A Child Called It

"I doubt I would have grown up to be the writer and artist I became had I not fallen in love with D'Aulaire's Book of Greek Myths at the age of seven."—R. J. Palacio, author of Wonder Kids can lose themselves in a world of myth and magic while learning important cultural history in this beloved classic collection of Greek mythology. Now updated with a new cover and an afterword featuring never-before-published drawings from the sketchbook of Ingri and Edgar D'Aulaire, plus an essay about their life and work and photos from the family archive. In print for over fifty years, D'Aulaires Book of Greek Myths has introduced generations to Greek mythology—and continues to enthrall young readers. Here are the greats of ancient Greece—gods and goddesses, heroes and monsters—as freshly described in words and pictures as if they were alive today. No other volume of Greek mythology has inspired as many young readers as this timeless classic. Both adults and children alike will find this book a treasure for years to come.

Salt Sugar Fat

* A classic story retold and illustrated for a new generation of readers

Hearings, Reports and Prints of the Senate Select Committee on Indian Affairs

Amber O'Neill's new neighbor has been keeping her up all night—and not for any pleasurable reason! Doesn't he know ex-ballerinas need to drown their sorrows in peace? Amber storms over, intending to tell this noise polluter where he can put his guitar, but ends up tongue-tied when she sees him in the smokin' hot flesh! Guy Wilder can think of some much more

exciting uses for Amber's sharp tongue and stunning physique, but he would be crazy to start up anything with his neighbor—things could get messy when she realizes he's a "one night only" kind of guy....

Authorization of Claims

While struggling to cope with the suicide of his beloved wife, Clara, attorney Alejandro "Sandy" Stern defends his brother-in-law, Dixon Hartnack, a wily financial wizard under investigation by a federal grand jury

The Girl With All the Gifts

The book will pull you back to the place you call home. At one point in time, you will be walking in a bookstore before being suddenly transported to the enchanted land of the magical beings. Come, savor this bouquet for the collective fragrance it disseminates and let the zeitgeist take you through the indispensable elements that make the four lettered word called 'life'. Because you are a part of this journey at 'Awesome Blossoms - Horn OK Please'. All profits from this book will be given to charity.

War on Peace

Excerpts from criticism of the works of novelists, poets, playwrights, and other creative writers, 1900-1960.

D'Aulaires Book of Greek Myths

Something Dangerous

The Owner of the vineyard is coming to gather in His harvest. The Rich Man is returning to His estate. The Landowner is coming to distribute our wages. In all these prophetic parables, His arrival brings mixed results. Everything depends on whether or not the Master is loved. There is coming a time when He will be returning. That, He has assured. For some, it will be a time of great joy; for others--great woe. When He does, much like what was done at the Temple, our God is going to

clean house on a very imposing scale. Jesus did a little 'Father's house dusting' with some hastily braided cord, but that's only a sneak preview of what needs to be done; and, upon His return, will be. Part of that refurbishment is going to require the correction of false practices and errant theologies; to get the stench of worthless sacrifices out, and the graffiti of friendly bloodshed off the walls. It is the end result that will have the most significance. We will end up with only one religion, one truth and one faith. The question for you to contemplate is Will it be yours?

Double Vision

"Nothing short of amazing." —Entertainment Weekly A million-dollar Chagall is stolen from a museum during a singles' cocktail hour. The unlikely thief, former child prodigy Benjamin Ziskind, is convinced that the painting once hung in his parents' living room. This work of art opens a door through which we discover his family's startling history—from an orphanage in Soviet Russia where Chagall taught to suburban New Jersey and the jungles of Vietnam.

