National Center for School Mental Health (NCSMH) Welcome to the National Center for School Mental Health. The mission of the National Center for School Mental Health (NCSMH) is to strengthen policies and programs in school mental health to improve learning and promote success for America's youth. From its inception in 1995, the Center's leadership and ...

INTRODUCTION. A role for social workers in mental health was established early in Canada's history of service delivery in this field. Primary mental health care was institutionally based for the first half of the century, with a period of de-institutionalization beginning in the late sixties preceding the current emphasis on community-based care.

Read More Mental Health and Substance Use Treatment. The Visions Program at Foundations for Living is a residential treatment program for adolescents living with a psychiatric illness, chemical dependency or a dual diagnosis of both. Attitudes to mental illness started to change from the late 1700s onwards, with an increased recognition that the solution to mental illness was care and treatment rather than confinement. The 1800s saw the construction of large new mental institutions that offered a range of treatments.
