Not many names epitomise an era, but Mary Quant is such a name. Her life, her ideas, her style touched (and still touch) everyone. Mary Quant is fashion. Most people connect Mary with one thing - the mini skirt - that ground-breaking design that is as potent now as it was when it first appeared in the early sixties. But her influence carried way beyond those early frenetic black-and-white years. Now, towards the close of what has been one of the most influential and visionary careers in fashion's history, Mary Quant has written a memoir in her own inimitable

style - a witty, unique account of her whirlwind life. It is a story like no other. But then there is only one Mary Quant.

This collection contains some of the most important works by one of the twentieth century's most popular and influential poets. The appeal of Fried's verse lies in its simplicity and directness, whether he is writing - with his customary humanity, honesty and perception - about love, about political and moral issues, or about the problems brought on by illness, bereavement, ageing and death. This bilingual edition - with English translations by Stuart Hood, his long-term friend and colleague at the BBC - enables the reader to get a flavour of the original of these immensely enjoyable and enlightening poems.

Greater southern Africa has a wealth of mammal species, almost 400 - all of which are covered in this fully revised, comprehensive field guide. While the term 'African mammals' might conjure up the more celebrated species, such as elephant, lion, leopard or rhino, it is in fact the smaller animals - such as shrews, genets and bats - that comprise the bulk of the region's mammal species. Often overlooked but included here, are also the marine mammals - seals, whales and dolphins - that are found in our oceans. This new edition of Field Guide to Mammals of Southern Africa has been expanded to include species found in Angola, Zambia and Malawi. It has also been extensively revised to include the most recent research in terms of new findings and new taxonomy. Up-to-date information, revised distribution maps and new images (where available) have been combined in a modern, full-colour layout. Colour coding is used to group families, and spoor and size icons are included for quick reference with each mammal entry. Skull photographs have been grouped at the back of the book for easy comparison. In addition to detailed descriptions of each species, the text offers insight into key identification characters, typical behaviour, preferred habitat, food choice, reproduction and longevity.

Kotronias on the King's Indian

This collection of translated tales is from the most famous work in all of Japanese classical literature—the Konjaku Monogatari Shu. This collection of traditional

Japanese folklore is akin to the Canterbury Tales of Chaucer or Dante's Inferno—powerfully entertaining tales that reveal striking aspects of the cultural psychology, fantasy, and creativity of medieval Japan—tales that still resonate with modern Japanese readers today. The ninety stories in this book are filled with keen psychological insights, wry sarcasm, and scarcely veiled criticisms of the clergy, nobles, and peasants alike—suggesting that there are, among all classes and peoples, similar failings of pride, vanity, superstition and greed—as well as aspirations toward higher moral goals. This is the largest collection in English of the Konjaku Monogatari Shu tales ever published in one volume. It presents the low life and the high life, the humble and the devout, the profane flirting, farting and fornicating of everyday men and women, as well as their yearning for the wisdom, transcendence and compassion that are all part and parcel of our shared humanity. Stories Include: The Grave of Chopsticks Robbers Come to a Temple and Steal Its Bell The Woman Fish Peddler at the Guardhouse Fish are Turned into the Lotus Sutra A Dragon is Caught by a Tengu Goblin The Monk Tojo Predicts the Fall of Shujaku Gate Wasps Attack a Spider in Revenge

QUEEN SACRIFICE (Historical Fiction) - The ULTIMATE chess novel? In ancient Wales, two kings battle for their lives. In a land where battles can last decades,

trouble is brewing and the stakes are high. The queen of the northern tribes has a new son and the king of the south has young Saxon bride. "Set this chessboard and its pieces before your most learned men, to see if their intellects can fathom this subtle game." Deeds of Darkness

In Nashville, Tennessee lives a man, a recluse, a curmudgeonly highfalutin cartoonist-type who, as a young child, had a penchant for drawing and making up tall tales. It was at the tender age of 18 he turned his back on a promising career in adult film cinematography and followed his heart into the unrewarding comic book industry. Out of desperation, Eric kept drawing, painting, and then creating his own characters and worlds culminating with the beloved series, The Goon. The Art (and Many Other Mistakes) of Eric Powell sheds light on the deliberate and painstaking process of becoming a world-renowned comic book creator as recalled by the artist and a few of his delinquent friends. This extensive art book spotlights never-before-seen childhood drawings, early superhero test pages, film poster art, and the establishment of Powell's homegrown publishing house Albatross (Exploding) Funnybooks. It's also very funny.

"Heather (North Korean Posters), a collector of North Korean and Vietnamese art, and Buchanan (Vietnam Zippos: American Soldiers' Engravings and Stories) here present full- and half-page reproductions of Communist propaganda posters printed in Vietnam from the 1960s to the present. Buchanan's discussions in the introductory essay on the printing methods and native materials used in wartime posters are especially captivating. The posters, captioned in English and German, are arranged into four subject groups: war; Ho Chi Minh and the Communist Party; agriculture; and education, population control, and voting. Because the material is organized by topic, it would have been helpful for the captions to include approximate dates. VERDICT An original and nicely produced book; recommended for students and lay readers with an interest in Vietnam or propaganda art. Eric Linderman, Euclid P.L., OH"--Library Journal Reviews.

