The Two Lives of Lydia Bird

Modern, original fiction for learners of English. Tess and Grant are tour leaders for a group walking holiday in France. And they don't get on at all. Tess is an artist and a dreamer, whose father owns the tour company. Grant is experienced, knowledgeable and efficient - and enjoys making Tess appear foolish. As the rain pours down, things go from bad to worse until

The Two Lives of Everett Quinn

The First Fifteen Lives of Harry August

Everett Quinn, a homeless man, befriends Brian Sanchez, a troubled young teen who has no father. As they become good friends, the boy turns his life around through inspiring stories and motivation from this down-and-out homeless man. But not until the homeless man is attacked and in a coma do we find out that he is much more than what he appears to be. And is that other voice of Everett's with a foreign accent an angel, a past life of his, or a deeper, spiritual part of an inner Everett to help him and others? The once suicidal man vowed years earlier after finding Jesus to change himself and the world around him. Everett is the most philosophical man the park dwellers ever encounter as he changes so many lives and keeps them coming back for more. You will be surprised, touched, and filled with love as young Brian and you experience this magnificent journey in the Two Lives of Everett Quinn.

A riveting and powerful story of an unforgiving time, an unlikely friendship and an indestructible love

Wild Country Level 3 Lower Intermediate Book with Audio CDs (2) Pack

Two lives. Two loves. One impossible choice. From the #1 New York Times bestselling author of the Reese's Book Club Pick *One Day in December*. . . "I read *The Two Lives of Lydia Bird* in a single sitting. What a beautiful, emotional gift Josie Silver has given us."—Jodi Picoult
Written with Josie Silver's trademark warmth and wit, *The Two Lives of Lydia Bird* is a powerful and thrilling love story about the what-ifs that arise at life's crossroads, and what happens when one woman is given a miraculous chance to answer them. Lydia and Freddie. Freddie and Lydia. They'd been together for more than a decade and Lydia thought their love was indestructible. But she was wrong. On Lydia's twenty-eighth birthday, Freddie died in a car accident. So now it's just Lydia, and all she wants is to hide indoors and sob until her eyes fall out. But Lydia knows that Freddie would want her to try to live fully, happily, even without him. So, enlisting the help of his best friend, Jonah, and her sister, Elle, she takes her first tentative steps into the world, open to life—and perhaps even love—again. But then something inexplicable happens that gives her another chance at her old life with Freddie. A life where none of the tragic events of the past few months have happened. Lydia is pulled again and again through the doorway to her past, living two lives, impossibly, at once. But there's an emotional toll to returning to a world where Freddie, alive, still owns her heart. Because there's someone in her new life, her real life, who wants her to stay.

Life 3.0

Modern, original fiction for learners of English. Ronnie Campbell has escaped from prison and Morag Mackenzie has been found murdered. Seven years ago Morag gave evidence in an Edinburgh court that sent Ronnie to prison for murder. Inspector Logan is not sure this case is as straightforward as it seems. She returns to the original crime scene in order to find out the truth.

The 5 Levels of Leadership

The New York Times bestselling true story of an all-American girl and a boy from

Zimbabwe -- and the letter that changed both of their lives forever. It started as an assignment. Everyone in Caitlin's class wrote to an unknown student somewhere in a distant place. Martin was lucky to even receive a pen-pal letter. There were only ten letters, and fifty kids in his class. But he was the top student, so he got the first one. That letter was the beginning of a correspondence that spanned six years and changed two lives. In this compelling dual memoir, Caitlin and Martin recount how they became best friends--and better people--through their long-distance exchange. Their story will inspire you to look beyond your own life and wonder about the world at large and your place in it.

Rethinking the Good

The Punch

Award-winning original fiction for learners of English. At seven levels, from Starter to Advanced, this impressive selection of carefully graded readers offers exciting reading for every student's capabilities. It was just a normal Friday evening in Moreland Road. Jason was listening to his iPod and couldn't hear his mother shouting. Nina wasn't sure how to tell her husband about her news. Maggie smiled as she thought about her holiday romance in Chile. Sam looked worried - money trouble again. Then that evening something happened which changed all of their lives. Contains a paperback and Audio CD with complete text recordings from the book.

