This book explores the philosophical, ideological and practical dimensions of curriculum using an intercultural lens. It is cross-cultural, comparative and inclusive, with each chapter featuring case studies from a minimum of three countries across different continents. By using the same methods of data collection and analysis for each country level in each chapter, the text explores relationships of curriculum theory, policy and practice both within and between countries. A diverse range of themes is explored, including; social justice and teacher preparation curriculum, language education curriculum, early childhood education and music, curriculum as praxis, curriculum and globalisation, science curriculum, teacher leadership in curriculum implementation, as well as curriculum and history. The exploration of these themes lays the foundation for open dialogue and innovative approaches in exploring curriculum issues within, between and across cultures and contexts.

This engaging retelling of the Southern Sierra Miwok legend features the great Yosemite Valley monolith, El Capitan, and how it came to be. Mother Grizzly Bear thinks that her two playful cubs are wrestling and having fun along the Merced River while she is checking her fish traps. When she returns to join her sons, however, she discovers the cubs are nowhere to be found. It takes an unlikely hero to bring her cubs safely home. Populated with characters based on real Sierra animals, this story is about the value of all beings, the nature of courage, and the idea that being a hero has very little to do with one's size. Includes notes about the life and culture of the Southern Sierra Miwok and a bibliography.

Captain Arsenio was a curious man who liked, more than anything, to tinker and explore. One day in 1782, he decided that he would put his unusual skills to work in a most ambitious way: he would build a flying machine. Despite a hodgepodge of materials (and a total unawareness of the laws of physics), Captain Arsenio aimed to get his feet off the ground and his head in the clouds—temporarily, at least. But would any of his crazy inventions ever achieve flight? In this hilarious fictional account, Pablo Bernasconi imagines a legend in the making—a retired cheesemaker and scuba diver turned inventor who sets off to fly with the birds, in spite of himself.

Trapped in an extraordinary world after starting, but failing to complete, the mysterious game "Jumanji," a young boy is discovered twenty-five years later by two children who share in his remarkable adventures.

In the final days of World War II, Koreans were determined to take back control of their country from the Japanese and end the suffering caused by the Japanese occupation. As an eleven-year-old girl living with her Japanese family in northern Korea, Yoko is suddenly fleeing for her life with her mother and older sister, Ko, trying to escape to Japan, a country Yoko hardly knows. Their journey is terrifying—and remarkable. It's a true story of courage and survival that highlights the plight of individual people in wartime. In the midst of suffering, acts of kindness, as exemplified by a family of Koreans who risk their own lives to help Yoko's brother, are inspiring reminders of the strength and resilience of the human spirit.
