Ancient Jewish Novels

"Terrific . . . exactly the sort of collection we have long needed: one offering a wide range of texts, both literary and documentary, and that--with the inclusion of Sulpicia and Perpetua--allows students to hear the voices of actual women from the ancient world. The translations themselves are fluid; the inclusion of long extracts allows students to sink their teeth into material in ways not possible with traditional source books. The anonymous texts, inscriptions, and other non-literary material topically arranged in the 'Documentary' section will enable students to see how the documentary evidence supplements or undermines the views advanced in the literary texts. This is a book that should be of great use to anyone teaching a survey of the history of Ancient Rome or a Roman Civilization course. I look forward to teaching with this book which is, I think, the best source book I have seen for the way we teach these days." --David Potter, University of Michigan

Roman Art and Architecture

Roman Egypt is a critical area of interdisciplinary research, which has steadily expanded since the 1970s and continues to grow. Egypt played a pivotal role in the Roman empire, not only in terms of political, economic, and military strategies, but also as part of an intricate cultural discourse involving themes that resonate today - east and west, old world and new, acculturation and shifting identities, patterns of language use and religious belief, and the management of agriculture and trade. Roman Egypt was a literal and figurative crossroads shaped by the movement of people, goods, and ideas, and framed by permeable boundaries of self and space. This handbook is unique in drawing together many different strands of research on

Roman Egypt, in order to suggest both the state of knowledge in the field and the possibilities for collaborative, synthetic, and interpretive research. Arranged in seven thematic sections, each of which includes essays from a variety of disciplinary vantage points and multiple sources of information, it offers new perspectives from both established and younger scholars, featuring individual essay topics, themes, and intellectual juxtapositions.

Handbook for Classical Research

A fully-annotated, two-volume work which presents the major literary achievements of English writers from the medieval period to the twentieth century

A Cabinet of Ancient Medical Curiosities

Maximus the Confessor (c.580-662) has become one of the most discussed figures in contemporary patristic studies. This is partly due to the relatively recent discovery and critical edition of his works in various genres, including *On the Ascetic Life*, *Four Centuries on Charity*, *Two Centuries on Theology and the Incarnation*, *On the 'Our Father'*, two separate *Books of Difficulties*, addressed to John and to Thomas, *Questions and Doubts*, *Questions to Thalassius*, *Mystagogy* and the *Short Theological and Polemical Works*. The impact of these works reached far beyond the Greek East, with his involvement in the western resistance to imperial heresy, notably at the Lateran Synod in 649. Together with Pope Martin I (649-53 CE), Maximus the Confessor and his circle were the most vocal opponents of Constantinople's introduction of the doctrine of monothelism. This dispute over the number of wills in Christ became a contest between the imperial government and church of Constantinople on the one hand, and the bishop of Rome in concert with eastern monks such as Maximus, John Moschus, and Sophronius, on the other, over the right to define orthodoxy. An understanding of the difficult relations between church and state in this troubled period at the close of Late Antiquity is necessary for a full appreciation of Maximus' contribution to this controversy. The editors of this volume aim to provide the political and historical background to Maximus' activities, as well as a summary of his achievements in the spheres of theology and philosophy, especially neo-Platonism and Aristotelianism.

The Oxford Anthology of English Literature: From Beowulf to Johnson

Each selection begins with a short biographical and historical essay.

The Book of Greek and Roman Folktales, Legends, and Myths

This book contains over fifty passages of Latin from 200 BC to AD 900, each with translation and linguistic commentary. It is not intended as an elementary reader (though suitable for university courses), but as an illustrative history of Latin covering more than a millennium, with almost every century represented. Conventional histories cite constructions out of context, whereas this work gives a sense of the period, genre, stylistic aims and idiosyncrasies of specific passages. 'Informal' texts, particularly if they portray talk, reflect linguistic variety and

change better than texts adhering to classicising norms. Some of the texts are recent discoveries or little known. Writing tablets are well represented, as are literary and technical texts down to the early medieval period, when striking changes appear. The commentaries identify innovations, discontinuities and phenomena of long duration. Readers will learn much about the diversity and development of Latin.

