Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Does your learner need help with writing paragraphs? The How to Write an Awesome Paragraph Step-by-Step workbook teaches your students how to write a strong paragraph using a foolproof step-by-step process. Each incremental lesson teaches one step and contains practice examples to build skill and confidence. Students learn:

- The parts of a paragraph
- How to write a strong topic sentence
- How to write relevant details that connect to the topic sentence
- How to write a meaningful closing sentence

For each step, students learn the basic process and then are taught how to "upgrade" the element to be even stronger. For topic sentences, students learn to upgrade by:

- Adding a question
- Introducing a comparison
- Stating an interesting fact
- Setting the scene with a description
- Grabbing attention with shock/excitement

Similar clearly explained upgrades are taught for relevant details and closing sentences. Being able to write a strong paragraph is important for all students. Students without strong paragraph skills will especially struggle when it comes to essays or other

The New York Times–bestselling author of *Find Me and Call Me by Your Name* returns to the essay form with his collection of thoughts on time, the creative mind, and great lives and works. Irrealis moods are a category of verbal moods that indicate that certain events have not happened, may never happen, or should or must or are indeed desired to happen, but for which there is no indication that they will ever happen. Irrealis moods are also known as counterfactual moods and include the conditional, the subjunctive, the optative, and the imperative—all best expressed in this book as the *might-be* and the *might-have-been*. One of the great prose stylists of his generation, André Aciman returns to the essay form in *Homo Irrealis* to explore what time means to artists who cannot grasp life in the present. Irrealis moods are not about the present or the past or the future; they are about what might have been but never was but could in theory still happen. From meditations on subway poetry and the temporal

resonances of an empty Italian street to considerations of the lives and work of Sigmund Freud, C. P. Cavafy, W. G. New! I now have a 4 part video series available on YouTube that can be used as a companion to this book. When you're on YouTube, just search "Test Prep Spot Elizabeth" to find the videos. My name is Elizabeth and I'm the creator of The Test Prep Spot. I'm also a private tutor for high achieving students preparing for the SAT. Additionally and most importantly, I'm a special education teacher in a public school working with students who have learning and language challenges. The more I tutored, the more concerned I became about my special education students. They would need more supportive materials in order to understand what's covered on the SAT. They would also need simplified, explicit instruction in content and strategy. So, I made my own study guides and The New SAT Essay Writing Guide is my answer to this problem. Inside the guide, you will find step-by-step instructions that take you from start to finish. This book provides a formula (or template or plan) for writing the New SAT Essay. I begin by analyzing the prompt and tell you exactly the kind of essay you're expected to write. Then, I teach you about the most common persuasive devices used on published sample and practice essay questions. Next, I break down a passage and identify each persuasive device that's used by the author. Then, I examine three effective example essays (based on just one passage) to show you how to use the formula. The example essays are even color-coded to help with understanding the formula. Finally, the guide ends with a reproducible template, which is extremely

helpful for organizing thoughts and learning this writing process. Who should use this guide? I truly believe it can help everyone, but it can be especially beneficial for students who need explicit, step-by-step instructions and formulas to be successful writers. So, you're looking for some guidance on essay writing to get you ready for university or college? But, you also can't be bothered to spend hours reading some boring book about it. No worries my friend, you have found exactly what you are looking for! This quick down & dirty guide will gently take your hand and walk you through the whole process from start to finish. If you follow the steps outlined in this guide, I can almost guarantee you that the stresses and worries of writing essays will be swiftly put to bed. As the title suggests, this is a 'quick' guide and should take you just over an hour to read from cover to cover. The reason I wrote this guide was to give students some reassurance that writing essays can be an enjoyable and very rewarding process. Also, as a lovely little bonus, this guide also comes with an associated YouTube channel titled 'Down and Dirty Essay Tips' that I will personally be contributing to. This channel will host some very amateur animated videos that explain some of the processes included in this guide. So, go check it out!

**MESSAGE FROM THE AUTHOR** Dear Student, From the bottom of my heart, I want to take this opportunity to thank you for considering this guide whilst seeking out assistance in your higher education essay writing. I decided to compile this guide immediately after completing an LLM in International Human Rights Law as I wanted to record all the tips and tricks I had acquired from my own experiences, so that future students may benefit from them. It wasn't until the very final semesters that I had finally started to grasp the fundamentals of the essay writing process, and begun to perfect my own tried and tested model! I wish that there had been a guide like

this one available to me at the very start of my studies so that I did not have to go through the trial and error process to perfect this process. This is what motivated me to compile this guide for you to benefit from. Subsequently, I was awarded a Distinction for the above mentioned LLM as well as previously gaining a First-Class with Honours undergraduate degree in Intelligence and International Relations. However, the first grades I received during my undergraduate degree for the first two modules were barely scraping a Third (circa 50%). This was a real shock to the system, but I managed to inwardly digest the feedback and gradually improve my grades enough to receive that First-Class grade. Therefore, though I started out on my higher education journey with relatively poor grades, I was able to adapt in order to improve them and finally maintain them at the postgraduate level. As such, I believe I have a wealth of expertise to offer in this present student's guide to writing academic essays. The title of the book was chosen based on the fact that I wanted to keep this guide as short as humanly possible, whilst also including a great deal of useful information. So, it really is a quick down-and-dirty guide, thrown together over a few months, before I started to forget about all the tips and tricks I believe to be essential in gaining those top grades. I sincerely hope that you find this guide useful, and even if you only use a couple of my tips or follow a segment of the overall model, I will be proud. I also mention throughout that I have designed this guide so that you as the reader can reach your full potential at university, but also to alleviate any anxiety that may be associated with the stresses of higher education life. I genuinely mean that. Some people like to say, 'Good luck,' at times like this, but I prefer the Japanese version, 'Ganbatte,' which literally translates as, 'Do your best!' So, don't leave things to chance. Just do your best! Josh
