing risk include growing lots of houseplants, choosing whole foods, avoiding consumer products with strong or long-lasting smells, and using green cleaning products. Easy-to-follow advice and informative sidebars and checklists make this a must-have guide, especially for parents of infants and children.

## **The Preceding God**

In this book, Sadhguru answers probing questions, discussing the state of modern education and the need to inspire a child to reach his or her true potential.

## **One Silken Thread**

Often dubbed the "crystals bible," this comprehensive reference guide to the spiritual and healing qualities of 455 sacred

stones has become the go-to book for looking up the properties of gems and minerals. Each entry includes vivid color photographs for each stone to aid identification and to showcase its beauty, as well as listing its scientific information, its element and chakra correspondences, and the physical, emotional, and spiritual benefits of each stone. Illustrated by gorgeously lit, clear color photos to aid quick identification, the book offers an illuminating alphabetical journey through the mineral kingdom, stone by stone. This new edition of *The Book of Stones*, the best-selling guide to some of Earth's most beautiful natural objects, is revised to include 76 new entries. The book begins with two introductory chapters detailing advice by authors Naisha Ahsian and Robert Simmons on how to work with crystals and stones--including the concept of crystal resonance and the scientific observation that living organisms (such as ourselves) are liquid crystalline structures. Each entry begins with the stone name and photo, plus its elemental and chakra correspondences, as well as keywords that indicate its properties. Next comes a description of the crystal structure, hardness, history, and known locations of each mineral, plus any relevant legend or lore from the past. Each author then offers their own take and personal insights on the subtle energy properties and spiritual applications of the stone. The entries conclude with summaries of the spiritual, emotional, and physical healing qualities of the stone, and an affirmation for evoking its potential benefits. The book's presentation is straightforward enough to make it an excellent introduction for beginners, yet the level of detail and the depth of research make it an invaluable resource for the most experienced stone practitioners.

## **One Child, One Planet**

Esoteric Astrology – A New Astrology for a New Millennium Volume One - The Signs, Planets and Houses of the Horoscope  
This publication takes a new and revitalised look at astrology. It is simple to understand, yet remains a powerful tool, capable of providing a solid foundation for the comprehension of this broad and magnificent subject. This textbook, like most of Dr. Baker's printed books, eBooks and DVDs, enhances your studies via many charts, lists, tables and images (over 100 in this one). This major work is a very comprehensive introduction for those who want to study this subject in earnest, and for the more advanced student it will serve as an essential reference manual. In today's computer-based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds, and with 100% accuracy! Consequently the needless paraphernalia, usually associated with learning astrology, has been stripped away. Emphasis is placed on the application of astrology to the unique problems of the modern world, its use as a method of revealing purpose and meaning in life, and ultimately as a key to the psychosynthesis of personality. The horoscope is described in comprehensive detail, with special attention given to the esoteric ruling planets of the zodiac signs, which are

more relevant than orthodox rulers in the charts of spiritually-minded people. The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the externa of the modern world. The significance of karma is represented for it gives dramatic effect to our daily actions, and the third factor of esoteric psychology, lying beyond our understanding of heredity and environment, is given full prominence. This integrative and enriching work can be read alone, as a fascinating introduction and foundation to the New Astrology, or can be followed up with the author's extensive range of astrological books and video tapes, audio lectures and the all-embracing Dictionary of Astrology for the 21st Century. Together they provide a complete system for the professional and novice alike, containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
