"With the wide-open eyes of a historian." Her countrywoman, Zinaida Zhemchuzhnaia, expressed a similar need to take note: "I want to write about the way those events were perceived and reflected in the humble and distant corner of Russia that was the Cossack town of Korenovskaia." What these women witnessed and experienced, and what they were moved to describe, is part of the extraordinary portrait of life in revolutionary Russia presented in this book. A collection of life stories of Russian women in the first half of the twentieth century, *In the Shadow of Revolution* brings together the testimony of Soviet citizens and émigrés, intellectuals of aristocratic birth and Soviet milkmaids, housewives and engineers, Bolshevik activists and dedicated opponents of the Soviet regime. In literary memoirs, oral interviews, personal dossiers, public speeches, and letters to the editor, these women document their diverse experience of the upheavals that reshaped Russia in the first half of this century. As is characteristic of twentieth-century Russian women's autobiographies, these life stories take their structure not so much from private events like childbirth or marriage as from great public events. Accordingly the collection is structured around the events these women see as touchstones: the Revolution of 1917 and the Civil War of 1918-20; the switch to the New Economic Policy in the 1920s and collectivization; and the Stalinist society of the 1930s, including the Great Terror. Edited by two preeminent historians of Russia and the Soviet Union, the volume includes introductions that investigate the social historical context of these women's lives as well as the structure of their autobiographical narratives.

## **Reflections on the Revolution in France**

Scott's Shadow is the first comprehensive account of the flowering of Scottish fiction between 1802 and 1832, when post-Enlightenment Edinburgh rivaled London as a center for literary and cultural innovation. Ian Duncan shows how Walter Scott became the central figure in these developments, and how he helped redefine the novel as the principal modern genre for the representation of national historical life. Duncan traces the rise of a cultural nationalist ideology and the ascendancy of Scott's Waverley novels in the years after Waterloo. He argues that the key to Scott's achievement and its unprecedented impact was the actualization of a realist aesthetic of fiction, one that offered a socializing model of the imagination as first theorized by Scottish philosopher and historian David Hume. This aesthetic, Duncan contends, provides a powerful novelistic alternative to the Kantian-Coleridgean account of the imagination that has been taken as normative for British Romanticism since the early twentieth century. Duncan goes on to examine in detail how other Scottish writers inspired by Scott's innovations--James Hogg and John Galt in particular--produced in their own novels and tales rival accounts of regional, national, and imperial history. Scott's Shadow illuminates a major but neglected episode of British Romanticism as well as a pivotal moment in the history and development of the novel.

## **Burke, Select Works: Reflections on the revolution in France. 1888**

The focus of the book is the cost of empire, particularly the cost in the American case – the internal burden of American global leadership. The book builds an argument about the propensity of external responsibilities to undermine the internal strength, raising the question of the link between weakening and the global spread of American power.

## **Reflections on the Revolution in Europe**

This book surveys the early history of one of our most important modern myths: the story of Frankenstein and the monster he created from dismembered corpses, as it appeared in fictional and other writings before its translation to the cinema screen. It examines the range of meanings which Mary Shelley's Frankenstein offers in the light of the political images of 'monstrosity' generated by the French Revolution. Later chapters trace the myth's analogues and protean transformations in subsequent writings, from the tales of Hoffmann and Hawthorne to the novels of Dickens, Melville, Conrad, and Lawrence, taking in the historical and political writings of Carlyle and Marx as well as the science fiction of Stevenson and Wells. The author shows that while the myth did come to be applied metaphorically to technological development, its most powerful associations have centred on relationships between people, in the family, in work, and in politics.

**Select Works: Reflections on the revolution in France. 1881; copies 2-4, 1888**

This book examines the legacy of Antonio Gramsci and Leon Trotsky in the shadow of Stalinism in order to reassess the very different and distorted academic reception of the two figures, as well as to contribute to the revitalization of Marxism for our time. While Gramsci and Trotsky lived and died in a similar fashion, as revolutionary Marxist leaders and theoreticians, their reception in academia could not be more different. Gramsci has become tremendously popular, becoming a central figure in many disciplines, while Trotsky remains largely ignored. Saccarelli argues that not only is Gramsci popular for the wrong reasons--being routinely distorted and depoliticized--even when rescued from his contemporary users, Gramsci remains inadequate. Conversely, the fact that Trotsky remains beyond the pale of "theory" is a terrible indictment of the current state of academic thinking.