Dysphagia

The 2016 presidential election has sparked an unprecedented interest in the Electoral College. In response to Donald Trump winning the presidency despite losing the popular vote, numerous individuals have weighed in with letters-to-the-editor, op-eds, blog posts, videos, and the like, and thanks to the revolution in digital communications, these items have reached an exceptionally wide audience. In short, never before have so many people had so much to say about the Electoral College. To facilitate and expand the conversation, *Picking the President: Understanding the Electoral College* offers brief essays that examine the Electoral College from different disciplinary perspectives, including philosophy, mathematics, political science, history, and pedagogy. Along the way, the essays address a variety of questions about the Electoral College: Why was it created? How has it changed over time? Who benefits from it? Is it just? How will future demographic patterns affect it? Should we alter or abolish the Electoral College, and if so, what should replace it? In exploring these matters, *Picking the President* enhances our understanding of one of America's most high-profile, momentous issues.

Field & Stream

Advocate and abolitionist Conchita Sarnoff risked her life to tell the truth about a Wall Street billionaire hedge fund manager who is now a level-3 registered sex offender. *TrafficKing* uncovers a child sex trafficking case of epic proportions and the longest-running human trafficking case in U.S. legal history—more poignant than the Lewinsky case, Watergate scandal, and Profumo affair combined. Eleven years after the registered level-3 sex offender was arrested, four cases associated with his 2005 criminal investigation remain open. The pedophile was not prosecuted under *The Trafficking Victims*

Protection Act (TVPA), a law enacted in Florida in 2000. In this gripping exposé, Sarnoff finds out why. Trafficking is a true story exposing the dark side of the human condition: avarice, lust, power, and influence peddling at the highest levels of government.

The Rule of Four

New York Times bestselling author Gena Showalter has enthralled thousands of readers with her Lords of the Underworld series. Enter this darkly sensual world, where the line between good and evil blurs and true love is put to the ultimate test, in the series prequel novella, *The Darkest Fire*. He is the guardian of hell, more monster than man. She is the goddess of oppression, more angel than woman. Together they will enter the flames to battle a dangerous horde of demon lords—and discover a passion unlike any other... Don't miss this sizzling prequel to Gena Showalter's breathtaking paranormal series *The Lords of the Underworld*! Though they carry an eternal curse, the Lords of the Underworld are irresistibly seductive—and unimaginably powerful... “Showalter at her finest.” —New York Times bestselling author Karen Marie Moning on *The Darkest Night*, the first novel in the Lords of the Underworld series. Book 0.5 of Lords of the Underworld.

The World to Come: A Novel

In the forgotten corners of Rina's mind there is a very valuable secret One that the Chavez family will kill for. Almost two decades ago a car accident thrust Rina Morell's life into darkness. Unable to deal with the traumatic loss of her mother, Rina's young mind erected a wall that blocked her vision and her memories of the event. Years later Rina still suffers from psychosomatic blindness--unable to see the danger that lies next to her. Until a series of "accidents" restores her physical sight, and a mysterious second vision When she discovers that her husband is the head of the infamous Chavez family, a drug cartel with powerful political and terrorist connections, and that he's responsible for her mother's death, Rina is terrified. With the help of CIA agent JT Wyatt, she escapes into the Witness Security Program. But even anonymity can't protect her from the knowledge locked inside her head or the fact that her ex-husband, a cold-blooded killer, is still on the loose.

Horn Ok Please

From the author of the celebrated classic *Louder Than Hell* comes an oral history of the badass Heavy Metal lifestyle—the debauchery, demolition, and headbanging dedication—featuring metalhead musicians from Black Sabbath and Judas Priest to Twisted Sister and Quiet Riot to Disturbed, Megadeth, Throwdown and more. In his song “You Can’t Kill Rock and Roll” Ozzy Osbourne sings, “Rock and roll is my religion and my law.” This is the mantra of the metal legends who populate