Do you want a more streamlined process for communications and deadlines? If your answer to any of the above questions is a yes, then you have come to the right place. Management is understood in different ways by different people. Economists regard it as a factor of production. Sociologists see it as a class or group of persons while practitioners of management treat it as a process. For our understand management may be viewed as what a manager does in a formal organization to achieve the objectives. It is called by Mary Parker Follet: "The art of getting things done through people". This definition throws light on the fact that managers achieve organizational goals by enabling others to perform rather than performing the tasks themselves. The writer emphasizes on the project management skills with a maiden introduction of "Scrum project management skills". Author has briefed the differences between management methodology of Scrum project management and other project management methods.

"Beautiful, classic recipes made with passion, by the man who taught me everything I know about Italian cooking." Jamie Oliver Gennaro shows you how to prepare good Italian food with minimum effort by letting the oven or hob do the work. Slow cooking draws out flavours and softens the texture of food to create delicious, impressive, often inexpensive meals with little fuss. There are casseroles and one-pots that slowly simmer to perfection, roasts that tenderize in the oven, soups that quietly bubble away on the hob, puddings such as meringues and fruit compotes, and breads that bake to light perfection. Gennaro is a traditional, rural Italian cook. He uses lots of inexpensive cuts of meat, as well as beans and pulses, which all benefit from slow cooking, so there is plenty for the thrifty home cook to choose from. This is classic Italian food, such as Roast leg of lamb with baby onions, Rich Tyrolean beef goulash, Lasagne and Meringue with zabaglione cream and custard, that takes the hard work out of preparing supper.

Patricia Schultz curates the world. When she published the original 1,000 Places to See Before You Die, she created not only a new kind of travel book but also a new way of thinking about our experiences and interests. Now Schultz captivates our hearts in the same compelling way her original book spoke to our minds. Moving from eloquent word to breathtaking image, she takes us on a visual journey of the best the world has to offer, and as we turn the pages and pore over these images, we feel it all: joy, curiosity, awe, passion, nostalgia (if we've been there), inspiration (because we want to go), and a profound and transforming sense of how lucky we are to live in a world filled with such beauty and wonder—to see tributaries of mist curling over the Great Wall, elephants grazing on the floor of the Ngorongoro Crater, the sun setting on the wild coast of Donegal, masked whirling dancers at a festival in Bhutan. The book itself is a thing of beauty, an oversize feast of more than 1,000 all-new photographs and 544 pages, every spread and page designed to showcase these mesmerizing photographs and hold just enough of Schultz's lively text that we know why it is we're looking at them. It is a perfect gift for every traveler, every fan of the original, every dreamer whose Instagram feed is filled with pictures of places near and far.

In this engrossing new book, Dr. Bernard Haisch contends that there is a purpose and an underlying intelligence behind the Universe, one that is consistent with modern science, especially the Big Bang and evolution. It is based on recent discoveries that there are numerous coincidences and fine-tunings of the laws of nature that seem extraordinarily unlikely. A more rational concept of God is called for. As astrophysicist Sir James Jeans wrote, "the Universe begins to look more like a great thought than like a great machine." Despite bestsellers by Christopher Hitchens, Richard Dawkins, and Sam Harris that have denounced the evils of religion and proclaimed that science has shown that there is no God, The Purpose-Guided Universe shows how one can believe in God and science.

The King's Indian Defense is one of Black's most dynamic responses to 1.d4. A favorite weapon of both Fischer and Kasparov, it remains a popular choice at all levels of play. In this, the fourth volume of the epic Kotronias on the King's Indian series, Grandmaster Vassilios Kotronias tackles a variety of White's attempts to challenge his favorite opening, starting with the sequence 1.d4 Nf6 2.c4 g6 3.Nc3 Bg7 4.e4 d6. The all-time greats Petrosian and Gligoric lend their names to systems examined after the further 5.Nf3 0 0 6.Be2 e5, with 7.d5 and 7.Be3 respectively, while the dreaded Exchange Variation 7.dxe5 is also discussed and dismantled. Dynamic coverage of Makogonov's 5.Nf3/6.h3, Karpov's 5.h3/6.Be3, Larsen's 5.Nf3/6.Be3 and Averbakh's 5.Be2 completes this extensive work. Throughout the work, the author shares his considerable knowledge of typical positional motifs, while providing plenty of ammunition should the game erupt into the full-blooded warfare that is the hallmark of the King's Indian. A special selection of test positions is provided, enabling the reader to sharpen his tactical skills and improve his middlegame understanding."

Sport in the Middle East has become a major issue in global affairs. The contributors to this timely volume discuss the intersection of political and cultural processes related to sport in the region. Eleven chapters trace the historical institutionalization of sport and the role it has played in negotiating "Western" culture. Sport is found to be a contested terrain where struggles are being fought over the inclusion of women, over competing definitions of national identity, over preserving social memory, and over press freedom. Also discussed are the implications of mega-sporting events for host countries, and how both elite sport policies and sports industries in the region are being shaped. *Sport, Politics and Society in the Middle East* draws on academic disciplines from the humanities and social sciences to offer in-depth, theoretically grounded, and richly empirical case studies. It employs diverse research methodologies, from ethnography and in-depth interviews to archival research, to make a lasting contribution to this critical subject.