Projected Shadows presents a new collection of essays exploring films from a psychoanalytic perspective, focusing specifically on the representation of loss in European cinema. This theme is discussed in its many aspects, including: loss of hope and innocence, of youth, of consciousness, of freedom and loss through death. Many other themes familiar to psychoanalytic discourse are explored in the process, such as: Establishment and resolution of Oedipal conflicts Representation of pathological characters on the screen Use of unconscious defence mechanisms The interplay of dreams, reality and fantasy Projected Shadows aims to deepen the ongoing constructive dialogue between psychoanalysis and film. Andrea Sabbadini has assembled a remarkable number of internationally renowned contributors, both academic film scholars and psychoanalysts from a variety of cultural backgrounds, who use an array of contemporary

methodologies to apply psychoanalytic thinking to film. This original collection will appeal to anyone passionate about film, as well as professionals, academics and students interested in the relationship between psychoanalysis and the arts.

### **Liberation tested by Philosophy and Experience. In “Reflections on the French Revolution,” etc. [The dedication signed: Christian English.]**

"David Bell wrote the essays in this collection over the course of more than fifteen years, each in response to a new book or political event and published in the New Republic, New York Review of Books, or London Review of Books. Their common thread is France and French history, of which Bell is one of the world's acknowledged experts. *Shadows of Revolution* is divided into seven sections: The Longue Duree; From the Old Regime to the Revolution; The Revolution; Napoleon Bonaparte; The Nineteenth Century; Vichy; and Parallels : Past and Present. Bell argues that so much of French (and European) history revolves around and returns to the French Revolution of 1789 to 1799. So much happened in so short a time that Chateaubriand later claimed that many centuries had crammed themselves into a single quarter-century. Bell's other main focus is World War Two and the French Vichy regime. He has followed the long and painful process by which the French have come to terms with their collaboration with Nazi Germany, including the creation of monuments to the Holocaust, exhibitions devoted to Vichy and the fate

of the French Jews, and the speech that President Jacques Chirac gave in 1995, finally recognizing French responsibility for the deportation of Jews to the death camps. In its way, each of the essays in this collection--Bell's first book of the kind--reflects upon the ways that political and cultural patterns first set in the age of the Revolution continue to resonate, not just in France, but throughout the world"--

recent history of this region and highlights the broader implications for the way we understand Chinese modernity. Liu's narrative provides a wonderfully evocative exploration of many domains of everyday life such as kinship and marriage traditions, food systems, ceremonial celebrations, social relations, and village politics. He brings to life many of the personalities and customs of Zhaojiahe as he presents the villagers' strategies to modernize in an environment of scarce resources and a discredited cultural heritage. This accessibly written ethnography will be an essential contribution to the anthropology of China.

French naturalist and medical doctor Aimé Bonpland (1773–1858) was one of the most important scientific explorers of South America in the early nineteenth century. From 1799 to 1804, he worked alongside Alexander von Humboldt as the latter carried out his celebrated research in northern South America, but he later returned to conduct his own research farther south. *A Life in Shadow* accounts for the entire span of Bonpland's remarkable and diverse career in South America—in Argentina, Paraguay (where he was imprisoned for nearly a decade), Uruguay, and southernmost Brazil—based on extensive archival material. The study reconnects Bonpland's divided

"Shapes and Shadows" by Madison Julius Cawein. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

## **Europe in 1882: out of the shadow. The Royal Family of France. Twelve lectures on current French History**

Newgate in Revolution provides a useful and thought-provoking anthology of radical literature -- satirical, philosophical and political writings -- issued by the radicals and religious dissenters imprisoned in Newgate during the turbulent and nervous period 1780-1848. Newgate was a dreaded prison during this period and its image and reputation coupled to make it the English equivalent of the French Bastille. For those who found themselves incarcerated in Newgate the experience was debilitating and repressive. However, in the case of the radical prisoners it is a curious irony that this repressive environment actually encouraged a fraternal spirit and fertilised a rich production of ideas and literature, which today offers a rare insight into this unique and fascinating culture. Newgate in Revolution reproduces a representative selection of the radical literature published from Newgate, including the first edited version of the prison diary of Thomas Lloyd.

