## Great Gals

Oden uses a broad brush to paint his narrowly focused subject---salvation by grace through faith. Athanasius, Chrysostom, Ambrose, Basil, Jerome, and Augustine are just some of the figures Oden cites---church fathers whose teachings were restated nearly verbatim by 16th-century Reformers. An accessible and detailed search for the core of this theological linchpin.

## **H.R. 3994, Department of the Interior Tribal Self-Governance Act of 2007**

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The eighteenth-century fascination with Greek and Roman antiquity followed the systematic excavation of the ruins at Pompeii and Herculaneum in southern Italy; and after 1750 a neoclassical style dominated all artistic fields. The titles here trace developments in mostly English-language works on painting, sculpture, architecture, music, theater, and other disciplines. Instructional works on musical instruments, catalogs of art objects, comic operas, and more are also included. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification: ++++ Bodleian Library (Oxford) N019173 In fact probably by Fletcher alone. London: printed for H. ## **Playing the Queen's Gambit**

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

## **Young, British and Muslim**

This is an update of Schandorff's 2009 book, *Playing the Queen's Gambit*. The power of the Queen's Gambit is beyond question, even though it allows some serious defences -- the Slav and Semi-Slav are favoured by the elite, Kasparov was playing the Queen's Gambit Accepted until he retired, and the Queen's Gambit Declined has been trusted for a century. The principled way for White to build a repertoire after 1.d4 d5 2.c4 is to play the critical main lines. Take as much space as possible -- no compromises. The Tarrasch, Chigorin, Albin and all minor lines are

also met with the same vigour -- this is a complete White repertoire after 1.d4 d5 2.c4.

### **In a Dark, Dark Room and Other Scary Stories**

All four of the bombers involved in 7/7, the deadly attack on London's transport system in July 2005, were aged 30 or under. The spectre of extremist Islam looms large and Muslim youth in the UK are increasingly linked to radical Islamic movements. A clear, balanced examination of this complex issue is long overdue. Philip Lewis sets out to address this by looking at the lives and beliefs of young Muslims aged 18 to 30, against a backdrop of the problems any migrant community face. Beginning with an overview of British Muslim communities, he goes on to explore the nature of the intergenerational gap in the Muslim community, showing how normal tensions are exaggerated as children are educated in a language and culture different to that of their parents. Patriarchal 'clan politics' and a breakdown in communication between young Muslims and traditional Muslim leaders are dispossessing Islamic youth, leading a small but significant minority to turn to radical groups for somewhere to belong and something to believe in. Lewis concludes by identifying a generational shift from 'clan politics' to what he calls a 'new professionalism' and demonstrates how new organizations and networks of Muslim thinkers are springing up all the time - allowing young Muslims to find positive identities and outlets for their concerns and energies.

## **Tobacco; Its History and Associations**

Lars Schandorff's two volumes on 1.d4 were celebrated by reviewers and grandmasters. GM Simen Agdestein said: I have recently been reading Lars Schandorff's Playing 1.d4 books, thinking that it cannot possibly get more instructive than this. Meanwhile, GM Boris Avrukh's verdict was simple: Lars, I want to play your book. Now Schandorff switches sides and offers a top-class Semi-Slav repertoire against 1.d4. The Semi-Slav strikes the perfect balance of ambition and soundness, which has made it popular at every level up to and including the world championship. Black needs to know his stuff, but Schandorff is the ideal guide to make the learning process a pleasure."

Master storyteller Sonya Hartnett crafts a magical and moving fable about war and redemption . . . and what it means to be free. When the Germans attack their Romany encampment during World War II, Andrej and his younger brother, Tomas, flee through a ravaged countryside under cover of darkness, guarding a secret bundle. Their journey leads to a bombed-out town, where the boys discover a hidden wonder: a zoo filled with creatures in need of hope. Like Andrej and Tomas, the animals--wolf and eagle, monkey and bear, lioness and seal, kangaroo and llama-- have stories to share and a mission to reclaim their lives.

Chile peppers are hot--they add culinary fire to dishes from a variety of cuisines and inspire near-fanatical devotion in vegetable gardeners and collectors. The Complete Chile Pepper Book, by world-renowned chile experts Dave DeWitt and Paul W. Bosland, shares detailed profiles of the one hundred most popular chile varieties and include information on how to grow and cultivate them successfully, along with tips on planning, garden design, growing in containers, dealing with pests and disease, and breeding and hybridizing. Techniques for processing and preserving include canning, pickling, drying, and smoking. Eighty-five mouth-watering recipes show how to use the characteristic heat of chile peppers in beverages, sauces, appetizers, salads, soups, entrees, and desserts. This gorgeously illustrated, must-have reference for pepper-obsessed gardeners and cooks.

## **Gendered Compromises**

With this book, Karin Roseblatt presents a gendered history of the politics and political compromise that emerged in Chile during the 1930s and 1940s, when reformist popular-front coalitions held power. While other scholars have focused on the economic realignments and novel political pacts that characterized Chilean politics during this era, Roseblatt explores how gender helped shape Chile's evolving national identity. Roseblatt examines how and why the aims of feminists, socialists, labor activists, social workers, physicians, and political leaders converged around a shared gender ideology. Tracing the complex negotiations surrounding the implementation of new labor, health, and welfare policies, she shows that professionals in health and welfare agencies sought to regulate gender and sexuality within the working class and to consolidate the male-led nuclear family as the basis of societal stability. Leftists collaborated in these efforts because they felt that strong family bonds would generate a sense of class belonging and help unify the Left, while feminists perceived male familial responsibility as beneficial for women. Diverse actors within civil society thus reworked the norms of masculinity and femininity developed by state agencies and political leaders--even as others challenged those ideals.
