The Bomb

A compass is a very helpful tool-as long as its wielder knows the direction he wants to go. This wasn't often the case in the sixties in America, when many felt directionless, with an unpopular war that had the country's moral compass spinning. "Hope Points North" is a coming-of-age experience that takes place on Long Island during this turbulent period. Of the three boys, Chris McKellar is the conventional one of the group-the glue that binds the troubled Teddy and smart, introverted Charlie together. The story is Chris's adult recollection of the time when he, Teddy, and Charlie decide to travel on their own to Grumman Aerospace Company, the builders of the Lunar Excursion Model-the craft that will eventually deliver man to the moon. Just as the boys embark on their journey, the dark-hearted preacher Lovejoy ambushes them. Teddy's grandpa has amassed a secret fortune, but it's no secret to Lovejoy, who is seducing Teddy's mother and will do anything to get the money. But the boys resist the preacher's attack in a way that leaves him dead in the creek or so they think. In shock, they follow their compass, toward the fraternity of hopes, dreams and, unsuspectingly, manhood.

Wolvz Whispers of War

The white power movement in America wants a revolution. It has declared all-out war against the federal government and its agents, and has carried out—with military precision—an escalating campaign of terror against the American public. Its soldiers are not lone wolves but are highly organized cadres motivated by a coherent and deeply troubling worldview of white supremacy, anticommunism, and apocalypse. In *Bring the War Home*, Kathleen Belew gives us the first full history of the movement that consolidated in the 1970s and 1980s around a potent sense of betrayal in the Vietnam War and made tragic headlines in the 1995 bombing of the Oklahoma City federal building. Returning to an America ripped apart by a war that, in their view, they were not allowed to win, a small but driven group of veterans, active-duty personnel, and civilian supporters concluded that waging war on their own country was justified. They unified people from a variety of militant groups, including Klansmen, neo-Nazis, skinheads, radical tax protestors, and white separatists. The white power movement operated with discipline and clarity, undertaking assassinations, mercenary soldiering, armed robbery, counterfeiting, and weapons trafficking. Its command structure gave women a prominent place in brokering intergroup alliances and giving birth to future recruits. Belew's disturbing history reveals how war cannot be contained in time and space. In its wake, grievances intensify and violence becomes a logical course of action for some. *Bring the War Home* argues for awareness of the heightened potential for paramilitarism in a present defined by ongoing war.

So eighteen-year-old Thea discovers when her solitary life on a dying Earth is shattered by a mysterious dream, a devastating choice, and a strange gift that propels her on a journey towards the restoration of all mankind. Thea is bitter and alone, just like everyone else left eking out an existence on a sunless, cloud-covered Earth. A terrifying dream convinces her to save the life of sixteen-year old Viviana, who has a deadly infection, as well as a freakish patch of glowing skin over her heart. When this light spreads to Thea, causing her palms to glow, she is forced to trust Caden, an arrogant, lazy, and annoyingly handsome boy she utterly despises. Caden has a map to the last city on Earth, and the only place that might have a cure for both Viv's infection and the strange light on Thea's hands. As the trio embark on a journey through the barren wilderness, Thea and Caden discover, and try to fight, their mounting attraction to each other. Along the way they are joined by Rain, Naomi, and Enoch who explain that the light is not a curse, but a powerful gift meant to heal the polluted Earth and reconnect the remnants of humanity. When the group learns that Viv is the key to this planet-wide redemption, and that there are deadly shadows who will do anything to keep humans in the darkness forever, they each must make the difficult decision to help Viv fulfill her destiny and save the world. New from Monica Hesse, the bestselling and award-winning author of *Girl in the Blue Coat*--an "important" (New York Times Book Review), "extraordinary" (Booklist, starred review) novel of conviction, friendship, and betrayal "A must-read for fans of historical fiction." --Ruta Sepetys, #1 New York Times bestselling author *It's 1944*, and World War II is raging across Europe and the Pacific. The war seemed far away from Margot in Iowa and Haruko in Colorado--until they were uprooted to dusty Texas, all because of the places their parents once called home: Germany and Japan. Haruko and Margot meet at the high school in Crystal City, a "family internment camp" for those accused of colluding with the enemy. The teens discover that they are polar opposites in so many ways, except for one that seems to override all the others: the camp is changing them, day by day and piece by piece. Haruko finds herself consumed by fear for her soldier brother and distrust of her father, who she knows is keeping something from her. And Margot is doing everything she can to keep her family whole as her mother's health deteriorates and her rational, patriotic father becomes a man who distrusts America and fraternizes with Nazis. With everything around them falling apart, Margot and Haruko find solace in their growing, secret friendship. But in a prison the government has deemed full of spies, can they trust anyone--even each other?