Raising Hell—artists from Black Sabbath, Judas Priest, Slipknot, Slayer, and Lamb of God to Twisted Sister, Quiet Riot, Disturbed, Megadeth, and many more! It's also the guiding principle for underground voices like Misery Index, Gorgoroth, Municipal Waste, and Throwdown. Through the decades, the metal scene has been populated by colorful individuals who have thwarted convention and lived by their own rules. For many, vice has been virtue, and the opportunity to record albums and tour has been an invitation to push boundaries and blow the lid off a Pandora's box of riotous experiences: thievery, vandalism, hedonism, the occult, stage mishaps, mosh pit atrocities, and general insanity. To the figures in this book, metal is a means of banding together to stick a big middle finger to a society that had already decided they didn't belong. Whether they were oddballs who didn't fit in or angry kids from troubled backgrounds, metal gave them a sense of identity. Drawing from 150-plus first-hand interviews with vocalists, guitarists, bassists, keyboardists, and drummers, music journalist Jon Wiederhorn offers this collection of wild shenanigans from metal's heaviest and most iconic acts—the parties, the tours, the mosh pits, the rage, the joy, the sex, the drugs . . . the heavy metal life! Horns up!

The Darkest Seduction

In the ruins of civilization, a young girl's kindness and capacity for love will either save humanity -- or wipe it out in this USA Today bestselling thriller Joss Whedon calls "heartfelt, remorseless, and painfully human." Melanie is a very special girl. Dr Caldwell calls her "our little genius." Every morning, Melanie waits in her cell to be collected for class. When they come for her, Sergeant keeps his gun pointed at her while two of his people strap her into the wheelchair. She thinks they don't like her. She jokes that she won't bite, but they don't laugh. The Girl With All the Gifts is a genre-defying, emotionally charged thriller that will shatter your expectations of the classic zombie novel. Carey, check out:Someone Like MeFellsideThe Boy on the Bridge By the same author, writing as Mike Carey: The Devil You Know Vicious Circle Dead Men's Boots Thicker Than Water The Naming of the Beasts

Keeping Her Up All Night

"A comprehensive look at WMD's antecedents, from flamethrowers of the Peloponnesian War to plague-bearing booby traps. Rich and entertaining." -Newsweek Featuring a new introduction by the author. Flamethrowers, poison gases, incendiary bombs, the large-scale spreading of disease are these terrifying agents and implements of warfare modern inventions? Not by a long shot. Weapons of biological and chemical warfare have been in use for thousands of years, and Greek Fire, Poison Arrows & Scorpion Bombs, Adrienne Mayor's fascinating exploration of the origins of biological and unethical warfare draws extraordinary connections between the mythical worlds of Hercules and the Trojan War, the accounts of Herodotus and Thucydides, and modern methods of war and terrorism. Greek Fire, Poison Arrows & Scorpion Bombs will catapult readers into the dark and fascinating realm of ancient war and mythic treachery-and their devastating

consequences.

The Directory of American 45 R.p.m. Records

The instant New York Times bestseller. "An instant classic of investigative journalism 'All the President's Men' for the Me Too era." — Carlos Lozada, The Washington Post From the Pulitzer Prize-winning reporters who broke the news of Harvey Weinstein's sexual harassment and abuse for the New York Times, Jodi Kantor and Megan Twohey, the thrilling untold story of their investigation and its consequences for the #MeToo movement For many years, reporters had tried to get to the truth about Harvey Weinstein's treatment of women. Rumors of wrongdoing had long circulated. But in 2017, when Jodi Kantor and Megan Twohey began their investigation into the prominent Hollywood producer for the New York Times, his name was still synonymous with power. During months of confidential interviews with top actresses, former Weinstein employees, and other sources, many disturbing and long-buried allegations were unearthed, and a web of onerous secret payouts and nondisclosure agreements was revealed. These shadowy settlements had long been used to hide sexual harassment and abuse, but with a breakthrough reporting technique Kantor and Twohey helped to expose it. But Weinstein had evaded scrutiny in the past, and he was not going down without a fight; he employed a team of high-profile lawyers, private investigators, and other allies to thwart the investigation. When Kantor and Twohey were finally able to convince some sources to go on the record, a dramatic final showdown between Weinstein and the New York Times was set in motion. Nothing could have prepared Kantor and Twohey for what followed the publication of their initial Weinstein story on October 5, 2017. Within days, a veritable Pandora's box of sexual harassment and abuse was opened. Women all over the world came forward with their own traumatic stories. Over the next twelve months, hundreds of men from every walk of life and industry were outed following allegations of wrongdoing. But did too much change—or not enough? Those questions hung in the air months later as Brett Kavanaugh was nominated to the Supreme Court, and Christine Blasey Ford came forward to testify that he had assaulted her decades earlier. Kantor and Twohey, who had unique access to Ford and her team, bring to light the odyssey that led her to come forward, the overwhelming forces that came to bear on her, and what happened after she shared her allegation with the world. In the tradition of great investigative journalism, She Said tells a thrilling story about the power of truth, with shocking new information from hidden sources. Kantor and Twohey describe not only the consequences of their reporting for the #MeToo movement, but the inspiring and affecting journeys of the women who spoke up—for the sake of other women, for future generations, and for themselves.