A thrilling new Victorian-era urban fantasy for fans of Kevin Hearne's Iron Druid Chronicles, the Showtime series Penny Dreadful, and the Sherlock Holmes movies featuring Robert Downey, Jr. They are the realm's last, best defense against supernatural evil. But they're going to need a lot more silver. As fog descends, obscuring the gas lamps of Victorian London, werewolves prowl the shadows of back alleys. But they have infiltrated the inner circles of upper-crust society as well. Only a handful of specially gifted practitioners are equipped to battle the beasts. Among them are the roguish Simon Archer, who conceals his powers as a spell-casting scribe behind the smooth veneer of a dashing playboy; his layabout mentor, Nick Barker, who prefers a good pub to thrilling heroics; and the self-possessed alchemist Kate Anstruther, who is equally at home in a ballroom as she is on a battlefield. After a lycanthrope targets Kate's vulnerable younger sister, the three join forces with fierce Scottish monster-hunter Malcolm MacFarlane—but quickly discover they're dealing with a threat far greater than anything they ever imagined. Praise for *The Shadow Revolution* "Team Griffith creates a number of really compelling characters whose exploits will keep readers glued to the pages! Terrific!"—RT Book Reviews "A fast-paced, action-filled dark fantasy that is just sheer fun to read . . . *The Shadow Revolution* kicks off the Crown & Key series in spectacular fashion!"—Fresh Fiction "Werewolves, mad science, and plenty of smiting. Pass the popcorn."—Emma Jane Holloway, author of *The Baskerville Affair* series "A thrilling read! Clay and Susan Griffith have crafted a gritty, action-packed Victorian-era fantasy world full of dark creatures,

## **Gramsci and Trotsky in the Shadow of Stalinism**

## **Lee In the Shadow of Washington**

Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation, history offers a special vantage point from which to judge the current course of events. In this book, a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history. The authors explain the impact of empire and its loss, the interweaving of domestic and foreign impulses, long-standing approaches to national security, and the effect of globalization over time. Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today. These patterns are driven by the country's political makeup, geographical circumstances, economic strivings, unsettled position in the larger international setting, and, above all, its tortured effort to resolve issues of national identity. The argument here is not that the Russia of Putin and his successors must remain

## Read Free Shadows Of Revolution Reflections On France Past And Present

trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve. A truly unique collection, this volume utilizes history to shed crucial light on Russia's complex, occasionally inscrutable relationship with the world. In so doing, it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined.

### **Scott's Shadow**

A fascinating and thorough history presents a gripping first-hand account of how, after achieving independence for Indonesia, President Sukarno was ousted from his reign and replaced by President Suharto, who then reigned for thirty years, and examines the political and economic progress of Indonesia.

Why has Europe's half-century of mass immigration failed to produce anything resembling the American melting pot? Deadly terrorist attacks and rioting in Muslim neighbourhoods have now forced Europeans,

## Read Free Shadows Of Revolution Reflections On France Past And Present

caught up in a demographic revolution they never expected, to question its success and to confront the limits of their long-held liberal values. By overestimating its need for immigrant labour and underestimating the culture-shaping potential of religion, has Europe trapped itself in a problem to which it has no obvious solution? Christopher Caldwell has been reporting on the politics and culture of Islam in Europe for over a decade. In his provocative and unflinching book *Reflections on the Revolution in Europe*, he reveals the anger of natives and newcomers alike. He describes asylum policies that have served illegal immigrants better than refugees. He exposes the strange interaction of welfare states and Third World traditions, the anti-Americanism that brings natives and newcomers together, and the arguments over women and sex that drive them apart. And he examines the dangerous tendency of politicians to defuse tensions surrounding Islam by curtailing the rights of all. Based on extensive reporting and offering trenchant analysis, *Reflections on the Revolution in Europe* is destined to become the classic work on how Muslim immigration permanently reshaped the West.
