Traditional Systems of Medicine

The Age of Responsibility

The study delineates interrelationships between the thermal environment, specially the prolonged seasonal heat stress, and human life and culture in North India. The subject is first treated historically, with a survey of the ideals and behavior of man's adaptation to the climate in ancient and medieval India, and in colonial Anglo-Indian society. Present-day adaptations to the climate, as reflected in housing, clothing, technology, daily regimen, and diet are described and examined in greater detail. The second part of the report centers on heat injuries, with a survey of their worldwide epidemiology, and statistics and maps showing their incidence since 1960 in the state of Uttar Pradesh. The folk beliefs, concepts and therapy which are generally applied in rural North India to the occurrence of heat injuries are described and examined. Appendices further describe the recognized heat disorders and the scientific indices for assessing comfort and heat stress. (Author).

Hamdard Pharmacopoeia of Eastern

Medicine

The drugs of herbal, herbo-mineral and animal origin have been used by the traditional healers to maintain health and treat diseases since the dawn of civilization. This book contains chapters on Good Laboratory Practices (GLP) and Good Manufacturing Practices (GMP) of traditional medicines.

Medicine and Life Sciences in India

This landmark book shows how the old model of corporate sustainability and responsibility is being replaced by a second generation movement that goes beyond the outmoded approach of CSR as philanthropy or public relations concern to a more authentic, stakeholder-driven model. The author describes the new concept and mission of the new movement and explains its agenda in a succinct guide that will be useful for CSR professionals, including managers, consultants, academics, and non-governmental organizations.

Hyderabad Trade Directory

It is the saga of riots that had spread much before the partition of India. There were murders, rapes, abductions, looting, and arson, and the government machinery miserably failed to control it. The law and order had gone haywire. The novel is mainly the story of three young boys who had lost their entire family during the riots. One of them though, academically brilliant and career wise, reached a coveted position but could not adjust with the unfamiliar ambiance and was a social misfit and a failure in life. The other two, through their sheer grit, made a mark in their life and bravely faced all the odds and obstacles in an alien milieu. The novel is full of pathos, events, drama, romance, and typical Punjabi sense of humor. The book advocates against religious bigotry without being didactic, because of which mankind is suffering till date. It is a great subject for a movie.