Greek Fire, Poison Arrows, and Scorpion Bombs

Billy Bartholomew has an audacious soul, and he knows it. Why? Because it's all he has left. He's dead. Eddie Proffit has an equally audacious soul, but he doesn't know it. He's still alive. These days, Billy and Eddie meet on the sledding hill, where

they used to spend countless hours -- until Billy kicked a stack of Sheetrock over on himself, breaking his neck and effectively hitting tilt on his Earthgame. The two were inseparable friends. They still are. And Billy is not about to let a little thing like death stop him from hanging in there with Eddie in his epic struggle to get his life back on track.

Forbidden Gates

This 75th anniversary edition of a classic bestseller is stunningly illustrated and designed to enchant fans of Greek, Roman, and Norse mythology at all ages. Since its original publication by Little, Brown and Company in 1942, Edith Hamilton's *Mythology* has sold millions of copies throughout the world and established itself as a perennial bestseller. For more than seven decades readers have chosen this book above all others to discover the enchanting world of mythology -- from Odysseus's adventure-filled journey to the Norse god Odin's effort to postpone the final day of doom. This deluxe, hardcover edition is fully-illustrated throughout with all-new, specially commissioned art, making it a true collector's item.

TrafficKing

Written by authors from around the world, *Pandora's Box* is an aspiration to release hope in the world today. This Anthology marks the 10th book in the book series titled 'Horn OK Please'. Pandora's box is an artifact in Greek mythology, taken from the myth of Pandora's creation in Hesiod's *Works and Days*. The "box" was actually a large jar given to Pandora. It contained all the evils of the world. Pandora was actually sent as a curse to Zeus' men and was given the jar upon her marriage. It was never meant to be opened and yet she did. Just the way the forbidden fruit was never meant to be eaten. Upon opening the box, she unleashed eight demons unto the world. The first ones being the seven deadly sins and the last one which she managed to capture back was of course - hope. And hope forms the basis of our very existence in the world we live in today. The only thing we need is hope. We cling on to it. It makes life awesome. In a world devoid of hope, humanity cannot survive. For opening Pandora's box refers to getting into a situation over which one has very little control over. The very essence of this book is hope for as you will flip through the pages, you will release hope unto this world. We hope you will spread the cheer.

The Darkest Passion

In every generation, when dangers gather, there is a group of men and women courageous enough to confront evil and inform the populace. Sometimes unpleasant truths need to be presented; most of us would rather stand back and kick a toe in the dirt. You know, let someone else do it. Someone else is courageous enough to tell us the truth. Tom Horn & Friends research, publish, and speak about some of the most important topics of our time. *Pandemonium's Engine* is the vehicle

