The Great Game, 1856-1907

Regionalism in Southeast Asia provides the reader with an historical analysis of Southeast Asia from the distinct perspective of regionalism. Southeast Asian history is usually written from a national point of view, which underplays the links between neighbouring states and nations and the effects of these bonds on the development of regionalism. This innovative book begins by defining the meaning of 'region' and 'regionalism' and then applies it to periods in history in Southeast Asia, looking at how patterns of regionalism have shifted through time to the present day. By focusing on the regional perspective Nicholas Tarling gives an original treatment of Southeast Asian history, its political dynamics and its international realtions. Regionalism in Southeast Asia completes a trilogy of books on Southeast Asia by Nicholas Tarling published by Routledge, the other two are

Nationalism in Southeast Asia and Imperialism in Southeast Asia.

Yamaha Band Ensembles, Book 1 for Trombone, Baritone B.C. or Bassoon

The bond siblings develop in childhood may be vastly different from the relationship that evolves in adulthood. Driven by affection but also characterized by ambivalence and ambiguity, adult sibling relationships can become hurtful, uncertain, competitive, or exhausting though the undercurrents of love and loyalty remain. An approach that recognizes the positive aspects of the changing sibling relationship, as well as those that need improvement, can restore healthy ties and rebuild family closeness. With in-depth case studies of more than 260 siblings over the age of forty and interviews with experts on mental health and family interaction, this book offers vital direction for traversing the emotional terrain of adult sibling relations. It pursues a richer understanding of ambivalence, a normal though little explored feeling among siblings, and how ambiguity about the past or present can lead to miscommunication and estrangement. For both professionals and general readers, this book clarifies the most confounding elements of sibling relationships and provides specific suggestions for realizing new, productive avenues of friendship in middle and later life—skills that are particularly important for siblings who must cooperate to care for aging parents or give immediate emotional or financial support to other siblings or family members.

Ohmic Heating in Food Processing

Ohmic heating provides rapid and uniform heating, resulting in less thermal damage than conventional heating and allowing manufacturers to obtain high-quality products with minimum sensorial, nutritional, and structural changes. Ohmic Heating in Food Processing covers several aspects of Ohmic heating: science and engineering, chemistry and physics, biochemistry and nutrition, quality and safety, and development and technology, both basic and applied. It describes the importance of Ohmic technology and how to implement it in practice, addressing basic theory, principles, and applications. Divided into nine sections, this volume covers the basics of Ohmic heating, including a historic overview and fundamental principles; electrical conductivity, its importance, factors that influence it, and data modeling; biological effects of electricity on foods and food components, including microorganisms, enzymes, proteins, carbohydrates, and fats; and Ohmic heating behavior and design parameters. The book also deals with issues in Ohmic heating equipment, Ohmic heating modeling issues, and process validation issues. The authors discuss various applications of Ohmic heating applied to different classes of foods, such as muscle foods (meat, poultry, and fish), dairy products, fruits, and vegetables. They also examine commercially successful applications of food products processed by Ohmic heating and considers applications of Ohmic heating where preservation is not the main focus, for example, blanching, Ohmic thawing, and the potential for Ohmic heating for long-duration space missions.

Belwin 21st Century Band Method, Level 1

Since the International Labour Organisation's Maritime Labour Convention, 2006 (MLC) came into force internationally on 20 August 2013, it has already been amended, and a further two sets of amendments have been agreed and are expected to come into force in 2019 and 2020. Maritime Labour Convention, 2006 – UK and REG Implementation sets out in detail how the UK, Bermuda, Cayman Islands, Gibraltar and the Isle of Man (being the members of the Red Ensign Group (REG) which are subject to the MLC) have implemented the Convention. Specific references are given to the laws, merchant shipping notices and guidance, as well as identifying the areas where implementation is permitted by way of collective agreements. As the MLC sits in the context of the wider international regulatory

regime, it expressly endorses the application of other international instruments and standards, particularly those of the International Maritime Organisation. Furthermore, many of the MLC's mandatory provisions have been incorporated into EU Directives, which are relevant to the UK and Gibraltar. These international and regional provisions are also referenced. Chapter 1 sets out an introduction to the ILO and the MLC. Chapter 2 describes the general approach of how the UK applies its legislation to UK ships and, while they are in UK waters, non-UK ships without MLC documentation, and non-UK ships with MLC documentation. Chapters 3-22 describe the UK provisions in more detail as the other REG members' laws are influenced by those to a significant extent. The specific provisions for Bermuda, the Cayman Islands, Gibraltar and the Isle of Man have been set out, with detailed references to the appropriate regulatory sources in Chapters 23-26. Due to the central role of the MLC's Title 5 on compliance and enforcement, this is set out in full (in Part VIII, Appendix 1), annotated with references to the relevant sections of the ILO's guidelines on flag state control and port state control. The full text of the amendments to the MLC have been set out in Part VIII, Appendix 2.