I Will Always Write Back

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates
"Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly."
—Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama
Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that

the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

A Thousand Splendid Suns

Fuel success and grow your team at every level of leadership. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership-where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position - People follow because they have to. 2. Permission - People follow because they want to. 3. Production - People follow because of what you have done for the organization. 4. People Development - People follow because of what you have done for them personally. 5. Pinnacle - People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

Wildly original, funny and moving, *The First Fifteen Lives of Harry August* is an extraordinary story of a life lived again and again from World Fantasy Award-winning author Claire North. Harry August is on his deathbed. Again. No matter what he does or the decisions he makes, when death comes, Harry always returns to where he began, a child with all the knowledge of a life he has already lived a dozen times before. Nothing ever changes. Until now. As Harry nears the end of his eleventh life, a little girl appears at his bedside. "I nearly missed you, Doctor August," she says. "I need to send a message." This is the story of what Harry does next, and what he did before, and how he tries to save a past he cannot change and a future he cannot allow.

Slaughterhouse Five Or the Children's Crusade

New York Times Best Seller How will Artificial Intelligence affect crime, war, justice, jobs, society and our very sense of being human? The rise of AI has the potential to transform our future more than any other technology—and there's nobody better qualified or situated to explore that future than Max Tegmark, an MIT professor who's helped mainstream research on how to keep AI beneficial. How can we grow our prosperity through automation without leaving people lacking income or purpose? What career advice should we give today's kids? How can we make future AI systems more robust, so that they do what we want without crashing, malfunctioning or getting hacked? Should we fear an arms race in lethal autonomous weapons? Will machines eventually outsmart us at all tasks, replacing humans on the job market and perhaps altogether? Will AI help life flourish like never before or give us more power than we can handle? What sort of future do you want? This book empowers you to join what may be the most important conversation of our time. It doesn't shy away from the full range of viewpoints or from the most controversial issues—from superintelligence to meaning, consciousness and the ultimate physical limits on life in the cosmos.

Duped

'Abby Ellin's writing is everything her fiancé pretended to be: witty, vulnerable,

brave, smart, and honest.' - Michael Finkel, author of *The Stranger in the Woods* In *Duped*, New York Times journalist Abby Ellin explores the secret lives of compulsive liars, and the tragedy of those who trust them. Perfect for anybody who enjoyed *Bad Blood* and *Dirty John*. While leading a double life sounds like the stomping ground of psychopaths, moles, and covert agents with indeterminate dialects, plenty of people who appear 'normal' keep canyon-sized secrets from those in their immediate orbits. These untold stories lead to enormous surprises, often unpleasant ones. *Duped* is an investigation of compulsive liars - and how they fool their loved ones - drawing on Abby Ellin's personal experience. From the day Abby went on her first date with The Commander, she was caught up in a whirlwind. Within five months he'd proposed, and they'd moved in together. But there were red flags: strange stories of international espionage, involving Osama bin Laden and the Pentagon. Soon his stories began to unravel until she discovered, far later than she'd have liked, that he was a complete and utter fraud. When Ellin wrote about her experience in *Psychology Today*, the responses were unlike anything she'd experienced as a journalist. Legions of people wrote in with similar stories, of otherwise sharp-witted and self-aware people being taken in by ludicrous scams. Why was it so hard to spot these outlandish stories? Why were so many of the perpetrators male, and so many of the victims female? Was there something universal at play here? In *Duped*, New York Times journalist Abby Ellin explores the secret lives of compulsive liars, and the tragedy of those who trust them - who have experienced severe, prolonged betrayal - and the terrible impact on their sense of reality and their ability to trust ever again. Studying the art and science of lying, talking to victims who've had their worlds turned upside down, and writing with great openness about her own mistakes, she lays the phenomenon bare. Ellin offers us a shocking and intimate look not only at the damage that the duplicitous cause, but the painful reaction of a society that is all too quick to blame the believer.

The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. And don't miss *On the Come Up*, Angie Thomas's powerful follow-up to *The Hate U Give*.

In choosing between moral alternatives -- choosing between various forms of ethical action -- we typically make calculations of the following kind: A is better than B; B is better than C; therefore A is better than C. These inferences use the principle of transitivity and are fundamental to many forms of practical and theoretical theorizing, not just in moral and ethical theory but in economics. Indeed they are so common as to be almost invisible. What Larry Temkin's book shows is that, shockingly, if we want to continue making plausible judgments, we cannot continue to make these assumptions. Temkin shows that we are committed to various moral ideals that are, surprisingly, fundamentally incompatible with the idea that "better than" can be transitive. His book develops many examples where value judgments that we accept and find attractive, are incompatible with transitivity. While this might seem to leave two options -- reject transitivity, or reject some of our normative commitments in order to keep it -- Temkin is neutral on which path to follow, only making the case that a choice is necessary, and that the cost either way will be high. Temkin's book is a very original and deeply unsettling work of skeptical philosophy that mounts an important new challenge to contemporary ethics.