through which Tom and an elite team of commentators are informing a still-sleeping public about radical changes coming to our culture...very soon. In particular, the technological advances that have brought us to the doorstep of life-altering realities are such that the man-on-the-street is struggling to make sense of our world. The book you are about to read is a landmark offering, making such issues as “transhumanism” compelling reading. A shadowy world of intrigue, power-grabs, and seismic changes in daily life is the stuff of sci-fi movies. Yet the authors contributing to Pandemonium’s Engine show us in disturbing detail that these mind-blowing technologies are quite real. For example, Cris D. Putnam writes in “Christian Transhumanism: Pandemonium’s Latest Ploy”: “Transhumanism is a transnational technocratic trend that promises to break through human biological limitations by radically redesigning humanity.” Sound like a campy Star Trek episode, or a movie plot from Stanley Kubrick? As a matter of fact, they are, but rooted in present reality. Change agents in our world are working feverishly to harness the powers of human ingenuity, to wreak havoc on our way of life. Chuck Missler writes in “Pandora’s Box for the 21st Century? The Sorcerer’s Apprentice” that the seductiveness of medical advances mask a diabolical agenda. For example, he mentions that the drive to, among other things, develop receptors that could impinge the constriction of blood vessels and thus the scourge of hypertension is a source of optimism. As are drugs that inhibit damage from brain trauma, or genetic research that could cure diabetes. But Chuck knows that some researchers would trample over ethical boundaries and move past such positive research into frontiers humans were not meant to go. Frederick Meekins’ chapter, “Examples of Transhumanism in Popular Culture” identifies how we have been brought along to accept technologies. We’ve been conditioned, by popular television series like Star Trek, and films like Spiderman, to subtly be prepared for radical, sweeping tampering with the human mind and body. John McTernan writes about “embodied intelligence” robots, biocomputers, and other space-age technologies many of us have made the mistake of believing lie in the realm of fiction. Providing perspective is Noah Hutchings, who traces advances in technology from the time of another Noah, to the present time. All these authors, and several more, provide a searing report on just how ambitious the builders of the New Babel really are. Pandemonium’s Engine will stun you. That’s good. You need to wake up. History shows that those who make reasonable preparations are much better equipped to deal with colossal changes than those who prefer to fully trust their handlers. I well remember the days when my uncle was on the ground floor of computer technology, tinkering with those machines the size of refrigerators. I remember reading George Orwell’s 1984 and laughing that such a far-in-the-future could actually arrive. We are well past 1984, figuratively and literally. Pandemonium’s Engine will show you just how far past. Read and prepare.

Picking the President

Endeavoring to decipher a five-hundred-year old text that weaves a mathematical labyrinth within a love story, researchers Tom Sullivan and Paul Harris obtain a diary that may contain the key to the code, but when a fellow researcher is killed, they realize that the book contains a dangerous secret. 100,000 first printing.

Twentieth-century Literary Criticism

Horn OK Please (HOP) depicts India from the perspective of an unusual individual, one who is a successful executive in the Indian corporate sector. The book is targeted toward the educated urban class, young working professionals, NRIs, and anyone who wants to know what the outlook and life of the urban working professional is in India today. It offers hope, portraying a movement beyond the mere struggle for existence, a freedom from the mundane and an aspiration for a better society underlined with a passion for driving coupled with a lust for life. It delves into the joys of crass commercialism, a dream of long drives lived through the book and culminating in a positive view of India as a nation that will be an eye-opener for the world. Although not a travelogue in the true sense, the book illustrates a journey of sorts with a large part of the book actually written on a road trip while also including reflections from various stages of Kartik's life. Every chapter begins with a sarcastic poetic snippet, goes on to set the context, present his points of view and culminates in a warped moralistic end from a virtual community. Through the book Kartik uses techniques like feigned ignorance, unacceptable slang (mostly understood only by a handful of social media geeks) to ask rudimentary, thought provoking and sometimes merely provoking questions. The hopefulness is, however evident in every kilometer of the book which looks at the goodness and prosperity that is clearly visible across a booming India. The second book is already in progress and is titled "Horn OK Please The SCROTUM Scrolls".The narratives range from his experiences in adventure sports to incidents involving hospital visits. There are many accounts from foreigners who have traveled across the country. In contrast there is an account of someone who portrays himself as a moron with a low IQ, also addressing readers in the same vein while taking them on a journey that shows them his perspective of the country, eloquently disproving moronic notions along the way. This book will shatter the illusion of docile corporate workers in a nation that is considered to be humorless, self-effacing and living in its past glory.