Modern Poetry

Fifty distinguished contributors survey the entire history of political philosophy. They consider questions about how the subject should best be studied; they examine historical periods and great theorists in their intellectual contexts; and they discuss aspects of the subject that transcend periods, such as democracy, the state, and imperialism.

The Oxford Illustrated Book of American Children's Poems

The *Historians of Ancient Rome* is the most comprehensive collection of ancient sources for Roman history available in a single English volume. After a general introduction on Roman historical writing, extensive passages from more than a dozen Greek and Roman historians and biographers trace the history of Rome over more than a thousand years: from the city's foundation by Romulus in 753 B.C.E. (Livy) to Constantine's edict of toleration for Christianity (313 C.E.) Selections include many of the high points of Rome's climb to world domination: the defeat of Hannibal; the conquest of Greece and the eastern Mediterranean; the defeat of the Catilinarian conspirators; Caesar's conquest of Gaul; Antony and Cleopatra; the establishment of the Empire by Caesar Augustus; and the "Roman Peace" under Hadrian and long excerpts from Tacitus record the horrors of the reigns of Tiberius and Nero. The book is intended both for undergraduate courses in Roman history and for the general reader interested in approaching the Romans through the original historical sources. Hence, excerpts of Polybius, Livy, and Tacitus are extensive enough to be read with pleasure as an exciting narrative. Now in its third edition, changes to this thoroughly revised volume include a new timeline, translations of several key inscriptions such as the Twelve Tables, and additional readings. This is a book which no student of Roman history should be without.

The Oxford Illustrated History of Theatre

A large gap exists in the literature of ancient numismatics between general works intended for collectors and highly specialized studies addressed to numismatists. Indeed, there is hardly anything produced by knowledgeable numismatists that is easily accessible to the academic community at large or the interested lay reader. The *Oxford Handbook of Greek and Roman Coinage* will fill this gap by providing a systematic overview of the major coinages of the classical world. The Handbook begins with a general introduction by volume editor William E. Metcalf followed by an article establishing the history and role of scientific analysis in ancient numismatics. The subsequent thirty-two chapters, all written by an international group of distinguished scholars, cover a vast geography and chronology, beginning with the first evidence of coins in Western Asia Minor in the seventh century BCE

and continuing up to the transformation of coinage at the end of the Roman Empire. In addition to providing the essential background and current research questions of each of the major coinages, the Handbook also includes articles on the application of numismatic evidence to the disciplines of archaeology, economic history, art history, and ancient history. With helpful appendices, a glossary of specialized terms, indices of mints, persons, and general topics, and nearly 900 illustrations, The Oxford Handbook of Greek and Roman Coinage will be an indispensable resource for scholars and students of the classical world, as well as a stimulating reference for collectors and interested lay readers.

The Cambridge Illustrated History of the Roman World

The Oxford Anthology of African-American Poetry

A reissue in paperback of a title first published in 1949.

Ancient Rome

There are few disciplines as exciting and forward-looking as medicine. Unfortunately, however, many modern practitioners have lost sight of the origins of their discipline. A Cabinet of Ancient Medical Curiosities aspires to cure this lapse by taking readers back to the early days of Western medicine in ancient Greece and Rome. Quoting the actual words of ancient authors, often from texts which have never before been translated into English, J. C. McKeown offers a fascinating glimpse at the origins of surgery, gynecology, pediatrics, pharmacology, diet and nutrition, and many other fields of medicine. This book features hundreds of passages from Greek and Roman authors, with gentle guidance from McKeown, giving a vividly direct picture of the ancient medical world, a world in which, for example, a surgeon had to be strong-minded enough to ignore the screams of his patient, diseases were assumed to be sent by the gods, medicine and magic were often indistinguishable, and no qualifications were required before setting oneself up as a doctor. On the other hand, McKeown reveals that some ancient medical attitudes were also surprisingly similar to our own. Beyond the practice of medicine, McKeown highlights ancient views on familiar topics, such as medical ethics and the role of the doctor in society. A fascinating exploration of the bizarre - and sometimes grotesque - medical beliefs of the past, A Cabinet of Ancient Medical Curiosities will delight anyone with an interest in the history of medicine or the ancient world.

