Three years after a difficult breakup, Steph and Greg are wondering if they can start over again. The trouble is, she's married someone else and he's started a relationship with her best friend Carly. Meanwhile, Carly's ex-husband Kent wants her back, and even more so when he hears about her new romance with his best friend Greg. As emotions run high, all four find themselves entangled in a web of hidden agendas and half-truths in their pursuit of a happy life. A companion piece to the acclaimed *Reasons to Be Pretty*, Neil LaBute's *Reasons to Be Happy* received its UK premiere at Hampstead Theatre, London, in March 2016.

Save the Cat

"Suspenseful, riveting . . . Achieves a universality that is movingly personal." --The New York Times The explosively provocative, award-winning drama set in a country that has just emerged from a totalitarian dictatorship Gerardo Escobar has just been chosen to head the commission that will investigate the crimes of the old regime when his car breaks down and he is picked up by the humane doctor Roberto Miranda. But in the voice of this good Samaritan, Gerardo's wife, Paulina Salas, thinks she recognizes another man--the one who raped and tortured her as she lay blindfolded in a military detention center years before. Relentlessly paced and filled with lethal surprises, *Death and the Maiden* is an inquest into the darker side of humanity--one in which everyone is implicated and justice itself comes to

seem like a fragile, perhaps ambiguous invention.

Not in the Script

Set on September 12, 2001, *The Mercy Seat* continues Neil LaBute's unflinching fascination with the often-brutal realities of the war between the sexes. In a time of national tragedy, the world changes overnight. A man and a woman explore the choices now available to them in an existence different from the one they had lived just the day before. Can one be opportunistic in a time of universal selflessness?

Steven Thompson had a bad year. A string of mean, kinky (the alarming kind, not the good kind), and crazy dating debacles combined with a boss who appears to be experiencing male-prenatal-psychosis means Steven's stress levels are high. They're so high, he's decided to quit dating and focus instead solely on his job. Until he meets Dr. Ken Miles. Doctor Ken Miles is having a fantastic year. His hard work is paying off in a big way . . . professionally. But his social life? Not so much. Until he meets Steven Thompson. Steven isn't so sure about Dr. Miles, but Ken is one hundred percent certain about Mr. Thompson. And even though both men know full well that the key to getting what you want out of life is hard work, they

'Sticking to the Script' is a full-length contemporary romantic comedy, can be read as a standalone, and is book#2 in the Cipher Office series, Knitting in the City World, Penny Reid Book Universe.

Fat Pig

Belinda and Cody Phipps appear a typical Midwestern couple: teenage sweethearts, children, luxurious home. Typical except that Cody is black--"rich, black, and different," in the words of Belinda, who finds herself attracted to a former (white) classmate. As the battle for her affections is waged, Belinda and Cody frankly doubt the foundation of their initial attraction, opening the door wide to a swath of bigotry and betrayal. Staged on continually shifting moral ground that challenges our received notions about gender, ethnicity, and even love itself, *This Is How It Goes* unblinkingly explores the myriad ways in which the wild card of race is played by both black and white in America.

Calligraphy Kit

From the disability rights advocate and creator of the #DisabledAndCute viral campaign, a thoughtful, inspiring, and charming collection of essays exploring

what it means to be black and disabled in a mostly able-bodied white America. Keah Brown loves herself, but that hadn't always been the case. Born with cerebral palsy, her greatest desire used to be normalcy and refuge from the steady stream of self-hate society strengthened inside her. But after years of introspection and reaching out to others in her community, she has reclaimed herself and changed her perspective. In *The Pretty One*, Brown gives a contemporary and relatable voice to the disabled—so often portrayed as mute, weak, or isolated. With clear, fresh, and light-hearted prose, these essays explore everything from her relationship with her able-bodied identical twin (called “the pretty one” by friends) to navigating romance; her deep affinity for all things pop culture—and her disappointment with the media’s distorted view of disability; and her declaration of self-love with the viral hashtag #DisabledAndCute. By “smashing stigmas, empowering her community, and celebrating herself” (Teen Vogue), Brown and *The Pretty One* aims to expand the conversation about disability and inspire self-love for people of all backgrounds.

THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION. Is there anything worse than a high-pressure salesperson pushing you to say "yes" (then sign on the dotted line) before you're

ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are sick of being marketed and sold to. Most of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.

And it almost doesn't exist, because its residents never got around to getting organized. So it's just . . . *Almost*. One cold, clear Friday night in the middle of winter, while the northern lights hover in the sky above, *Almost's* residents find themselves falling in and out of love in the strangest ways. Cow. Slob. Pig. How many insults can you hear before you have to stand up and defend the woman you love? Forced to explain his new relationship to his shallow (although shockingly funny) friends, finally he comes to terms with his own preconceptions of the importance of conventional good looks. Neil LaBute's sharply drawn play not only critiques our slavish adherence to Hollywood ideals of beauty but boldly questions our own ability to change what we dislike about ourselves.

The Idea is a manual for conquering the most important part of the screenwriting or fiction writing process — the first part. Most writers rush too quickly through choosing a story idea, so they can dive into writing it. And it's the biggest reason most projects don't move forward in the marketplace: producers and editors are underwhelmed by the central concept. Multiple Emmy- and Golden Globe-winning screenwriter/producer Erik Bork (HBO's Band of Brothers) explains the seven key ingredients in stories that have a chance of selling and reaching a wide audience – in any genre or medium.

Good Omens

Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results:

- The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients
- The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping
- The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service

In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect

transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.