A Bride in Exile

"[An] exploration of the collapse of American diplomacy and the abdication of global leadership"--Amazon.com.

Mythology

Pandora's Box

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. Salt Sugar Fat is a journey into the highly

secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). *Salt Sugar Fat* is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."

The Everything Classical Mythology Book

Pandemonium's Engine

LECTURING BIRDS ON FLYING For the past few decades, the financial world has often displayed an unreasonable willingness to believe that "the model is right, the market is wrong," in spite of the fact that these theoretical machinations were largely responsible for the stock market crash of 1987, the LTCM crisis of 1998, the credit crisis of 2008, and many other blow-ups, large and small. Why have both financial insiders (traders, risk managers, executives) and outsiders (academics, journalists, regulators, the public) consistently demonstrated a willingness to treat quantifications as gospel? Nassim Taleb first addressed the conflicts between theoretical and real finance in his technical treatise on options, *Dynamic Hedging*. Now, in *Lecturing Birds on Flying*, Pablo Triana offers a powerful indictment on the trustworthiness of financial theory, explaining—in jargon-free plain English—how malfunctions in these quantitative machines have wreaked havoc in our real world. Triana first analyzes the fundamental question of whether financial markets can in principle really be solved mathematically. He shows that the markets indeed cannot be tamed with equations, presenting a long and powerful list of obstacles to prove his point: maverick unlawful human actions rule the markets, unexpected and unimaginable events shape the markets, and historical data is not necessarily a trustworthy guide to the future of the markets. The author then examines the sources of origin of many prevalent theories and mathematical dictums. He details how the field of financial economics evolved from a descriptive discipline to an abstract one dedicated to technically concocting professors' own versions of how such a world should work. He goes on to explain how Wall Street and other financial centers became eager employers of scientists, and how scientists became eager employees of financial firms. Triana concludes with an in-depth discussion of the most significant historical episodes of theory-caused real-life market malaise, with a strong emphasis on the current credit crisis. In the end, *Lecturing Birds on Flying* calls for the radical substitution of good old-fashioned common sense in place of mathematical decision-making and the restoration to financial power of those who are completely

unchained to the iron ball of classroom-obtained qualifications.

The Horrors of Happiness

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

The Darkest Fire

Full of action, romance, betrayal, passion, violence, and tragedy, the timeless ancient Greek and Roman myths make great reading. With a cast of unique characters and unbelievable story lines, classical mythology explains phenomena such as creation, weather, nature, and the universe with unparalleled drama. The Everything Classical Mythology Book is an entertaining and educational guide that explains all the great myths and explores how they have influenced language, art, music, psychology, and even today's popular culture. The book tells the fascinating stories of the gods' rise to power on Mount Olympus and of their frequent clashes with larger-than-life heroes. Rounded out with a helpful glossary, an index of characters, and many reading resources, this action-packed new addition to the Everything series brings classical mythology to life!

Pandora's Box

Though they carry an eternal curse, the Lords of the Underworld are irresistibly seductive—and unimaginably powerful... Don't miss a single book in this stunning paranormal series from New York Times bestselling author Gena Showalter! Possessed by the demon of Promiscuity, immortal warrior Paris is irresistibly seductive—but his potent allure comes at a terrible price. Every night he must bed someone new, or weaken and die. And the woman he craves above all others is the one woman he'd thought was forever beyond his reach...until now. Newly possessed by the demon of Wrath, Sienna Blackstone is racked by a ruthless need to punish those around her. Yet in Paris's arms, the vulnerable beauty finds soul-searing passion and incredible peace. Until a blood feud between ancient enemies heats up. Will the battle against gods, angels and creatures of the night bind them eternally—or tear them apart? Book 9 of Lords of the Underworld. Originally published in 2012.