Two Lives

"The Soyuz Launch Vehicle" tells the story, for the first time in a single English-language book, of the extremely successful Soyuz launch vehicle. Built as the world's first intercontinental ballistic missile (ICBM), Soyuz was adapted to launch not only Sputnik but also the first man to orbit Earth, and has been in service for over fifty years in a variety of forms. It has launched all Soviet manned spacecraft and is now the only means of reaching the International Space Station. It was also the workhorse for launching satellites and space probes and has recently been given a second life in French Guiana, fulfilling a commercial role in a joint venture with France. No other launch vehicle has had such a long and illustrious history. This remarkable book gives a complete and accurate description of the two lives of Soyuz, chronicling the recent cooperative space endeavors of Europe and Russia. The book is presented in two parts: Christian Lardier chronicles the "first life" in Russia while Stefan Barensky explores its "second life," covering Starsem, the Franco-Russian company and implementation of technology for the French Guiana

Space Agency by ESA. Part One has been developed from Russian sources, providing a descriptive approach to very technical issues. The second part of the book tells the contemporary story of the second life of Soyuz, gathered from Western sources and interviews with key protagonists. "The Soyuz Launch Vehicle" is a detailed description of a formidable human adventure, with its political, technical, and commercial ramifications. At a time when a new order was taking shape in the space sector, the players being the United States, Russia, Europe and Asia, and when economic difficulties sometimes made it tempting to give up, this book reminds us that in the global sector, nothing is impossible.

When ten-year-old Abbas arrives in England to start a new life - having just fled conscription into the Iranian army and survived almost three months alone in Istanbul, Turkey, waiting for a visa - little does he know that his troubles have only just begun. Abbas's cousin packs him off to boarding school, and infrequent phone calls are his only contact with his beloved mother in Iran. Things get worse when Abbas is threatened with deportation and forced to work through the nights during his school holidays to repay his 'debt', and worse still when, at the age of thirteen, he finds himself homeless. Abbas's extraordinary resilience in the face of overpowering odds makes this story based on true events from the internationally bestselling author of *On Two Feet and Wings* inspiring and unforgettable.

The Girl With Two Lives

How had the pair of elderly Jewish lesbians survived the Nazis?" Janet Malcolm asks at the beginning of this extraordinary work of literary biography and investigative journalism. The pair, of course, is Gertrude Stein, the modernist master "whose charm was as conspicuous as her fatness" and "thin, plain, tense, sour" Alice B. Toklas, the "worker bee" who ministered to Stein's needs throughout their forty-year expatriate "marriage." As Malcolm pursues the truth of the couple's charmed life in a village in Vichy France, her subject becomes the larger question of biographical truth. "The instability of human knowledge is one of our few certainties," she writes. The portrait of the legendary couple that emerges from this work is unexpectedly charged. The two world wars Stein and Toklas lived through together are paralleled by the private war that went on between them. This war, as Malcolm learned, sometimes flared into bitter combat. *Two Lives* is also a work of literary criticism. "Even the most hermetic of [Stein's] writings are works of submerged autobiography," Malcolm writes. "The key of 'I' will not unlock the door to their meaning-you need a crowbar for that-but will sometimes admit you to a kind of anteroom of suggestion." Whether unpacking the accessible *Autobiography of Alice B. Toklas*, in which Stein "solves the koan of autobiography," or wrestling with *The Making of Americans*, a masterwork of "magisterial disorder," Malcolm is stunningly perceptive. Praise for the author:

"[Janet Malcolm] is among the most intellectually provocative of authors . . . able to turn epiphanies of perception into explosions of insight."-David Lehman, Boston Globe "Not since Virginia Woolf has anyone thought so trenchantly about the strange art of biography."-Christopher Benfey

The Soyuz Launch Vehicle

#1 New York Times Bestseller At last, a book that shows you how to build—design—a life you can thrive in, at any age or stage Designers create worlds and solve problems using design thinking. Look around your office or home—at the tablet or smartphone you may be holding or the chair you are sitting in. Everything in our lives was designed by someone. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the possibility of surprise. "Designing Your Life walks readers through the process of building a satisfying, meaningful life by approaching the challenge the way a designer would. Experimentation. Wayfinding. Prototyping. Constant iteration. You should read the book. Everyone else will." —Daniel Pink, bestselling author of Drive "This [is] the career book of the next decade and . . . the go-to book that is read as a rite of passage whenever someone is ready to create a life they love." —David Kelley, Founder of IDEO "An empowering book based on their popular class of the same name at Stanford University . . . Perhaps the book's most important lesson is that the only failure is settling for a life that makes one unhappy. With useful fact-finding exercises, an empathetic tone, and sensible advice, this book will easily earn a place among career-finding classics." —Publishers Weekly From the Hardcover edition.