The Oxford Book of War Poetry

This volume brings together in translation all the ancient Jewish novels and fragments of novels. Included are texts from the Old Testament Apocrypha, several historical novels, and selections from the Testaments of the 12 Patriarchs.

Greek and Roman Textiles and Dress

A classic introduction to Latin literature, with translations of the best passages

from Virgil, Livy, Ovid, Seneca and many others. This classic anthology traces the development of Latin literature from the early Republican works of Cicero and Catullus, to the writers of the Empire such as Lucan and Petronius, to the later writings of St Augustine. The selections cover comedy and epic, history and philosophy, in prose and in verse, and each passage is prefaced by an introduction to the author and his influence. The translators range across history from Alexander Pope and Lord Byron to contemporaries. The result is a broad and brilliant overview of the civilization of Rome and its Empire - an ideal introduction to Latin literature. Michael Grant was born in 1914. He served as an intelligence officer during the Second World War, and subsequently held academic posts at the universities of Cambridge, Edinburgh, Khartoum and Belfast. Over his lifetime, he published nearly fifty books on the ancient world, ranging from studies of Roman coinage, to biographies of Caesar, Nero and Jesus, to books on Ancient Israel and the Middle Ages. Many of his translations were published in Penguin Classics. Professor Grant moved to Italy in 1966, where he spent most of the rest of his life until his death in 2004.

The Oxford Anthology of English Literature

Table of contents

Greek Epigram in the Roman Empire

Five novels include a comedy of manners, an historical fantasy, a love story, a tragic romance, and a businessman's rise to success

Greek and Roman Textiles and Dress

Twenty chapters present the range of current research into the study of textiles and dress in classical antiquity, stressing the need for cross and inter-disciplinary study in order to gain the fullest picture of surviving material. Issues addressed include: the importance of studying textiles to understand economy and landscape in the past; different types of embellishments of dress from weaving techniques to the (late introduction) of embroidery; the close links between the language of ancient mathematics and weaving; the relationships of iconography to the realities of clothed bodies including a paper on the ground breaking research on the polychromy of ancient statuary; dye recipes and methods of analysis; case studies of garments in Spanish, Viennese and Greek collections which discuss methods of analysis and conservation; analyses of textile tools from across the Mediterranean; discussions of trade and ethnicity to the workshop relations in Roman fulleries. Multiple aspects of the production of textiles and the social meaning of dress are included here to offer the reader an up-to-date account of the state of current research. The volume opens up the range of questions that can now be answered when looking at fragments of textiles and examining written and iconographic images of dressed individuals in a range of media. The volume is part of a pair together with Prehistoric, Ancient Near Eastern and Aegean Textiles and Dress: an interdisciplinary anthology edited by Mary Harlow, Cécile Michel and Marie-Louise Nosch

An Anthology of Elizabethan Prose Fiction

Illustrated survey of ancient Roman art and architecture.

Oxford Readings in the Roman Novel

A definitive literary portrait of contrasting visions and styles covers the key issues important to the African-American experience, including poetry on slavery, the South; protest and resistance, music and religion, spirituality, sexuality and love, and the idea of Africa.

The Classical Tradition : Greek and Roman Influences on Western Literature

An anthology of American poems, arranged chronologically, from colonial alphabet rhymes to Native American cradle songs to contemporary poems.