The Burden of Proof

Horn OK Please - HOPping to Conclusions

This book offers a concise, readable explanation of the theory of dysphagia and bridges that with material on clinical application. Covering both adult and paediatric swallowing assessment, treatment and management, the book will provide clinicians with common clinical presentations of dysphagia and a framework for a problem based learning approach.

1922

In the second instalment of the Horn OK Please series, the 'morons', Chief Redbull, Goose Goldsmith, Derek Demonica and Hound Hitchhiker, are abducted by an alien race called the Scrotum Heads, who entrust them with a mission to locate the Scrotum Scrolls—ancient documents that contain the secrets to the Universe. According to the Mayan calendar, doomsday is looming, and the evil Hurricane Helga and her henchmen from Planet Afaria are heading to destroy the planet on that very day unless the morons can find the scrolls in time. With their trusty SUV, Motormouth, they must drive across the country in search of their destiny, unlock secret codes, discover hidden keys and battle aliens. From meeting shamans and opening intergalactic wormholes, from blowing up boats to groping naked statues, from surviving in harsh, cold mountainous climates to battling dry, desert heat—the morons must do it all. Quirky, fun and wildly imaginative, Horn OK Please: The Scrotum Scrolls is an indisputably hilarious read.

AB Bookman's Weekly

Life, as you subconsciously know, is built up of an infinite number of moments. Moments which change us, moments which improve us, moments which define us. Therefore, with this principle in mind, this book was created. There is no specific category for this book, although most would classify it as horror. It is, and not, about Love. It is, and not, about Fear. It is, and not, about Dreams. And maybe, it is that very uncertainty that appeals to us. The "What if" in life. What would have happened if I had said yes to him? What would have happened if I had accepted the offer that night? What would have happened if nobody intervened to save me? This book is a collection of short stories and poems that celebrate all that the human race is about: uncertainty, hope, hatred, and creating an infinitely large collection of infinitesimal moments

Lecturing Birds on Flying

The dazzling Lytton twins, Adele and Venetia, are born into the great Lytton publishing empire. In 1928, on their eighteenth birthday, they are rich and admired, with a confidence verging on arrogance. But the specter of Nazi Germany is growing... Gradually their privileged world darkens in unimaginable ways—but it is not just the twins whose lives have been

irrevocably changed. Barty Miller, rescued from the London slums in babyhood by Celia Lytton, is clever, ambitious, and a complete contrast to the twins—and she faces temptation of the most unexpected kind...

The Sledding Hill

"The dawn of techno-dimensional spiritual warfare."

Raising Hell

Tells the story of a child's abuse at the hands of his alcoholic mother

Awesome Blossoms

The chilling novella featured in Stephen King's New York Times bestselling collection Full Dark, No Stars, 1922 is about a man who succumbs to the violence within—setting in motion a grisly train of murder and madness. Wilfred James owns eighty acres of farmland in Nebraska that have been in his family for generations. His wife, Arlette, owns an adjoining one hundred acres. She wants to sell her land but if she does, Wilfred will be forced to sell as well. James will do anything to hold onto his farm, and he'll get his son to go along. Betrayal, murder, madness, rats, 1922 is a breathtaking exploration into the dark side of human nature from the great American storyteller Stephen King.

She Said

New York Times bestselling author Gena Showalter returns with another sizzling installment of the Lords of the Underworld series as Aeron, keeper of the demon of Wrath, finally meets his match... For weeks the immortal warrior Aeron has sensed an invisible female presence. An angel—ademon-assassin—has been sent to kill him. Or has she? Olivia claims she fell from the heavens, giving up immortality because she couldn't bear to harm him. But trusting—and falling for—Olivia will endanger them all. So how has this “mortal” with the huge blue eyes already unleashed Aeron's darkest passion? Now, with an enemy hot on his trail and his faithful demon companion determined to remove Olivia from his life, Aeron is trapped between duty and consuming desire. Worse still, a new executioner has been sent to do the job Olivia wouldn't... Included in this ebook edition is a special scene from the latest installment in the series, The Darkest Torment, featuring the ruthless, beautiful Baden! Previously Published.