The Secret War on the United States in 1915

A dramatic account of the Americans who tried to stop their nation from fighting in the First World War—and came close to succeeding. In this “fascinating” (Los Angeles Times) narrative, Michael Kazin brings us into the ranks of one of the largest, most diverse, and most sophisticated peace coalitions in US history. The activists came from a variety of backgrounds: wealthy, middle, and working class; urban and rural; white and black; Christian and Jewish and atheist. They mounted street demonstrations and popular exhibitions, attracted prominent leaders from the labor and suffrage movements, ran peace candidates for local and federal office, met with President Woodrow Wilson to make their case, and founded new organizations that endured beyond the cause. For almost three years, they helped prevent Congress from authorizing a massive increase in the size of the US army—a step advocated by ex-president Theodore Roosevelt. When the Great War’s bitter legacy led to the next world war, the warnings of these peace activists turned into a tragic prophecy—and the beginning of a surveillance state that still endures today. Peopled with unforgettable characters and written with riveting moral urgency, *War Against War* is a “fine, sorrowful history” (The New York Times) and “a timely reminder of how easily the will of the majority can be thwarted in even the mightiest of democracies” (The New York Times Book Review).

Now it Can be Told

Tiger Bravo's War follows a band of young paratroopers, from the same battalion in the 101st Airborne Division portrayed in Stephen Ambrose's World War II bestseller *Band of Brothers*, during their first year in combat in the Vietnam War --- from a bayonet charge in War Zone D and street fighting during the 1968 Tet Offensive, to a rescue mission of a surrounded

platoon and rock and roll in the company mess hall, and much more. Thirty of their number would be killed in action, and collectively they would amass a staggering 150 Purple Hearts. It is also a book about everyday life in a war zone and the strange, often harsh, sometimes beautiful, tropical environment in which the war was fought. Lastly, it is a soldier's tale of the young men of Tiger Bravo ---- the son of a World War II Japanese fighter pilot, who wins a Silver Star fighting as an American infantryman; the tough kid from rural Texas, who leaves a job cleaning astronaut offices in Houston to volunteer to be a paratrooper; the medic, abandoned by his mother, who would find in Tiger Bravo the family he never had, and over a dozen more with their own unique stories.

Taking the Power Struggle Out of Parenting

Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.

Taking the Profits Out of War

The Secret War Council, Germany's spy organization in New York, received orders from Berlin to stop the flow of munitions through terrorism in January 1915. German agents in the U.S. firebombed freighters on the high seas, incited labor unrest, fomented troubles along the Mexican-American border, and damaged or destroyed dozens of American factories and logistics installations. The German secret war against the United States in 1915, its discovery and publication, combined with the disastrous sinking of the Lusitania in May of that year, did much to prepare the American public to finally accept joining the Entente powers against Germany in 1917. This is the story of a group of German agents in the United States, who executed this mission.

Stealth War

A panoramic narrative of the years leading up to the Second World War—a tale of democratic crisis, racial conflict, and a belated recognition of evil, with profound resonance for our own time. Berlin, November 1937. Adolf Hitler meets with his military commanders to impress upon them the urgent necessity for a war of aggression in eastern Europe. Some generals are unnerved by the Führer's grandiose plan, but these dissenters are silenced one by one, setting in motion events that will culminate in the most calamitous war in history. Benjamin Carter Hett takes us behind the scenes in Berlin, London, Moscow, and Washington, revealing the unsettled politics within each country in the wake of the German dictator's growing provocations. He reveals the fitful path by which anti-Nazi forces inside and outside Germany came to understand Hitler's true menace to European civilization and learned to oppose him, painting a sweeping portrait of governments under siege, as larger-than-life figures struggled to turn events to their advantage. As in *The Death of Democracy*, his acclaimed history of the fall of the Weimar Republic, Hett draws on original sources and newly released documents to show how these long-ago conflicts have unexpected resonances in our own time. To read *The Nazi Menace* is to see past and present in a new and unnerving light.

Duchess of War

In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again--surely--if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same.