Ancient Rome

One of the glories of the Greco-Roman classics is the opportunity that they give us to consider a great culture in its entirety; but our ability to do that depends on our ability to work comfortably with very varied fields of scholarship. The Handbook for Classical Research offers guidance to students needing to learn more about the different fields and subfields of classical research, and its methods and resources. The book is divided into 7 parts: The Basics, Language, The Traditional Fields, The Physical Remains, The Written Word, The Classics and Related Disciplines, The Classics since Antiquity. Topics covered range from history and literature, lexicography and linguistics, epigraphy and palaeography, to archaeology and numismatics, and the study and reception of the classics. Guidance is given not only to read, for example, an archaeological or papyrological report, but also on how to find such sources when they are relevant to research. Concentrating on "how-to" topics, the Handbook for Classical Research is a much needed resource for both teachers and students.

The Oxford Handbook of Greek and Roman Coinage

An illustrated history of the city of Rome and its impact on the world examines a broad range of topics including science and culture, Rome's relationship with Greece, warfare, and religion.

An Anthology of Informal Latin, 200 BC-AD 900

Not all readers in ancient Greece whiled away the hours with Homer, Plato, or Sophocles - at least, not always. Many enjoyed light reading, such as can be found in the pages of this lively anthology. Various types of popular writing - novels, short stories, books of jokes or fables, fortune-telling handbooks - trace their origins to the ancient Mediterranean. In fact, some of this literature was so successful that it remained in circulation for centuries, even into the Middle Ages. Translated into other languages, these works were the best sellers of their time and remain

enjoyable reading today. They are also fascinating social documents that reveal much about the daily lives, humor, loves, anxieties, fantasies, values, and beliefs of ordinary men and women.

The Historians of Ancient Rome

"Those articles in the collection which concern Petronius' *Satyrিকা* include a general interpretation of this fragmentary and problematic text, an exploration of its narrative technique, its relationship to Menippean satire and to recently discovered Greek novel papyri, and the issue of its realism."--BOOK JACKET. "On Apuleius' *Metamorphoses*, the collection includes pieces on narrative and ideological unity, an exploration of its narrative technique, its relationship to religion and Platonism, to epic and to the Greek ass stories, and to historical realism."--Jacket.

The Oxford Handbook of Maximus the Confessor

There can be no area of human experience that has generated a wider range of powerful feelings than war. The 250 poems included in this acclaimed anthology span centuries of human conflict from David's lament for Saul and Jonathan, and Homer's *Iliad*, to the finest poems of the First and Second World Wars, and beyond. Reflecting the feelings of poets as diverse as Byron, Hardy, Owen, Sassoon, and Heaney, they reveal a great shift in social awareness from man's early celebratory 'war-songs' to the more recent 'anti-war' attitudes of poets responding to 'man's inhumanity to man' - and to women and children.

Anthology of Ancient Greek Popular Literature

Poets through the ages offer interpretations of love's changing moods and forms

The Oxford Anthology of American Literature

Shedding new light on the history of the book in antiquity, *Empire of Letters* tells the story of writing at Rome at the pivotal moment of transition from Republic to Empire (c. 55 BCE-15 CE). By uniting close readings of the period's major authors with detailed analysis of material texts, it argues that the physical embodiments of writing were essential to the worldviews and self-fashioning of authors whose works took shape in them. Whether in wooden tablets, papyrus bookrolls, monumental writing in stone and bronze, or through the alphabet itself, Roman authors both idealized and competed with writing's textual forms. The academic study of the history of the book has arisen largely out of the textual abundance of the age of print, focusing on the Renaissance and after. But fewer than fifty fragments of classical Roman bookrolls survive, and even fewer lines of poetry. Understanding the history of the ancient Roman book requires us to think differently about this evidence, placing it into the context of other kinds of textual forms that survive in greater numbers, from the fragments of Greek papyri preserved in the garbage heaps of Egypt to the Latin graffiti still visible on the walls of the cities destroyed by Vesuvius. By attending carefully to this kind of material in conjunction with the rich literary testimony of the period, *Empire of Letters* exposes the importance of textuality itself to Roman authors, and puts the

written word back at the center of Roman literature.

