In *The American Cockerell: A Naturalist's Life, 1866-1948*, botanist William A. Weber pulls together pieces of the life of T.D.A. "Theo" Cockerell, a man who was an internationally known scientist, a prolific writer, and a highly regarded teacher at the University of Colorado in Boulder. The elder brother of the noted scholar Sir Sydney Cockerell, Theo labored in relative obscurity in America while his brothers and their families were basking in the limelight of smart British society. Despite his alienation from his elite background, he nevertheless became a great teacher, a mentor, a kindly artist and writer of rhymes for children, and the greatest specialist on bees in the world. His contribution to the understanding of wild bees is monumental—he catalogued over 900 species in Colorado alone, and he assiduously collected them wherever he traveled. By 1938 he had published the names and descriptions of 5,480 new species and subspecies. Despite his accomplishments in entomology, however, T.D.A. Cockerell resisted specialization. He was also an early supporter of women's rights, a Morrisian socialist, an avid reader, and author of almost 4,000 published scientific papers, book reviews, and discussions of social issues. Pieced together from T.D.A.'s little-known autobiographical writings, *The American Cockerell* demonstrates this extraordinary individual's tremendous breadth of interest, competence, and talent. It will be of interest to scientists and lay

A family moves to a small town dominated by a murderous cult Despite its eerie name, Bethany's Sin is a pleasant place. After a life of grim poverty, this new community seems like heaven to Evan Reid and his family. With its quaint shops, manicured lawns, and fresh summer smell, the town charms the Vietnam veteran, his wife, and their daughter like nowhere else they have ever been. But beneath that cheerful façade lurks something deadly. As soon as they enter their new house, Evan is consumed by fear. He can't place its source, but there is something about the town's mayor, Kathryn Drago, which makes him uneasy. By day she is a harmless retired archaeologist. But at night she leads an Amazonian cult whose next ritual calls for a secret ingredient: the blood of Evan Reid.

Cries Unheard

A dangerous case with ties leading back to the battlefields of World War I dredges up dark memories for Scotland Yard Inspector Ian Rutledge in *Hunting Shadows*, a gripping and atmospheric historical mystery set in 1920s England, from acclaimed New York Times bestselling author Charles Todd. A society wedding at Ely Cathedral in Cambridgeshire becomes a crime scene when a man is murdered. After another body is found, the baffled local constabulary turns to Scotland Yard. Though the second crime had a

witness, her description of the killer is so strange its unbelievable. Despite his experience, Inspector Ian Rutledge has few answers of his own. The victims are so different that there is no rhyme or reason to their deaths. Nothing logically seems to connect them—except the killer. As the investigation widens, a clear suspect emerges. But for Rutledge, the facts still don't add up, leaving him to question his own judgment. In going over the details of the case, Rutledge is reminded of a dark episode he witnessed in the war. While the memory could lead him to the truth, it also raises a prickly dilemma. To stop a murderer, will the ethical detective choose to follow the letter—or the spirit—of the law?

The True Notion of Moderation;

2008 marks the 150th Anniversary of the most famous political debate in U.S. history. Oxford is pleased to present Robert W. Johannsen's newly revised and thoroughly edited transcript of The Lincoln-Douglas Debates. Framed by a timely and relevant new introduction by James L. Huston, this series of debates between Abraham Lincoln and Stephen A. Douglas communicates the eloquence, urgency, and immediacy of its historical moment. As Lincoln and Douglas fiercely competed for the Illinois seat in the U.S. Senate, they debated many of the crucial and controversial issues--including slavery--that would later come to define Lincoln's political career. This invaluable resource also includes Douglas's Chicago speech and Lincoln's "House Divided" speech. With updated notes and suggestions for further reading, the new edition of The Lincoln-Douglas Debates continues to be the authoritative presentation of these lively, landmark orations.

The landscape of southwestern Wyoming around the ghost town of Fossil is beautiful but harsh; a dry, high mountain desert with cool nights and long, cold winters inhabited by a sparse mountain desert community. But during the early Eocene, more than fifty million years ago, it was a subtropical lake, surrounded by volcanoes and forests and teeming with life. Buried within the sun-baked limestone is spectacular evidence of the lush vegetation and plentiful fauna of the ancient past, a transitional ecosystem giving us clues to how North America

recovered from a great extinction event that wiped out dinosaurs and the majority of all species on the planet. Paleontologists have been conducting excavations at Fossil Butte for more than 150 years, and with *The Lost World of Fossil Lake*, one of the world's leading experts on the fossils from this spectacular locality takes readers on a fascinating journey through the history of the discovery and exploration of the site. Deftly mixing incredible color photographs of the remarkable fossils uncovered at the site with an explanation of their evolutionary significance, Grande presents an unprecedented, comprehensive portrait of the site, its treasures, and what we've learned from them. Grande presents a broad range of fossilized organisms from Fossil Lake—from single-celled algae to palm trees to crocodiles—and together they make this long-extinct community come to life in all its diversity and splendor. A field guide and atlas round out the book, enabling readers to identify and classify the majority of the known fossils from the site. Lavishly produced in full color, *The Lost World of Fossil Lake* is a stunning reminder of the intellectual and physical beauty of scientific investigation—and a breathtaking window onto our planet's long-lost past.

Threshold is an in-depth look at a pivotal decade in the career of Anne Truitt (1921–2004): the 1970s. An authoritative essay by acclaimed art historian Anne M. Wagner delivers new insights into the artist and her work, while extensive excerpts from the artist's writings—including some previously unpublished—open a new window on Truitt's creative process and its preoccupation with perceptual

experiences that hover along an invisible edge--a threshold, as Truitt often called it, or "the point at which the abstract nature of events becomes perceptible." In the 1970s this idea was an ongoing preoccupation, which she repeatedly attempted to define. The plates section includes generous illustrations of works from the period, including drawings, paintings and the sculptures for which she has been heralded as a key figure in postwar American art.

England's controversial #1 best-seller. What brings a child to kill another child? In 1968, at age eleven, Mary Bell was tried and convicted of murdering two small boys in Newcastle upon Tyne, England. Gitta Sereny, who covered the sensational trial, never believed the characterization of Bell as the incarnation of evil, the bad seed personified. If we are ever to understand the pressures that lead children to commit serious crimes, Sereny felt, only those children, as adults, can enlighten us. Twenty-seven years after her conviction, Mary Bell agreed to talk to Sereny about her harrowing childhood, her terrible acts, her public trial, and her years of imprisonment—to talk about what was done to her and what she did, who she was and who she became. Nothing Bell says is intended as an excuse for her crimes. But her devastating story forces us to ponder society's responsibility for children at the breaking point, whether in Newcastle, Arkansas, or Oregon. A masterpiece of wisdom and sympathy, Gitta Sereny's wrenching portrait of a girl's damaged childhood and a woman's fight for moral regeneration urgently calls on us to hear the cries of all children at risk.
