Prepare your children to stand strong in this age of questions and contradictions. David and Goliath. Noah and the ark. Jonah and the whale. Children love stories of Bible characters. Yet they need more than

just the stories. They need to understand the truths that lie behind these stories. Truth that will answer tough questions such as: Who is God? What if I'm a Christian and I still sin? What does God want me to do? Why did Jesus have to die? How will I know if others love Jesus? For many years, Ken Taylor has been giving children this biblical foundation through his books. While containing profound truth, they are written in simple and plain language that kids can understand. Full of stories and straight talk and complete with suggested Bible reading, questions for thought, relevant prayers, and songs to sing, Devotions for the Children's Hour will give your children the head start they need to stand on the Rock of Salvation in this shaky world.

The Language of Asylum

For more than half of the nineteenth century, French artist Jean-Auguste-Dominique Ingres (1780-1867) depicted the rapidly changing appearance of the fashionable woman with meticulous attention to detail and with rare perception and empathy. Working in a period that witnessed the development of a consumer society and the beginnings of couture, Ingres charted in his portraits how clothes were worn and what part they played in definitions of identity and status. This book explores for the first time the ways in which clothing, accessories, and fabrics define and display women in Ingres's portraits. With more than 150 illustrations that include the artist's portraits, fashion plates, portraits by contemporaries, and surviving

items of costume, the book illuminates Ingres's work and its relation to the social and artistic discourse of his time. Eminent dress historian Aileen Ribeiro analyzes in detail Ingres's attitudes, his skill in depicting clothing, and how he portrays the real and idealized woman in his paintings and drawings of the fashionable mainstream -- the grandes dames of elite society, the newly opulent bourgeoisie, English visitors to Italy, and family and friends. Ribeiro also devotes a section of the book to the part played by textiles and accessories in Ingres's images of bathers and odalisques.

A Short Introduction to Swedish Grammar

Our Working-girls and how to Help Them

Eighty of the finest poems on parenthood brought together in an endearing, intelligent and accessible anthology by editor Emma Neale. Attractively packaged to be of gift-book quality, this anthology is beautifully illustrated with outstanding photographs of babies and young children. Editor Emma Neale's approach is to bring together around 90 wonderful poems, both by New Zealand and international poets, which are accessible but also strong and important. Beautifully packaged, this volume features stunning photographs by well-known photographer Mark Smith. The Southern Ocean Review had this to say: "Any book of parenthood is going to be welcome anywhere and this one certainly should be. Edited by Emma Neale, and with welcome photos by Mark Smith, this is a carefully presented volume of poems that will certainly be of great interest. I particularly like the work of Ruth Arnison and Joanna Paul, showing a side of them not many would know. Poems of a subject seem to draw out the best of some pretty well known poets familiar to us in different subject matter. Peter Bland's poems are mature and interesting - a sure hand here. And the photos are nothing short of brilliant. I am grateful for the biographical material too, to show who's who etc. Quite often in anthologies like this, it is left out. One has many memories of youth and this brings it all out for me. In 'Birdlings' the late Ruth Pettis shows some very deft technique which should be a lesson to all aspiring poets. I cannot find a single dud poem in all of these and

thoroughly recommend this book for everyone to read."

The Great Thoughts

The primary skill needed by anyone who works in fashion is the ability to convey—to clients and the general public alike—images of the designs. The impression given to the viewer depends on whether the fashion design drawings are good. Contemporary Fashion Illustration Techniques thoroughly describes the basics of fashion illustration, and covers the latest trends such as vivid images, sprightly movement, and garment material texture. After all, fashion drawing is not simply about sketching a body and face; only when you accurately reproduce the garments and their colors can the designs truly come to life.

LOVE, HATE AND EVERYTHING IN BETWEEN

Dr. John Kappler was a well-respected physician in dozens of California hospitals, yet none of his patients ever imagined that his real profession was murder. The horror began the day he secretly attempted to kill three patients—including a pregnant woman who suffered permanent brain damage at his evil hands. Then, in a driving rampage, Kappler rammed another car, stole it, and used it as a lethal weapon. Yet,

incredibly, his fellow doctors bailed him out of jail, and he was soon back on the job. Desperate to satisfy his lust for killing, Kappler cruelly plunged a patient into cardiac arrest. Next, he pulled the plug on a defenseless man unconscious in a hospital bed. Still, no one stopped him. Finally, he exploded in a terrifying rage of violence and murder. Pressing the accelerator of his car to the floor, he cut down a promising young doctor and seconds later maimed a toddler's mom for life.

Bedside Prayers

Terry de la Mesa Allen's mother was the daughter of a Spanish officer, and his father was a career U.S. Army officer. Despite this impressive martial heritage, success in the military seemed unlikely for Allen as he failed out of West Point—twice—ultimately gaining his commission through Catholic University's R.O.T.C. program. In World War I, the young officer commanded an infantry battalion and distinguished himself as a fearless combat leader, personally leading patrols into no-man's-land. In 1940, with another world war looming, newly appointed army

chief of staff Gen. George C. Marshall reached down through the ranks and, ahead of almost a thousand more senior colonels, promoted Patton, Eisenhower, Allen, and other younger officers to brigadier general. For Operation Torch, the invasion of North Africa, Allen, now a two-star general, commanded the Big Red One, the First Infantry Division, spearheading the American attack against the Nazis. Despite a stellar combat record, however, Major General Allen found himself in hot water with the big brass. Allen and his troops had become notorious for their lack of discipline off the battlefield. When Seventh Army commander George Patton was pressed by his deputy Omar Bradley to replace "Terrible Terry" before the invasion of Sicily, he demurred, favoring Allen's success in combat. At the end of the Sicily campaign, with Allen's protector Patton out of the way (relieved for slapping a soldier), Omar Bradley fired Allen and sent him packing back to the States, seemingly in terminal disgrace. Once again, however, George Marshall reached down and in October 1944, Terrible Terry was given command of another infantry division, the 104th Timberwolves and took it into heavy combat in Belgium. Hard fighting continued as Allen's division spearheaded the U.S. First Army's advance across Germany. On 26 April 1945, Terrible Terry Allen's hard-charging Timberwolves became the first American outfit to link up with the Soviet Union's Red Army. Terrible Terry Allen was one of the most remarkable American soldiers of World War II or any war. Hard bitten, profane, and combative, Allen disdained the "book," but he knew how to wage war. He was a master of strategy, tactics, weaponry, and, most importantly, soldiers in combat.