A Book of Love Poetry

A survey of 4,500 years of international performance history covers the significant movements, writers, performers, and events from traditional and avant-garde theater

Roman Law: Oxford Bibliographies Online Research Guide

The first comprehensive anthology of the century of English drama from the medieval mysteries to the Shakespearean stage. It provides easily accessible, modern English texts of sixteen of the most exciting English plays from the York Creation pageant to *The Comedy of Errors*, all edited from original sixteenth century sources. Anyone wanting to understand the history of the English stage from the earliest surviving interludes to the early Shakespeare will find this collection essential reading.

The Oxford Anthology of Tudor Drama

A wide-ranging and readable volume, this anthology includes over fifty short extracts from all the major Greek prose writers from the fifth century B.C. through to the fourth century A.D. It encompasses works by Herodotus, Thucydides, and other historians; orators such as Lysias and Isocrates; philosophers such as Plato, Xenophon, and Aristotle; and writers from the Hellenistic and Roman periods. An essential guide for both scholars and students of Greek literary appreciation and composition, the volume presents a broad range of stylistic and syntactical techniques with accompanying notes, full references to grammars, and useful general introductions to each text.

The Oxford Anthology of Roman Literature

The first anthology to present the entire range of ancient Greek and Roman stories—from myths and fairy tales to jokes. Captured centaurs and satyrs, incompetent seers, people who suddenly change sex, a woman who remembers too much, a man who cannot laugh—these are just some of the colorful characters who feature in the unforgettable stories that ancient Greeks and Romans told in their daily lives. Together they created an incredibly rich body of popular oral stories that include, but range well beyond, mythology—from heroic legends, fairy tales, and fables to ghost stories, urban legends, and jokes. This unique anthology presents the largest collection of these tales ever assembled. Featuring nearly four hundred stories in authoritative and highly readable translations, this is the first book to offer a representative selection of the entire range of traditional classical storytelling. Complete with beautiful illustrations, this one-of-a-kind anthology will delight general readers as well as students of classics, fairy tales, and folklore.

The Oxford Handbook of the History of Political Philosophy

This ebook is a selective guide designed to help scholars and students of the

ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In classics, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is just one of many articles from Oxford Bibliographies Online: Classics, a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.aboutobo.com.

The Oxford Handbook of Roman Egypt

Two of Oxford's most comprehensive collections, *Anthology of Modern American Poetry*, edited by Cary Nelson, and *Anthology of Twentieth-Century British and Irish Poetry*, edited by Keith Tuma, are now available as an economical two-volume package. Ideal for Modern Poetry, Twentieth-Century Literature, and Introduction to Poetry courses, these two books provide a very extensive selection of vital twentieth-century poetry. Each volume presents both canonical and lesser-known selections, including the work of many poets who have not been anthologized before.

Epigrams from the Greek Anthology

With commanding skill, Thomas R. Martin tells the remarkable and dramatic story of how a tiny, poor, and threatened settlement grew to become, during its height, the dominant power in the Mediterranean world for five hundred years.

Encompassing the period from Rome's founding in the eighth century B.C. through Justinian's rule in the sixth century A.D., he offers a distinctive perspective on the Romans and their civilization by employing fundamental Roman values as a lens through which to view both their rise and spectacular fall. Interweaving social, political, religious, and cultural history, Martin interprets the successes and failures of the Romans in war, political organization, quest for personal status, and in the integration of religious beliefs and practices with government. He focuses on the central role of social and moral values in determining individual conduct as well as decisions of state, from monarchy to republic to empire. Striving to reconstruct ancient history from the ground up, he includes frequent references to ancient texts and authors, encouraging readers to return to the primary sources.

Comprehensive, concise, and accessible, this masterful account provides a unique window into Rome and its changing fortune.

