The circumstances in which this book came to be written are as follows. Some five weeks after the survivors from the Titanic landed in New York, I was the guest at luncheon of Hon. Samuel J. Elder and Hon. Charles T. Gallagher, both well-known lawyers in Boston. After luncheon I was asked to relate to those present the experiences of the survivors in leaving the Titanic and reaching the Carpathia. When I had done so, Mr. Robert Lincoln O'Brien, the editor of the Boston Herald, urged me as a matter of public interest to write a correct history of the Titanic disaster, his reason being that he knew several publications were in preparation by people who had not been present at the disaster, but from newspaper accounts were piecing together a description of it. He said that these publications would probably be erroneous, full of highly coloured details, and generally calculated to disturb public thought on the matter. He was supported in his request by all present, and under this general pressure I accompanied him to Messrs. Houghton Mifflin Company, where we discussed the question of publication. Messrs. Houghton Mifflin Company took at that time exactly the same view that I did, that it was probably not advisable to put on record the Loss of the SS. Titanic, by Lawrence Beesle 4 incidents connected with the Titanic's sinking: it seemed better to forget details as rapidly as possible. However, we decided to take a few days to think about it. At our next meeting we found ourselves in agreement again, --but this time on the common ground that it would probably be a wise thing to write a history of the Titanic disaster as correctly as possible. I was supported in this decision by the fact that a short account, which I wrote at intervals on board the Carpathia, in the hope that it would calm public opinion by stating the truth of what happened as nearly as I could recollect it, appeared in all the American, English, and Colonial papers and had exactly the effect it was i

Albert and Sylvia Caldwell were one of those rare Titanic families who lived through the tragedy at sea. Their lucky rescue aboard the Lifeboat 13 is told for the first time here. But the trip was only one part of a bigger nightmare. The Caldwells has been Presbyterian missionaries in Bangkok, Siam, but fled in what they described as a desperate journey around the world to save Sylvia's health. Fellow missionaries, however, believed that the couple had plotted to renege on their contract at financial loss to the church. Not even sinking Titanic ended the hunt for the Caldwells. A Rare Titanic

Books have been written, films made, we have raised the Titanic and watched her go down again on numerous occasions, but out of the wreckage Frances Wilson spins a new epic: when the ship hit the iceberg on 14 April 1912 and a thousand men prepared to die, J Bruce Ismay, the ship's owner and inheritor of the White Star fortune, jumped into a lifeboat with the women and children and rowed away to safety. Accused of cowardice, Ismay became, according to one headline, 'The Most Talked-of Man in the World'. The first victim of a press hate campaign, his reputation never recovered and while other survivors were piecing together their accounts, Ismay never spoke of his beloved ship again. With the help of that great narrator of the sea, Joseph Conrad, whose Lord Jim so uncannily predicted Ismay's fate - and whose manuscript of the story of a man who impulsively betrays a code of honour and lives on under the strain of intolerable guilt went down with the Titanic - Frances Wilson explores the reasons behind Ismay's jump, his desperate need to make sense of the horror of it all, and to find a way of living with lost honour. For those who survived the Titanic the world was never the same again. But as Wilson superbly demonstrates, we all have our own Titanics, and we all need to find ways of surviving them.

From the New York Times bestselling author of The Downstairs Girl comes the richly imagined story of Valora and Jamie Luck, twin British-Chinese acrobats traveling aboard the Titanic on its ill-fated maiden voyage. Valora Luck has two things: a ticket for the biggest and most luxurious ocean liner in the world, and a dream of leaving England behind and making a life for herself as a circus performer in New York. Much to her surprise though, she's turned away at the gangway; apparently, Chinese aren't allowed into America. But Val has to get on that ship. Her twin brother Jamie, who has spent two long years at sea, is there, as is an influential circus owner, whom Val hopes to audition for. Thankfully, there's not much a trained acrobat like Val can't overcome when she puts her mind to it. As a stowaway, Val should keep her head down and stay out of sight. But the clock is ticking and she has just seven days as the ship makes its way across the Atlantic to find Jamie, perform for the circus owner, and convince him to help get them both into America. Then one night the unthinkable happens, and suddenly Val's dreams of a new life are crushed under the weight of the only thing that matters: survival.

IN the early morning hours of April 15, 1912, the icy waters of the North Atlantic reverberated with the desperate screams of more than 1,500 men, women, and children—passengers of the once majestic liner Titanic. Then, as the ship sank to

the ocean floor and the passengers slowly died from hypothermia, an even more awful silence settled over the sea. The sights and sounds of that night would haunt each of the vessel's 705 survivors for the rest of their days. Although we think we know the story of Titanic—the famously luxurious and supposedly unsinkable ship that struck an iceberg on its maiden voyage from Britain to America—very little has been written about what happened to the survivors after the tragedy. How did they cope in the aftermath of this horrific event? How did they come to remember that night, a disaster that has been likened to the destruction of a small town? Drawing on a wealth of previously unpublished letters, memoirs, and diaries as well as interviews with survivors' family members, award-winning journalist and author Andrew Wilson reveals how some used their experience to propel themselves on to fame, while others were so racked with guilt they spent the rest of their lives under the Titanic's shadow. Some reputations were destroyed, and some survivors were so psychologically damaged that they took their own lives in the years that followed. Andrew Wilson brings to life the colorful voices of many of those who lived to tell the tale, from famous survivors like Madeleine Astor (who became a bride, a widow, an heiress, and a mother all within a year), Lady Duff Gordon, and White Star Line chairman J. Bruce Ismay, to lesser known second- and third-class passengers such as the Navratil brothers—who were traveling under assumed names because they were being abducted by their father. Today, one hundred years after that fateful voyage, *Shadow of the Titanic* adds an important new dimension to our understanding of this enduringly fascinating story.

Violet Jessop's life is an inspiring story of survival. Born in 1887 in Argentina, the eldest child of Irish immigrants, at the age of 21 she became the breadwinner for her widowed mother and five siblings when she commenced a career as a stewardess and nurse on some of the most famous ocean going vessels of the day. Throughout her 40 year time at sea she survived an unbelievable series of events including the sinking of the TITANIC. "One awful moment of empty, misty blackness enveloped us in its loneliness, then an unforgettable, agonizing cry went up from 1500 despairing throats, a long wail and then silence and our tiny craft tossing about at the mercy of the ice field." For most people one sinking would be enough. But four years later Violet, now a nurse with the British Red Cross, was on board the World War I hospital ship BRITANNIC when it struck a mine and sank to the bottom of the Aegean. To her, this disaster was even more horrifying-- "Just as life seeming nothing but a whirling, choking ache, I rose to the light of day, my nose barely above the little lapping waves. I opened my eyes on an indescribable scene of slaughter, which made me shut them again to keep it out." By the end of her story we have met a woman who could handle whatever life threw at her with determination and good humor. She knew that only by her own strength of character would she survive. But *Titanic Survivor* is much more. A unique autobiography for those who want to know how it really felt, a story that could be told only by a Titanic Survivor.