NEW YORK TIMES BESTSELLER "Heartwarming." — New York Times "Whether or not you're a book lover, you'll be moved." — Entertainment Weekly "A readable, accessible addition to World War II literature [and] a book that will be enjoyed by lovers of books about books." — Boston Globe "Four stars [out of four] . . . A cultural history that does much to explain modern America." — USA Today When America entered World War II in 1941, we faced an enemy that had banned and burned 100 million books. Outraged librarians launched a campaign to send free books to American troops and gathered 20 million hardcover donations. In 1943, the War Department and the publishing industry stepped in with an extraordinary program: 120 million small, lightweight paperbacks for troops to carry in their pockets and rucksacks in every theater of

war. These Armed Services Editions were beloved by the troops and are still fondly remembered today. Soldiers read them while waiting to land at Normandy, in hellish trenches in the midst of battles in the Pacific, in field hospitals, and on long bombing flights. They helped rescue *The Great Gatsby* from obscurity and made Betty Smith, author of *A Tree Grows in Brooklyn*, into a national icon. *When Books Went to War* is the inspiring story of the Armed Services Editions, and a treasure for history buffs and book lovers alike. “A thoroughly engaging, enlightening, and often uplifting account . . . I was enthralled and moved.” — Tim O’Brien, author of *The Things They Carried*

If I Loved You

From the author of the award-winning, best-selling novel *Matterhorn*, comes a brilliant nonfiction book about war. In 1968, at the age of twenty-three, Karl Marlantes was dropped into the highland jungle of Vietnam, an inexperienced lieutenant in command of a platoon of forty Marines who would live or die by his decisions. Marlantes survived, but like many of his brothers in arms, he has spent the last forty years dealing with his war experience. In *What It Is Like to Go to War*, Marlantes takes a deeply personal and candid look at what it is like to experience the ordeal of combat, critically examining how we might better prepare our soldiers for war. Marlantes weaves riveting accounts of his combat experiences with thoughtful analysis, self-examination, and his readings—from Homer to *The Mahabharata* to Jung. He makes it clear just how poorly prepared our nineteen-year-old warriors are for the psychological and spiritual aspects of the journey. Just as *Matterhorn* is already being acclaimed as a classic of war literature, *What It Is Like to Go to War* is set to become required reading for anyone—soldier or civilian—interested in this visceral and all too essential part of the human experience.

Taking the War Out of Our Words

Taking the War Out of the Warrior is a story of personal and spiritual growth through the eyes of a man who was “living in the trenches” of life. Throughout a difficult divorce, a life-changing experience with a homeless man, a surprising encounter with a psychic, and much more, this warrior fought his way out of the trenches. He experienced numerous setbacks and

incredible feats, which ultimately softened his heart and allowed him to embrace a new reality, one that brought him closer to himself and God. This book will resonate with so many people! T.J. takes us with him on his spiritual journey and we see parts of ourselves in his story. We can't control the bad things that may come up in our human experience but we can control how we react to them. T.J. shows it's not only possible to have a direct connection to God, it's our birthright. As Dr. Wayne Dyer used to say, "when you change the way you look at things, the things you look at change". Taking the War Out of Our Words

Even after more than fifteen years it is hard to see the invasion of Iraq through the cool, considered gaze of history. Draper paints a vivid and indelible picture of a decision-making process that was fatally compromised, by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and participants who gamed the process relentlessly. The intelligence failure was comprehensive. The result is a definitive account of a collective process, arriving at evidence that would prove to be not just dubious but entirely false, driven by imagination rather than a quest for truth-- and led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing. -- adapted from jacket

Echoes of the War

From the author the classic *The Wizards of Armageddon* and Pulitzer Prize finalist comes the definitive history of American policy on nuclear war—and Presidents' actions in nuclear crises—from Truman to Trump. Fred Kaplan, hailed by *The New York Times* as “a rare combination of defense intellectual and pugnacious reporter,” takes us into the White House Situation Room, the Joint Chiefs of Staff's “Tank” in the Pentagon, and the vast chambers of Strategic Command to bring us the untold stories—based on exclusive interviews and previously classified documents—of how America's presidents and generals have thought about, threatened, broached, and just barely avoided nuclear war from the dawn of the atomic age until today. Kaplan's historical research and deep reporting will stand as the permanent record of politics. Discussing theories that have dominated nightmare scenarios from Hiroshima and Nagasaki, Kaplan presents the unthinkable in terms of mass destruction and demonstrates how the nuclear war reality will not go away, regardless of the dire consequences.