The Oxford Book of Classical Verse

Presents modern translations of the major literary, critical, and philosophical writings of Greeks from Homer to Plotinus

Latin Literature

Twenty chapters present the range of current research into the study of textiles and dress in classical antiquity, stressing the need for cross and inter-disciplinary study in order to gain the fullest picture of surviving material. Issues addressed include: the importance of studying textiles to understand economy and landscape in the past; different types of embellishments of dress from weaving techniques to the (late introduction) of embroidery; the close links between the language of ancient mathematics and weaving; the relationships of iconography to the realities of clothed bodies including a paper on the ground breaking research on the polychromy of ancient statuary; dye recipes and methods of analysis; case studies of garments in Spanish, Viennese and Greek collections which discuss methods of analysis and conservation; analyses of textile tools from across the Mediterranean; discussions of trade and ethnicity to the workshop relations in Roman fulleries. Multiple aspects of the production of textiles and the social meaning of dress are included here to offer the reader an up-to-date account of the state of current research. The volume opens up the range of questions that can now be answered when looking at fragments of textiles and examining written and iconographic images of dressed individuals in a range of media. The volume is part of a pair together with Prehistoric, Ancient Near Eastern and Aegean Textiles and Dress: an interdisciplinary anthology edited by Mary Harlow, Cécile Michel and Marie-Louise Nosch

Greek Literature ; an Anthology

"This shorter version lucidly unfolds Rome's remarkable evolution through monarchy, republic, and then an empire that, at its height, stretched from Scotland to Iraq and the Nile Valley. Concise narrative integrates the political, military, social, and cultural landmarks of over 1,500 years -- from the early struggles against the Etruscans, Samnites, and Gauls to the sack of Rome by Alaric and his Visigoths"--

An Anthology of Greek Prose

Lush Diodorus sets the lads on fire, But now another has him in his net - Timarion, the boy with wanton eyes . . . Meleager, AP 12.109 Encompassing four thousand short poems and more, the ramshackle classic we call the Greek Anthology gathers up a millennium of snapshots from ancient daily life. Its influence echoes not merely in the classic tradition of the English epigram (Pope, Dryden) but in Rudyard Kipling, Ezra Pound, Virginia Woolf, T. S. Eliot, H.D., and the poets of the First World War. Its variety is almost infinite. Victorious armies, ruined cities, and Olympic champions share space with lovers' quarrels and laments for the untimely dead - but also with jokes and riddles, art appreciation, potted biographies of authors, and scenes from country life and the workplace. This selection of more than 600 epigrams in verse is the first major translation from the Greek Anthology in nearly a century. Each of the Anthology's books of epigrams is represented here,

in manuscript order, and with extensive notes on the history and myth that lie behind them.

Empire of Letters

The debts that English poetry owes to the Classics are massive and various. But they have been richly repaid by the astonishingly inventive tradition of translation to which some of the greatest poets in the English language have contributed, including Chaucer and Jonson, Dryden and Pope, Tennyson and Ezra Pound. This anthology presents the wealth of this living tradition as it has never been seen before, ranging from King Alfred to the many contemporary poets here generously represented, and from North America to Ireland and Scotland. It offers a vast array of responses to the song, verse and drama of ancient Greece and Rome, Ovid, and Juvenal. Organized by classical author and text, it runs from the epics of Homer to the late antique world where Greek and Latin writing both face an emerging Christian culture, and juxtaposes English versions, sometimes of the same passage or poem, to dramatize the endless re-animation of one great poetic tradition in and through another.

A Brief History of the Romans

A fully-annotated, two-volume work which presents the major literary achievements of English writers from the medieval period to the twentieth century.

[ROMANCE](#) [ACTION & ADVENTURE](#) [MYSTERY & THRILLER](#) [BIOGRAPHIES & HISTORY](#) [CHILDREN'S](#) [YOUNG ADULT](#) [FANTASY](#) [HISTORICAL FICTION](#) [HORROR](#) [LITERARY FICTION](#) [NON-FICTION](#) [SCIENCE FICTION](#)
